

MUST RETURN TO COLORADO

Maniacola Given Into Custody of Sheriff Clark of Trinidad.

HE IS WANTED THERE FOR ROBBERY

Believed that He is One of Three Conspirators Who Had Planned to Make the Hunt and Flee to Italy.

O. C. Clark, the sheriff from Trinidad, Colo., arrived in Omaha yesterday to take into custody the prisoner, Michael Maniacola, who has been in the city jail since Sunday.

Maniacola, an indigent fruit peddler of Trinidad, is charged with stealing \$500 belonging to his brother-in-law, Ness Assyo. While being searched at the police station Sunday a belt was found concealed under his clothing containing \$52, which is believed to be a part of the loot.

Maniacola, an indigent fruit peddler of Trinidad, is charged with stealing \$500 belonging to his brother-in-law, Ness Assyo.

"Back of the robbery," said Sheriff Clark, "was a murder, and it is believed that the theft of the \$500 was but an incident in a plot hatched by Maniacola, his brother, Anton, and his sister. The sister was married to a worthless fellow named Moretz Moroso.

The sister and the brother, Anton, were arrested, charged with murder and were convicted in the lower court. Their attorneys however appealed and in the higher tribunal the case was remanded for a new trial, but it was not heard the second time.

"Meanwhile the woman, being out on bond, married again, taking as a husband a well-to-do miner named Ness Assyo, with whom she had been on very friendly terms for several years. Maniacola, it seems, learned that Assyo had a large sum of money concealed about the house, and one night about a week ago he secured this treasure and decamped. The supposition is that the sister and brother were in the conspiracy with him and intended joining him in Italy."

SHORT MEASURES COMMON

Fruit and Vegetable Peddlers Are Making Allegedly Too Much Use of Them.

The use of short measures has become so common among the fruit and vegetable dealers of the city, particularly among the peddlers, that City Attorney Council is contemplating a new ordinance which will provide a severe penalty for the manufacture of measures that fall below the standard.

MEANEST MAN IN NEBRASKA

Causes the Arrest of a Man Who Had Sold Him Whisky for His Sick Wife.

Emerson Benedict, deputy internal revenue collector, thinks he has found the meanest man in the state of Nebraska in the person of a resident of a small village a few miles from Omaha.

A day or two ago the collector's office received a letter stating that the principal merchant of the place was selling whisky without a license. Accompanying the letter was an affidavit of a citizen of the place setting forth that he had purchased whisky from the merchant. Armed with the letter and the affidavit Mr. Benedict made a trip to the village and investigated the case.

He found that the merchant had at his home a jug of whisky, which he had purchased for his own consumption; that the man who made the affidavit was the husband of a woman in delicate health and that a day or two before the affidavit was signed he had called upon the merchant and told him that liquor had been prescribed for his wife and that none could be purchased in the village. Taking compassion upon the wife of the man the merchant gave him a pint of whisky and the man, over the protest of the merchant, paid him for the liquor and immediately filed an affidavit with the merchant's business rival, who had the letter sent to the collector.

Under the circumstances the deputy required the merchant to pay two months' tax as a retail liquor dealer and the penalty for selling without the license.

The New Treatment for Rheumatism.

The treatment of rheumatism by the application of electricity is recommended by the leading physicians everywhere. It is also well known that there is nothing so good as thorough massage treatment in combination with a Russian or Turkish bath. The Renstrom treatment, which is given at the bathery in suite 216-218-220 of the Bee building, is the result of long study of both the disease and the mechanical and electrical apparatus, which is in use there.

This treatment, combining as it does the best of thermal baths with electrical application, together with massage treatments by experienced masseuses, will bring relief where nothing else is of avail. The most obstinate cases are relieved and cured. Everything is most conveniently arranged for this novel but effective method of combating rheumatism.

The institute is conducted for ladies only and a maid is in attendance for their convenience, as well as lady masseuses. Appointments may be made by telephone No. 1716. If you are being treated by a physician it will be well to consult him first and have him give his directions regarding the application of electricity and their frequency. Otherwise free advice will be given by Mr. Renstrom, the inventor, who is in charge of the institute.
