TRACK NEARLY COMPLETED known length.

Rievele Dealers' Association Will Try to Secure One of the National Meets for Omaha.

The new eight-lap board bioscle track new under process of construction will soon be completed and the Omaha Cycle Dealers' Track association announces that a series of the best bicycle races the country affords. to now an assured fact. Effort will be made be given of the efficacy of vaccinations. There to secure a national meet for Omaha, and have been more than twenty-five cases and MABEL BAKER, Glenwood with this end in view Mr. Allen will leave for the casi in a few days. He will use been a patient among this number who has every effort to procure for this city a string been confined to his bed. All of the cases of eastern riders to come here early in August. Local wheelmen are now in training and expect to take ad antage of the splendid opportunities that will be afforded by had been vaccinated at some time in their the new track. Among the old-time cracks vaccination saved many of the persons from who are expected to be heard from are George Meierstein, "Faithful" Gadke and W. A. Fixley.

Promoters of the new track assert that there will be no faster bicycle track in the world than right here in Omaha, as it is to be hanked to a speed of 1 30 to the mile. Up to two years ago it was thought imposeible to make records on anything shorter than a third mile truck, and even then it was considered that a mile flat track with a good surface was faster than the so-called "short" biovcle tracks. In the spring of 1896 Manager Gleegen of the Stearns bloycle team found the third mile track at Santamona. Cal., much too slow for the then existing records, and was forced to move to Coronado. Cal., to the mile track, in order to break existing records. In the last two years, however, short tracks, even down to eight laps to the mile, have been constructed on such improved lines that there is now no cuestion that speed equal almost to a straightsway course can be obtained from an eight-lap track, such as the one being built in Omaha

The designer of this track, H. B. Gleegen is one of the oldest men in the bloycle. game, having been a rider, promoter, manager of one of the greatest bicycle teams the country and designer of biofile tracks, and having seen and had experience on all of the famous tracks of this country.

An evening with Robert Burns, the im-mortal bard of the Scots, was accorded a mortal bard of the Scole, was scorado a small but andresiative audience of Comaha people in the subitorium of the Young Men's Christian Association hall last night Miss Jean Howsen of Perits Sciland, was the jecturer. She said that Burns writings had fulfilled the mission of rotery. Ho has used his per for the elevation of mar-kind, to keep alive elevation of markind, to keep alive entitionants to attemption integrity and to recommend in cerity. The study of his postry is a great with mure and ennobling thoughts and leaves no room for evil ones.
