from the farmers' standpoint.

G. R. Williams of the Elk City club submitted some statistics to show the traffic that such a line would enjoy. He said that on September 18, 1896, there passed through Benson toward Cmaha 178 teams, of which a traveling man named L. A. Thompson, list. eighty-nine were loaded with farm products who was vice president of the Bryan Travand seventy-nine were lighter vehicles, with eling Men's club in Iowa in 1896 and who an average of three passengers each, show- claimed to have lost his position because of ing that 237 people came to Omaha with the his advocacy of free coinage, after which he lighter vehicles to do business that day, went out on the stump. It would traverse a strip of territory ten miles wide between here and Fremont that is wholly unprovided with transportation fa-

Rosewater Favors Public Ownership.

E. Rosewater said that Omaha has done less than any city of similar situation and importance to provide itself with electric suburban connections. He favored public ownership of such transportation facilities and had discussed with the county commissioners the feasibility of constructing such a line but a short time ago. He believed the county should take the necessary steps at once, that the necessary bonds should be voted at the earliest possible moment and that after the road was built its operation could easily and profitably be provided for either as a public enterprise or by private parties who could pay to the county a rev-

enue that would wipe out the expense.

G. M. Hitchcock believed the subject one G. M. Hitchcock believed the subject one of the utmost importance, but he doubted the wisdom of making so long a line as the one to Fremont. He had observed the wonderful workings of electric lines in the east, but the maximum speed attained was about ten miles an hour, so that the trip from Fremont would be so long as to win little traffic from the railways. He favored a line of twenty miles in length. He also thought that public ownership would involve complications that might interfere with its construction, owing to the rivalry created among farmers over the location. One such of the utmost importance, but he doubted the dubted the wisdom of the Spanish-American war. Who engaged in a general discussion of the proposed monument and considered plans for raising meney.

TRYING TO RETAIN HER HOME

Mrs. Leutzner Pleads Possession and Statute of Limitations.

SAYS SHE PURCHASED THE PROPERTY

W. S. Poppleton Introduces Deeds to Prove His Ownership of the Real Estate in Litigation.

Mrs. Christine Leutener, an aged German woman, is pitted against J. M. Woolword and W. S. Poppleton in Judge Vinsonhalor's court for the possession of several scree of land in the Sulphur Springs reserve. Mrs. Leutzner has a much stronger claim than the other squatters on the bluff tract and has made a showing of ten years' undisputed residence. The queen of the equations is a frail little woman with thin strands of silvery hair drawn tightly across her forchead. She is of respectable appearance and is represented by counsel.

In her defense Mrs. Leutzner points out that she has lived on the tract in open and undisputed possession for many years and claims that the plaintiff is barred from ousiing her by the statute of limitations. Mrs. Louizner says that she was not originally a squatter, but purchased her holding from one Herman Pleasuer when the town was in its infancy. During her residence there Mrs. Leutzner has made many improvements in good faith; a small house, barn and outbuildings have been erected and the properry enclosed by a fence.

Mrs. Leutzner makes a special point of the fact that she has been publicly recognized as the owner of ground and that she leased it to both the Transmississippi and Greater America expositions during 1898 and 1899. It developed that the exposition had at first disregarded Mrs. Leutzner's presence and had set out a number of trees on ground which she considered her own. The frail Arthur D. Weir, one of the officials in charge of the India famine relief bureau, is in the city for a brief visit. Mr. Weir has been contining his attention to Colorado during the last few weeks and has met preferred to avoid trouble by taking a lease.

The defendant concludes her showing by setting forth that the Woolworth-Poppleton appointed a committee to raise \$5.000 pledged. Mr. Welr says that Omeha and Colorado Springs are the banner cities that the has visited thus far in point of liberality toward the famine sufferers.

Interests have never held actual possession, as she herseif has. She denies positively that she has ever accepted from them any lease putting her on the status of a tenant at will. interests have never held actual possession

Plaintiffs Introduce Deeds.

For the plaintiffs W. S. Poppleton introduced deeds to the property from Watson B. Smith, master in chancery, to John A. Smiley and from Smiley to A. J. Poppleton and J. M. Woolworth jointly. Mr. Poppleton said that his father and Mr. Woolworth were in undisputed possession from 1878 to 1889. A stone basin was built about the spring and the privilege of vending the water in the city was leased for a consideration.

In 1889 Mr. Poppleton made a personal inspection of the tract and found about twenty squatters in possession. These were all custed except two, who accepted leases at nominal sums as tenants at will, agreeing to vacate whenever a demand should be made upon them. Mr. Poppleton showed that similar action was taken in 1892. 1898 and 1899 Mr. Poppleton said that the property had been leased to the expositions and produced the papers to the contract. The counsel for Mrs. Leutzner objected on the ground that the woman's holding was

not included in the property described in The testimony continued during the afternoon, a number of plats and technical

When the testimony had been completed

Judge Vinsonhaler rendered an immediate The writ of ouster was granted and Mrs. Anton Husson, Tom Truske, Tom Lidel and Fred Kaiser, all boys of about 14 years, were tried in police court on a charge of robbing a car of watermelons standing on the Union Pacific side tracks, ability to show fully that she had held undisputed possession for ten years. Mrs. Leutzner testified on the stand that she had once owned a conveyance from Herman Pleasuer, who held the homestead prior to her residence there, but she said the paper had been lost. Mr. Poppleton, on the other hand, was able to produce direct proof of

legal ownership. COPIOUS RAINS HELP CROPS

Sonking Showers General All Over the Northern Part of the State Friday Night.

A copious rain, than which none was ever more needed or hailed with greater welcome, spread over the northern portion of Nebraska Friday night. Telegraphic advices received vesterday from Chadron and

It is probable that Friday's rain will insure against a total fallure of crops in any locality, and in the majority of cases will so revive growing crops as to result in an average yield. In the northwestern part of the state showers were general from Long Pine west to Chadron, the moisture being of great value to the range and grass lands. In the north central portion of the state the rain has probably made the corn crop secure. From O'Nelll to West Point there were good showers, which scaked well into the ground and revived corn wonderfully.

The List or Wounded who have been healed by Banner Salve, is very large. It heals all wounds or sores and leaves no scar. Take no substitute. For

EGZEMA = SATANIC This most aggravating and tormenting of all skin diseases is caused by an acid condition of the blood, and unless relieved through certain instrumental formed to the blood.

the blood, and unless relieved through certain instrumentalities too much of this acid poison reaches the skin and it becomes red and inflamed. The itching and burning are almost unbearable, especially when overheated from any cause. The skin seems on fire, sleep or rest is impossible, the desperate sufferer, regardless of consequences, scratches until strength is exhausted.

This burning, itching humor appears sometimes in little pustules, discharging a sticky fluid, which forms crusts and scales. Again the skin is dry, hard and fissured, itches intensely, bleeds and scabs over. This is a painful and stubborn form of the disease.

While Eczema, Tetter, Erysipelas, Salt Rheum and many like troubles are spoken of as diseases of the skin, they are really blood diseases, because THERE CAN BE NO EXTERNAL IRRITATION

WITHOUT AN INTERNAL CAUSE.

If the blood is in a pure, healthy condition, no poisonous elements can reach the skin.

External applications of washes, lotions and salves sometimes mitigate the itching and soothe the inflammation, but cannot reach the disease. Only S. S. S., the real blood medicine, can do this. S. S. S., the only purely vegetable remedy known, is a safe and permanent cure for Eczema and all deep-seated blood and skin troubles. It goes direct to the seat of the disease, neutralizes the acids and cleanses the blood, re-inforces and invigorates

all the organs, and thus clears the system of all impurities through the natural channels; the skin relieved, all inflammation subsides, and all signs of the disease disappear. Mrs. Lefa M. Hoffmin, of Cardington, Ohio, says she was afflicted with Scrofulous sores and Eczema from birth. Her face at times became so hadly swollen that she was not recognizable, and her limbs and hands were very sore. She was treated by all the doctors in town without being benefitted, and in her researches for relief, was told by an old physician to take S. S. She followed his advice and was promptly cured and has never had a return of the disease. This was seventeen years ago. She sincerely believes she would have been in her grave years ago but for S. S. S., and adds. "what it has done for me it will do for others."

Send for our book on Blood and Skin Diseases, and write our physicians fully about your case; they will cheerfully give any information or advice wanted. We make no charge for this. Address, Swift Specific Co., Atlanta, Co.
