

IN THE DOMAIN OF WOMAN.

How They Dress for the Various Functions at Fashionable Resorts.

NEW YORK, July 12, 1900.—Not only is this the prime of summer time, but of fashion time as well, and all the brightest flowers of the loom and needle are blossoming prodigally just now at dances and dinners at seaside and country houses.

skirt of sheer white lawn, having two bands of black embroidery done on white muslin, running through the snowy breadths at the region of the knees.

A SWEET IVORY WHITE LIBERTY SATIN, SHOWING THE POPULAR USE OF PUFFS IN TRIMMING.

Into a box packed with charming stock for a temporary shop in one great seashore hotel, went a trio of dressing gowns that were not only exquisite in themselves, but were valuable in the sight of any thrifty woman as quite perfect models on which to build, of less expensive stuff than the originals, an outfit of admirable and washable negliges.

Foulard, figured and plain, was the material of the first that seemed in every respect pretty enough to be worn to a family breakfast table. The ground of the foulard was cream white with strange skeleton leaves in pale green scattered broadcast upon the pale surface.

To make this lounging costume quite complete, the designer of it displayed a harmonious under petticoat of cream white watered silk heavily striped in green satin and completed at the bottom by a deep flounce of coarse cream lace gathered upon a double ruffle of pinked green taffeta.

For Half Mourning Wear. A second choice to the green study was a delightful mourning jacket for someone in half mourning and which in inexpensive wash silk or dimity fairly invited imitation.

HAYS HAIR HEALTH ALWAYS BRINGS BACK YOUTH

All color, life and beauty to gray, white or bleached hair. Hays Hair Health grows on bald heads and immediately arrests the fall of hair. Cures itching scalp, dandruff and itching scalp. It is a clean, beautiful hair dressing for men and women. Nothing like it or just as good. Unequaled as a quick hair grower.

A SKIN OF BEAUTY IS A JOY FOREVER. DR. T. FELIX GOUBAUD'S ORIENTAL CREAM, OR MAGICAL BEAUTIFIER.

Third and last, but not least, in the group was a toilet blouse of striped wash silk, of the twisted variety that so gallantly withstands wear and tugging. All about it ran a ruffle of white wash silk, cut in points and button-holed along the edges and then embroidered in every point with a little pink star shaped flower.

How much, by the way, we are wearing green this summer. The shawnee, or Irish green, silk sun shade has, in a measure, usurped the place once held by the tawny and always harmonious black and white parasols and chiefly because, in the judgment of the tasteful school there, it forms in dress, as it does in nature, a perfect ensemble with all other colors.

The Crase for Green. In Paris the craze for green is in full swing. It is wrought in with white, lavender and gray, especially to the end that no woman thinks herself complete without a green toned frock or two. Just how this color, beloved of Ireland, is used, is admirably demonstrated by the little tete frock made for an American girl who is seeing the exposition at this summer.

How much, by the way, we are wearing green this summer. The shawnee, or Irish green, silk sun shade has, in a measure, usurped the place once held by the tawny and always harmonious black and white parasols and chiefly because, in the judgment of the tasteful school there, it forms in dress, as it does in nature, a perfect ensemble with all other colors.

There is always at the summer hotels a thriving trade to be done in novel hair ornaments for the evening and the fabricators of such airy nothings have quite surpassed themselves in the uniqueness of their new bows and coronets, etc. A seductive little oddity which, however, only the matrons are privileged to wear, is the tiara of ostrich tips. Of jet, or steel beads, or peculiarly cut palettes the base of the tiara is made and from it springs up a row of nine tiny fountain-shaped ostrich feathers, out of which in turn tower five club-shaped chipped tips and when such a tiara is built of black feathers and jet the consequence is stately, dazzling and enviable.

Debutantes and unmarried belles, who wish to create their bright locks with some effective ornament, can find their ideas fulfilled by the charming stiffened silk muslin wings encrusted in lace and turquoise or coral points and the three fans of transparent material rising from a knot of blue or pink panne, adjusted to a tortoise shell hairpin. Sometimes four slips of beaded muslin are arranged like the broad arms of a windmill, springing from a hub of tulle and this bright fringe is thrust in at the side of a high piled coronet of lace or a spangle bedded butterfly with lace encrusted wings of

the ground, and which ordinarily is removed before the stone is polished and set. Some of these strange, mysterious looking rings are really old, some of them only look so. A few of them have an interesting history; they all look as if they ought to have.

The history can be made, however, by the wearer, and undoubtedly these massive rings, with their rich, dull stones, have a fascination that the gleaming solitaire does not possess. Moreover, they are less expensive. A good looking ring, without stones, or merely small ones for dragon's eyes, can be bought for from \$15 to \$20 and a really beautiful one, with an uncommon looking gem, can be bought for from \$25 to \$50.

IS YOUR HAIR DEAD? What the Microscope Reveals Regarding Diseased Hair and Its Follicle.

Nine-tenths of all diseases of the hair and scalp are caused by microbes and micro-parasites. The microscope, in the hands of the skilled physiologists and bacteriologists of the Cranitonic Institute, has proven this fact. The importance of the discovery cannot be over-estimated. It explains why ordinary hair preparations are of no value in the treatment of falling hair, dandruff, premature baldness, and other hair and scalp diseases. It is because they are manufactured without any exact knowledge of the real cause of the diseases which they are intended to cure. We know that diseases of the hair and scalp are caused by microbes and parasites. The cause being microbial or parasitic, it logically follows that a cure can only be effected by a scientific microbicide—a specific that will destroy the microbe. This Cranitonic Hair Food and Scalp Soap will do. Your hair receives its nourishment from minute blood vessels which end in a long sheath in which the hair grows. This sheath is the home of the microbe, the delicate lining of which it soon destroys. In time the hair root is affected, becomes shriveled up and the hair falls out. If the ravages of the microbe are not arrested, baldness soon follows. Cranitonic Hair Food cures diseases of the hair and scalp because it destroys the cause which produces them. It does more—it feeds the weakened hair follicle back to health and aids in replacing lost tissue. Split hair, bare hair, lustreless hair, brittle hair, falling hair, and prematurely gray hair can all be cured by the use of Cranitonic Hair and Scalp Food. It cleanses the scalp from dandruff and keeps it permanently clean and healthy. Itching and irritation of the head are instantly relieved and positively cured. Unlike ordinary hair preparations, Cranitonic Hair and Scalp Food contains no oil, grease or dangerous mineral ingredients. It is not sticky and will not clog the scalp or stain the clothing. It is perfectly harmless, clear as crystal, sparkling as champagne, delightful to use and most exhilarating in its effects upon the system. To convince every reader of this paper that Cranitonic Hair Food and Scalp Soap will stop falling hair, make hair grow, cure dandruff and itching scalp, and that they are the only hair preparations fit to put on the human head, we will send by mail, prepaid, to all who will send name and address to CRANITONIC HAIR FOOD CO., 149 TEMPLE COURT, NEW YORK CITY, a bottle of Cranitonic Hair Food and a sample cake of Shampoo Scalp Soap. Send your 25 cents in stamps or money, as the edition of this collection of Sherlock Holmes stories is limited. Mention this paper when writing. NEW YORK LIFE, 1293 & 1295 Broadway, New York.

A BEAUTIFUL COMPLEXION FREE. Mmc. A. Ruppert's World Renowned Face Bleach almost Without Cost. No matter how Blemished the Skin, Face Bleach will make it perfect. Madame A. Ruppert says: "I know there are many ladies who would like to try the merits of my Face Bleach, but on account of the price, which is \$3.00 per bottle, or three bottles for \$8.00, have had some hesitancy in spending that amount to convince themselves of its great value. Therefore, during the month of July, I will depart from my usual custom and offer to all a trial bottle, sufficient to treat the face, neck and throat, for 25 cents per bottle. Any reader of this paper who sends me a trial bottle of my world-renowned Face Bleach, secured in plain wrapper, sealed, all charges prepaid. An opportunity to test so famous a remedy at so slight a cost is a rare one, and I trust that the readers of this will take advantage of it, as the offer may not be repeated. Madame A. Ruppert has now been before the public for over twenty years as the greatest Complexion Specialist. She is the pioneer in her art, and stands pre-eminent at the head, she has had thousands of imitators, but not a single one who has equaled her in the results she has achieved. Her Face Bleach is not a skin irritant, but has been used by the best people for years and for its purifying and softening skin, sunburn, moth, freckles, sallowness, blackheads, eczema, pimples, and all other blemishes of the face, and for brightening and beautifying the complexion, it has no equal. It is Absolutely Harmless to the most delicate skin. The marvelous improvement after a few applications is most apparent. For the skin becomes as nature intended it should be. SMOOTH, CLEAR AND WHITE, free from every impurity. It is so simple to use that it is a failure, for its action is such that it draws the impurities out of the skin, and does not cover them up, and is so simple to use. This is the only thorough and permanent skin treatment. For the present I will, as stated above, send a trial bottle of my Face Bleach to anyone who will send me a trial bottle of my Face Bleach, secured in plain wrapper, sealed, all charges prepaid. An opportunity to test so famous a remedy at so slight a cost is a rare one, and I trust that the readers of this will take advantage of it, as the offer may not be repeated. MADAME A. RUPPERT 6 East 14th Street, New York

AdSense. A monthly publication full of good things, tersely told. That you may become acquainted, send a dime—coin or stamp—for sample copy. If you've already seen it, you want it, you'll get it for a year if you send a dollar to Ad Sense, 82 Fifth Ave., Chicago.
