Block of Business Buildings Destroyed by Fire During the Morning.

LINCOLN, July 4 .- (Special.)-An entire block of business and store houses in Havelock, five miles northeast of this city, was destroyed by fire this morning. The total damage is estimated at \$15,000, which is only partially covered by insurance. The fire started around a range in a restaurant and spread rapidly in all directions, totally destroying the buildings occupied by Kenworthy & Brown's store and Piper's pool

room. The buildings occupied by Dr Hitchcock, Moran and Mayor Johnson were almost totally destroyed. A strong wind made it impossible to confine the flames within the building where they originated and several pieces of apparatus were sent out from this city to reinforce the local department. The fire had gained such headway that the efforts of the firemen were futile. The fire is the most disastrous ever experienced in the village and will tie up all kinds of business for several weeks.

Bryan, which like the waving of a magic wand had conjured up a scene of such wonderful enthusiasm as has seldom been witnessed in a political convention, he began to rap for order, but the delegates were not yet ready to yield the floor even to the chairman of the convention. The band in the gallery started a patriotic air and despite the continuous efforts of Chairman Richardson to restore order the demonstration continued for nine and a half minutes longer, its total length being twenty-nine and onehalf minutes.

Order was then sufficiently restored to enable the chairman to recognize Delegate J. G. Johnson of Kansas, who made a motion that the convention adjourn until 10:30 a. m. tomorrow. At 10:34 the chairman declared the convention adjourned.

Mr. Charles Betts, Burr Oak, Mich., writes: One of the features of the convention at Kansas City is the mess made of the arrangements for seating the press representatives of the country. Here is what the Kansas City Journal said yesterday:

Neglect of the Press.

Neglect of the Press. When Kansas City put in a liberal bid for the national democratic convention it was with the united wish of all that the members of the press, who report the con-vention, be given advantages superior to those afforded by any other convention of like importance. Body of Floater Burled.

PLATTSMOUTH, Neb., July 4 .- (Special.) -The verdict of the coroner's jury on the body of the floater taken from the Big Muddy as it was passing this city yesterday was to the effect that he came to his death by drowning in the Missouri river, the cause therefor being unknown. There was nothing found in the clothing or on the body to identify it and it was buried in Oak Hill cemetery. Chief of Police Slater received a telephone message from Omaha today stating that the description of the person given in The Bee fitted a tailor who recently disappeared very mysteriously from that city and that his friends were very anxious to find him, dead or alive.

Prosperity in Western Nebraska.

OGALLALA, Neb., July 4 .-- (Special.)-Quite a large movement in Keith county lands is being had this season. Fifty thousand acres have exchanged hands in the tracts. The cattle industry is likewise flourishing and active. Several trainload of cattle have been unloaded and sold in the past few weeks. Ranchmen report their cattle fattening rapidly on the fine grasses and that the shipping to market will commence earlier than usual.

One lone gray wolf is doing a great amount of damage at a place about thirty miles north of here in the hills. He has killed \$300 worth of cattle in the past thirty days and the damage to the balance of the herd is as much more, as they are fright ened and stampede nearly every night.

Crop Conditions at Farnam.

FARNAM, Neb., July 4 .- (Special.)-The prolonged heated drouth was broken last evening by a heavy shower. The amount of precipitation has not been as large as was hoped, but will probably have the effect of ridding the grain, and especially the corn, of the chinch bugs, which were practically taking possession of the fields. A large proportion of the oats has been mowed for hay, the grasshoppers having beheaded it. Rye and fall wheat are fairly good, especially the rye. Spring wheat is a total fail ure and not much of it will be harvested. This rain will probably save the corn and make a crop.

The last great national contest for su-premacy was fought mainly upon one issue, that is to say, one issue was paramount in the struggle. That issue was familiarly called "16 to 1." The momentous issue this year is again 16 to 1, but the sixteen parts to the one part of this campaign, which I will briefly discuss, are wholly different from those of 1896. I will first refer to the sixteen parts and then to the one part. These distore parts The effort was useless, however, and, held firm by the Tammany men, New York kept its place. The Georgia men, wrought up by their failure to equal New York, made a rush for the speaker's stand. They went through the crowd with a force that no opposition of the crowd before them could prevent and pushing, shoving, clawing and cheering, they hoisted their man upon the platform and lifted him upon a chair. The effort was successful and New York was

from those of 1856. I will first refer to the sixteen parts and then to the one part. These sixteen parts are: First-We have that of the renublic against the empire. On this part alone of the sixteen, if there were no other, we condently expect to win a sweeping vic-tory in November. The republican party stands for empire. The democratic party stands for the republic. Second-The paternal and fostering care given by those with whom we contend to the combinations of corporations and com-panies into powerful organizations famil-iarly known as trusts. Under three years of republican rule, while they controlled the presidency, the senate and the house of representatives, that is, all of the law-making power of the government, trusts have been propagated and fostered by leg-islation until they not only dominate all markets, both the buying and selling, but defy the very power of the government itself. eclipsed once more. Kellar is no small man to hold aloft in a crowd of struggling, pushing men and the Tammany crowd was nearly ready to drop with exhaustion, but a glance at the Georgia banner brought strength into their wearied arms and new determination into their hearts and Mr. Kellar went up still higher and New York was on top once more.

Kansas Ci a man who stood for new issues. The boom for Stevenson had the effect of somewhat checking the progress of the Towne adherents and there are some men who say that, if it accomplishes nothing more, it will hold the convention away from Towne until another democrat can be found.

Indiana will present the name of Benjamin F. Shively for vice president. This determination was reached at a meeting held this morning. Mr. Shively was present at the meeting and while he stated that he did not want to be a candidate he said will start in time for the campaign. he could not refuse if nominated. Under these conditions the delegation decided to

present his name and Major Menzles will make the nomination speech.

LITTLE TIME FOR CONTESTS skyrocket.

Committee on Credentials Makes Quick Work of Matters **Brought Befort It.**

KANSAS CITY, July 4 .- The committee on credentials made quick work of the contests. It assembled at the Kansas City club and Edward Gray of Texas was made chairstate of frantic excitement. The men from man. The only hearing given was to the District of Columbia and the committee decided to admit both delegations with half a vote.

> When the Indian territory case was reached Chairman Gray called out: "Sheriff, bring in the Indian territory contesting delegations, search them and take away their knives and pistols and then give them the gloves."

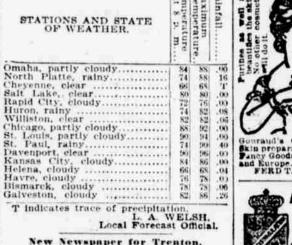

After a very brief hearing each delegation was seated with half a vote.

The greatest contest was on the Montana delegation and when it was called a motion was made to ratify the action of the national committee and seat the Clark delegation. A substitute to give each side a hearing was defeated by a vote of 33 to 13 and the Clark delegation was seated without division.

The Oklahoma contestants were given half a vote each, although there was a protest from both factions.

Two New York men, Forest and Mahony representing what they said were "the Bryan lemocracy of New York," wanted a hear-They had a hearing before the New ng. York state delegation yesterday and the credentials committee decided not to take up the matter.

was a row. The New York men and the Oklahoma men began speaking. The crowd surged in, mounted chairs and pushed up around the chairs. Mahony made himself chairman and attempted to secure order. An attempt was made to get the dissatisfied element from all states and territories to organize a protest and submit a minority report to the convention. Finally Mahony got order long enough to make a speech denouncing Hill, Croker, Murphy and Van Wyck and the democrats who supported them. Soon there was pandemonium and
