the first rank.

Mrs. Dan McKenzie of North Seventh street was stricken with paralysis Sunday night and at first doubts were entertained of her recovery. She was reported yesterday to be doing well.

The Gliman ball team of this city won two games Sunday. It beat the Duck-Hollow nine by a score of 8 to 6 and defeated the Union Pacifics by a score of 9 to 6. The battery for the Gliman's was Clausen and Williams.

Mrs. J. L. Blanchard and children have gone to Sullivan, Mo., for the summer. They were accompanied by Mrs. Blanchard's mother, Mrs. J. R. Clark, who was on her way home to Sullivan from California, where she had been visiting. F. K. Gray is home from Atlantic City, N. J., being the first of the Council Bluffs' delegation to return from the Elks' reunion. Others of the party remained over and will take more or less extended trips through the east before returning home.

Rev. Green, president of the Politeration Rev. Green, president of the Pottawatta-mic County Sunday School association, will meet the executive committee this after-noon at the office of City Auditor Evans for the purpose of arranging the program for the convention to be held next month. As Alderman Boyer has so far failed to provide any hammers for the city rock pile, George Mack and Charles Williams, two members of the tramp fraternity arrested Sunday night, were discharged yesterday morning with orders to leave town without delay.

A young woman giving the name of Mary Thompson is being detained at the city jall. She was arrested in Fairmount park yesterday evening, where it is said she has been sleeping since June 28. She refuses to say where she is from and is believed to be somewhat mentally deranged. She is a stranger to the police. She is fairly well dressed, but appears to have suffered from the want of food.

Joseph Jensen, who became montally derived to mean repairing. This opinion carried the day with the aldermen in favor of brick, and several of them so expressed themselves in explanation of their voting against the use of asphaltum. The streets ordered paved embraced in the second resolution and action on which was deferred from the meeting last Friday night are as follows: Sixth street, from Broad-

Joseph Jensen, who became mentally de-ranged while listening to the Salvation Army Saturday night, was examined by the Board of Insanity Commissioners yes-terday at St. Bernard's hospital. The com-missioners decided to leave him there for treatment. Jensen is perfectly rational on all matters except religion, but it is thought with proper treatment he will regain his normal condition. He is the father of a family.

Burglars entered the residence of Deputy Collector of Internal Revenue M. M. Parkinson at 129 Glen avenue Saturday night and carried away a gold hunting watch and chain and \$12.50 in cash. Entrance to the house was secured through a window in the sitting room on the ground floor. The watch and money ware taken from Mr. Parkinson's room while he was sleeping. The fact of the robbery was kept quiet by the police.

the police.

City Council Passes an Ordinance Establish-

BRICK WILL BE USED FOR PAVING

Aldermen Decide Against Asphalt After a Discussion Lasting Some Time and Open Bids on Work Ordered.

The city council last night passed a new gas ordinance fixing the price to be charged at a flat rate of \$1.45 for both illuminating sand, \$1.48; additional for concrete base, 24 and fuel purposes. The ordinance was introduced by Alderman McDonald and is the result of an agreement reached by the city per cent. authorities and the Council Bluffs Gas and Electric company. About two months ago the council passed an ordinance fixing the The stockholders of the gas comfuel gas. pany at once commenced injunction proceedings in the federal court to restrain the city from enforcing and the gas company from accepting the provisions of this The new ordinance, with its measure. rate of \$1.45, is satisfactory to the company and Manager Nichols stated that the injunction suit would at once be dismissed. The present rates charged by the company are \$1.75 for illuminating and \$1.50 for fuel

The council refused to entertain the request of the property owners in the Fourth ward that asphaltum be used instead of brick for paving the streets in that portion of the city, and the resolution ordering the streets paved with vitrified brick was unanimously adopted after Alderman McDonald had made a fight on behalf of his constituents and several of the property owners interested had addressed the council and urged that their wishes be given proper consideration. Those who addressed the council on behalf of asphaltum were J. J. Hess, Leonard Everett and F. J. Day. A report from the city engineer showed the following per cent of property owners on the following streets wanted asphaltum and street, 49 per cent; Seventh street, 47 per cent; Eighth street, 52 per cent; First avenue, 61 per cent; Fifth avenue, 49 per cent. L. D. Amy made a statement to the council in which he claimed that a majority of the property owners on that portion of Fifth avenue ordered paved desired brick and not asphaltum.

Settles the Asphalt Question.

City Solicitor Wadsworth, in a written statement, gave it as his opinion that the cost of keeping the streets paved with asphaltum would have to be borne by the city at large, and could not be assessed up to the abutting property owners. He said that while the law provided that the cost of "reconstructing" improved streets could be assessed to the property owners, he did not believe that reconstructing streets could be construed to mean repairing. This opin-

Prospects of an Injunction.

It is said that the property owners who desire asphaltum will enjoin the city from paving these streets with brick. Alderman McDonald, in voting for the resolution calling for paving with brick, said it was no good going against the majority.

The thrid resolution, calling for the paving with brick of the group of streets situated east of Main street, was adopted after two amendments. Tenth avenue, from Fourth to High street, was cut out and that portion of Park avenue from Pomona street to Fairmount park. The streets embraced in this resolution and ordered paved are now as follows: Graham avenue, from Madison avenue to Fairmount park: Broadway, from First street to the easterly curb line of Frank street; Harrison street, from the south line of Washington avenue to the south curb line of Benton street extension; Park avenue, from Broadway to the west line of Pomona street; High School avenue, from Park avenue to Glen avenue: Glen avenue, from Broadway to water works grounds; Pierce street, from First of brick walk was washed into an abutting street to Bluff street; Bluff treet, from Pierce street to north curb line of Ninth avenue; Willow avenue, from Main street to west curb line of Third street; Fifth avenue, from Main street to west curb line of Third street; Story street, from Main street to Bluff street; Fourth street, from Broadway to Worth street.

These figures apply to bids on Seventh, Ninth and Tenth avenues and Worth street. On all the other streets his bid was, with five years' guarantee: Galesburg top and Council Bluffs bettom, \$1.78; Des Moines top and Council Blaffe bottom, \$1.74; Council Bluffs top and bottom, \$1.39; Galesburg brick, single course on sand, \$1.48.

Charles Connors, five years' guarantee Galesburg top and Council Bluffs bottom \$1.77; Des Moines top and Council Bluffs bottom, \$1.72%; Council Bluffs top and bottom, \$1.39%; Galesburg, single course on cents; additional for cement filler, 12 cents and 9 cepts; additional for certificates, 5

B. P. Wickham, five years' guarantee: Galesburg top and Council Bluffs bottom \$1.71%; Des Moines top and Council Bluffs price at \$1.35 for both illuminating and bottom, \$1.671/2; Council Bluffs top and bottom, \$1.3614; Galesburg, single course on sand, \$1.47; Galesburg block on concrete, \$1.86; additional for concrete base, 22 cents additional for cement filler, 9 cents; additional for certificates, 5 per cent. Ten years guarantee: Galesburg top and Council Bluffs bottom, \$1.76%; Des Moines top and Council Bluffs bottom, \$1.741/2; Council Bluffs top and bottom, \$1.53. If Des Moines brick cannot be secured to complete work as rapidly as desired Wickham agrees to substitute Galesburg at the same figure, viz: \$1.671/2 per square yard.

It was yesterday decided to give the contract to Wickham, but formal action was deferred until after a special meeting which will be held at 6:30 this evening. At this time property owners affected will be given chance to designate which sort of brick

Claims for Damages.

The first claims for damages by reason of the flood caused by Sunday's downpour of rain were presented. Mrs. A. Fleming, the owner of 719 Mill street, put in a claim for \$1,000 by reason of the water backing up into her house, and Mrs. A. C. Askwith, the occupant of the premises, put in another claim for \$200 damages. M. E. Tyrell wants had signed petitions to that effect: Sixth the actual damages suffered by reason of the sewer backing up and filling the basement of his home at 1122 Fifth avenue. A. J. Stephenson, executor of the Stephenson estate, wants damages for the caving in of the foundation of the premises at 823 South Main street.

The ordinance introduced by Alderman McDonald requiring street railway companies to place fenders on their cars was laid over to the next meeting.

FLOOD DAMAGE IS QUITE HEAVY. Much Miner Destruction Wrought by

Rushing Watres Sunday Night. second resolution and action on which was rain were to be seen on all sides yester- washed. The track had not been ballasted deferred from the meeting last Friday night day. The precipitation was slightly over and the rain washed under the ties. The are as follows: Sixth street, from Broad- five inches, the heaviest rainfall in Council track from Sixteecth avenue clear to the way to Fifth avenue; Sixth street, from Bluffs for many years. The damage caused lake was badly washed in places and it will south line of Eighth avenue to north curb by the heavy downpour of rain and the overflow of the creek is widespread, but to permit of running cars. is not nearly as great as on some former street, from Broadway to north curb line of occasions, when Indian creek has gone on Telegraph and telephone wires were someone of its periodical rampages.

Much of the damage was caused by the tremendous deluge of rain, comparatively little being done by the overflow from Indian creek. The damage done by the latter was confined principally to the vicinity of street, where the company's bridges, as usual, acted as a dam to the volume of water that rushed down the creek and which tore a small hole in the roof, but turned it onto the tracks and from there onto Broadway. The creek overflowed at wo or three places above Eleventh street, but did little damage beyond filling with water several low-lying vacant lots and the cellar of the Metropolitan hotel, which abuts almost on the bank of the turbulent little stream. Several cellars on the north side of Broadway received more or les

water. The approaches to several of the bridges over Indian creek were more or less washed away and will give the street supervisor and his gang several days' work to repair. The foundations of the bridge at Ninth street were somewhat shaken and will need strengthening, but the structure was yester-

day considered safe for traffic. Examination of the motor company's trestle bridge at Thirteenth street yesterday morning showed it perfectly safe and cars were run over it as usual. Many of the hill streets paved with cedar blocks were badly washed and numerous holes will have to be filled. Plank and brick sidewalks were washed away in many places and on South Sixth

vacant and low-lying lot. Clearing Away the Mud.

The Northwestern Railway company had a large force of men digging away the dirt that had been washed down on its tracks, while the city had a number of laborers cleaning the mud from Broadway in the Bids for the paving with vitrified brick vicinity of the Northwestern depot. Here Mynster street produced; North Seventh Engineer Etnyre stated yesterday that the wanted in Villisca and an officer from there creek would have to be cleaned again.

flooded South Main street suffered considerably when the water was finally drained off street; Broadway, from east side of Twelfth there was a deep deposit of mud left. Residents of the Fourth and Fifth wards suffered considerable damage, owing to the sewers being taxed beyond their capacity and the water backing up through their cellars

IOWA'S CROP NOW ASSURED Needed Rain Came in Time to St the Corn and Help in

Many Ways. DES MOINES. July 16 .- (Special Tele gram.)-The rain that the state has been getting the last twenty-four hours, Secretary Van Houten of the State Agricultural society says, was a very timely and beneficial one for the crops, especially in the southern half of the state, where things were pretty dry when he was there a short time ago. Corn, he says, will be greatly benefited all over the state and the only damage that could have been done was to the hay crop,

which was just being harvested. Potatoes were also helped along much. A special from Primghar says: "Primghar holds all records made within the state during the season of 1900 on rainfall. Twelve inches of water fell within the twenty-four hours ending at midnight and the city is a veritable Venice today. Every cellar, well, cistern and low place within a radius of five miles is filled to overflowing. The water came down for hours without a break. There was no cloudburst and the damage is nominal, in spite of a foot of water coming to earth. The oldest settlers in the locality can remember no time when the rainfal equalled that of the twenty-four hours. The ground was dry and the rain was eagerly welcomed all over northern Iowa. It was worth thousands of dollars to lows farmers and the damage can be counted in a few hundreds. Small grain and corn were weighted down, but will sustain no severe

damage. Barley nearly ripe suffered the heaviest damage. A special from Alta says: "Within the twenty-four hours six and one-half inches of rain has fallen in this vicinity. There was little wind and the damage was The downpour was steady and though greatly in excess of previous rains it will be regarded as a benefit to crops. Northern Iowa has been in need of rain for a number of days and a corn crop is now guaranteed. At Storm Lake, ten miles east, the rainfall was only about half as great. Lightning did considerable damage to stock and to trees, but no fatalities have been reported."
