WORD FROM CONGER

Chinese Minister Receives Reply to Messag Sent to American Minister.

COMES IN STATE DEPARTMENT CIPHER

Authorities Express Confidence in Genuineness of the Message.

QUICK RELIEF CAN PREVENT MASSACRE

Says Legation is Under Constant Shell Fire from Chinese Troops.

THOUGHT TO HAVE BEEN SENT WEDNESDAY

Message Very Short and Translation Given Out Contains Only Eighteen Words, but Its Tenor is Significant.

WASHINGTON, July 20.-Like a flash of light out of the dark sky came the intelligence at an early hour today that United Powers or retarding their serious military States Minister Conger had sent a cipher cablegram from Pekin to the State depart- printed by the English press, stories which ment at Washington, making known that two days ago he was alive and that the for- during the Spanish-American war and the eigners were fighting for their safety. The earlier stages of the hostilities in South Chinese minister, Wu Ting Fang, received the message.

It was in the State department cipher and was transmitted through the tsung li yamen and the Shanghai taotai. It contained about fifty words and was signed in English with the name "Conger."

At 9:45 o'clock Minister Wu handed the Conger dispatch to Secretary Hay, who immediately called in his assistants and a German the chief commander would not yama, and pointing out that China is not private secretary and work was begun in be accepted by Germany unless a unanimous translating the cipher.

Mr. Conger's telegram is as follows:

"In British legation. Under continued shot and shell from Chinese troops. Quick relief only can prevent general massacre," The message is not dated, but, it is under-

stood, was sent from Pekin on the 18th. The following statement has been given out at the State department?

"On the 11th of this month the State department communicated a brief message asking tidings of Minister Conger in the 000 Germans, 12,000 English, 65,000 French, Not Much Credence is Given to Re-State department code. "'Your telegram was forwarded, and, as requested, I send reply from the tsung li yamen, as follows;

"'Your telegram of the 15th day of this moon (11th of July) received. The State department telegram has been handed to Taggeblait that British policy in China has Minister Conger. Herewith is Minister Conger's reply to the State department."

The State department has just issued the following bulletin:

"The secretary of state received this morning a dispatch from Consul Fowler at Che Fco, dated midnight 19, saying a Shanghai paper of the 16th said all foreigners murdered. Fowler wired the governor demanding the truth. The governor replied that his courier left Pekin on the 11th and all then were safe, but Pekin east city had been carried by rebels with intent to kill."

Within an hour the welcome intelligence that Mr. Conger had been heard from, after weeks of silence and evil report, was flashed throughout the country, and, indeed, throughout the world, dispelling the gloom which had prevailed everywhere and bringing to officials and to the public generally a sense of profound relief. The dispatch was in reply to Secretary Hay's cable inquiry to Minister Conger on July 11, and as both messages were in the American cipher code they were regarded by the officials as above the suspicion of having been tampered with in the course of transmission through Chinese channels. Mr. Wu promptly communicated the dispatch to the State department, where the translation was made from the cipher figures, and soon all Washington

was astir with the intelligence. Cabinet Holds Meeting.

It was telegraphed by Secretary Hay to the president, who responded with a wholesome expression of gratification and word of it was sent to the various cabinet officers. They gathered in Secretary Hay's office and an impromptu cabinet conterence was held in the diplomatic chamber, mainly for the purpose of exchanging congratulations and of taking a survey of the situatien, to see if it had been materially changed by this important development.

First of all, from the standpoint of the administration officials, the most welcome feature of the message was its assurances that the American minister himself was news came the ominous statement of Minisler Conger that the besieged foreigners

It is pointed out, however, that if the Chinese had taken the American legation they would have got the cipher and key in their possession, so they could reply to Hay's cipher, but the opinion is prevalent in the House of Commons tonight that if the reply is a fraud it would have been more hopeful in order to lull the powers into a sense of security.

Then Lady MacDonald read a little speech in behalf of the women. The empress dowager responded through Prince Ching. We then courtested to the emperor, who reached out his hand to us. The empress dowager took both our hands, then placed upon the finger of each woman a beautiful, heavy-chased gold Chinese ring, set with a very fine, large pearl. After thanking her we backed from the throne and took our places below as before. My first (China) boy tried to impress upon me what a great thing had come into my life in this visit to royality. He said: "Madam, much grand thing come to you. Emperor much grand thing come to you. Emperor came down from heaven. No foreign woman see him—few Chinanen. He came down from heaven. You very blest."

There was a lib- ated in the platform adopted at the national convention in Omaha in 1892, and unawerying in their opposition to fusion with any political party, the middle-of-the-road populists of Nebraska tonight nominated a state ticket, appointed a central committee, adopted a platform and formed a new politteal party, christening it the "populist party of Nebraska." The candidates chosen Paul Jansen, 35 years old, and refused to are men who not only subscribe to the The girl is Clara Genzer, daughter platform, but are and have been as outby the Chinese troops there was nothing to General Gordon, "and the history of the of the man arrested in Hoboken. The convention in most respects was a The men who gathered great surprise. here came to plead for political fusion and to organize for the fulfillment of the purpose for which the people's independent party was organized. The attempt of several state officials and popocratic office holders to throw cold water on the convention met with no success. The middle-ofthe-road leaders claim that only recognized populists were admitted as delegates, and to substantiate their claim they propose to Insurance Clerk Price and Secretary Edgerton. The presence of Wharton Barker, the party nominee for the presidency, ex-Congressman Howard of Alabama and National Committeeman Felter of Illinois made the convention an affair of some national im-

portance.

The convention was called to order at 3 o'clock by Alfred Fawkner of Omaba and a blessing was invoked by Rev. Mr. Arthur. Mayor Platt welcomed the delegates on behalf of the city and the response was delivered by A. Scott Bledsoe of Otoe. He spoke briefly of the purpose of the party and advocated the nomination of a straight ticket He said the middle-of-the-roaders had kept in their archives the righteous principles of the original populist party. Secretary Morearty read the call for the convention and declared that the party would soon be the copulist party in reality as well as in name Alfred Fawkner next made a few remarks congratulating the delegates upon the fact that there were no officeholders present and because the appointment of a conference ommittee to decide the nominations was unnecessary. Remarks of the Chair. Mr. Boyce, on assuming the chairmanship of the convention, said in part:

Mr. Chairman and Fellow Populists; We have been thrown over the transom, but it appears that we have alighted on our feet, We are here to nominate a state ticket. We represent the only populist party in the union. There can be but one republican party, one democratic party, one populist party. We who represent the Cincinnati convention represent a party national nati convention represent a party national in its scope, with an organization in every Last week in Lincoln it was stated in

It was really pitiable to listen to men whose good sense told them, and who voiced it upon the floor, that they had held their last national convention. upon the floor, that they had need that ast national convention.

We are here as a reform party advocating principles that will benefit humanity. If either of the dominant parties are doing this work there is no reason for our existence. I arraign the republican party at the bar of public opinion and ask you to analyze its claims for your suffrage.

I arraign the democratic party as the greatest enemy to any reform movement that ever lived in the history of the world. It has killed every reform party, and history shows that it has waged the only unfait war that this country ever began and

It has killed every reform party, and history shows that it has waged the only unfust war that this country ever began, and that it upheld and perpetuated himan shavery. That today it is perpetuating industrial slavery in its worst type, and that it is the only party that deprives the American citizen of the right of suffrage. White the republican platform is the most infiguitous document ever originated in American politics the democratic platform is the most deceptive, contradictory and negative of any paper ever issued to the American people.

The bogey man will not frighten the populists. They are thinking mer, and they believe that the money question, the transportation question, the monopoly question and the land question are the live issues, and they will not swerve to the right not left until these questions are satisfactorily settled.

oft until these questions are satisfactoril;

The democratic platform is a mass of contradictions, and is deceptive when it declares for the free coinage of silver, as shown by Senator Money's tabulated statement, wherein he showed that the votes of the twenty-six members of the committee which adopted it represented but 17t delegates out of 339 in the convention, the rest being opposed to it. They omitted the income tax because it would have the feelings of David B. Hill, who was the idel of the convention, and which would prevent catributions to their campaign fund by rich men.
