COMMERCIAL AND FINANCIAL

Wheat Market Has Another Weak Opening and Strong Closing.

CORN AND OATS CLOSE AT SLIGHT GAIN

Provisions Are Strong, Partly on Grain Strength, Partly on Good Cash Demand and Partly on Light Hog Receipts.

CHICAGO, July 20.-A reduction in the California crop estimate and gloomy reports from the northwest caused an advance in wheat today, following early weakness, September closing %@%c over yesterday. September corn closed 149740 better and oats at a like gain. Pork closed

221/2c, lard 10c and ribs 15c improved. The experience of yesterday, a weak opening and a strong finish, was repeated on the Board of Trade Ioday in the wheat market. September opened %6% under yesterday at 75%676% c, scalpers selling on bearish foreign news. Liverpool showed poor appreciation of the advance here yesterday and her receipts for three days—57,000 bu.—contained only 114,000 bu. from America. Argentine shipments were also large, amounting, according to board figures, to 1,736,000 bu. Following the opening dip, however, a reaction set in. The Chronicle, estimating the California yield, reduced the prespect from 1,000,000 tons to 53,000,000 bu. a year ago. The estimate was rather startling. The talent had been paying more attention to other points, and the announcement sent shorts to cover. Later in the day very gloomy reports from North Dakota came as a ball influence and helped along the advance. The market during the forencen climbed to 78c, dropped on profittaking to 77%677%c and then recovered to 72%678%c and closed strong %6%c over yesterday at 77%677%c. The cash trade was slow. New York reported 30 loads taken for export and scaboard clearances in wheat and flour were could to 427,000 bu. Primary receipts were 770,000 bu., compared with \$88,000 bu. last year. Minneapolis and Duluth reported 225 cars, against 142 last week and 441 a year ago. Receipts here were 140 cars. 29 of contract grade.

A very urgent shipping demand for corn and great reluctance on the part of holders to accept even the higher bids from the seaboard were largely instrumental in causing the market for the commodity mentioned to rule strong. Reports of damage to Kansas and Nebraska corn that rains could not repair was likewise a factor, and the wheat strength another. There was easiness at the start on rains in the corn belt but it was of short duration. September sold between 3%c and 19%c and closed \$40%c over yesterday at 39%c. Receipts were 471 cars. Shipping bids were full as good as they were yesterday, 3c over September c. l. f. Buffalo for No. 2. Carlots were even better than yesterday on covering by western people, who sold on the rains.

Oats were strong in sympathy wit market. September opened %6%c under yesterday at 76%676%c, scalpers selling on

Oats were strong in sympathy with wheat and corn, but trade was gillet. September sold between 234c and 234@234c and closed 4.60%c up at 21%@234c. Receipts were 211

Marke up at 21% 623% c. Receipts were 211 cars.

Provisions were strong, partly on the grain strength, partly on a good cash demand and partly on light hos receipts in the west. September pork sold between \$11.55 and \$11.90 and closed 22% over yesterday at \$11.87%; September lard between \$6.73% and \$6.77%, closing fee up at \$6.77% and September ribs between \$6.72% and \$6.87% with the close 15c better at \$6.87% Latimated receipts tomorrow; Wheat, 60 cars; corn, 350 cars; oats, 185 cars; hogs, 12,000 head. 12,000 head. The leading futures ranged as follows:

140,000 to \$50,000, and also in heavy sales of leather to manufacturers.

The sharp fall of 2 cents in wheat and 4 cents in corn appears to reflect public conclusions, after hearing much evidence, regarding the extent of injury to both grains. The shipments go on in a quiet and moderate pace, in three weeks from Atlantic ports 5,661,501 bushels wheat, flour included, against 6,505,323 bushels last year; from Pacific ports, 1,691,597 bushels, against 1,278-548 bushels last year, and in corn, 3,620,558 bushels, against 9,289,999 bushels last year. Failures for the week have been 21 in the United States, against 145 last year and twenty-seven in Canada, against twenty-three last year.

pressure and will use all efforts to attract gold from this country. Our market is certainly inclined to regard the gold exportations without fear, particularly in view of the large influx of the metal from Alaska and the news of heavy specie shipments in progress or in prospect from Australia to San Francisco, it is recognized that the American money market is relatively too low and that higher interest rates would be the proper protection against European demands, although with the abundance of capital in the country, there is no apprehension on the part of Wall street regarding any serious disturbance of money rates, even if European Wall street regarding any serious disturb-ance of money rates, even if European borrowings here should assume much greater proportions. The news from Pekin on Friday indicating the safety of the American and other ministers had a con-siderable effect on the market at large and caused advances throughout the list, with a strong tone at the close.

NEW YORK, July 29.—MONEY—On call, steady, Pi401½ per cent; prime mercantile paper, 451½ per cent.

industry.

This was supplemented by all sorts of rumors circulated by the buils of prospective extra dividends. Their efforts were directed against a persistent and long-standing short interest, which was forced to cover largely at the advance. Other strong points were the Tobacco stocks, on talk of a good forthcoming statement, the New York public utilities, on the hope of defeating assessments under the new franchise tax law; the Leather stocks, the Rubber stocks and People's Gas. The Steel stocks were generally strong at advances of from 1 to 2%, the argument being that the troubles in China would increase requirements for that product. There was a late advance in Lackawanna of 3½ and in New Jersey Central of 1½. With these exceptions the railroad list shows no striking net gains. The whole market turned downward in the late dealings when profit-taking became evident in Sugar.

in Sugar.

That stock lost about 2 points and reactions in some other stocks extended from 1 to 2 points. The closing was thereby made heavy and the net changes were reduced to fractions, except in a few of the specialities mentioned. The movement was almost entirely professional throughout, and the late decline was wholly due to profit-taking, with the exception of some selling by foreign arbitrage houses in anticipation of lower prices in foreign markets tomorrow. The foreign exchange market was strong and moved up ½c, but the foreign exchange houses report that Paris is still the point of greatest attraction for gold, and that the BAR SILVER—Quiet at 28%d per ounce. MONEY—214@3 per cent; the rate of discount in the open market for short bills is 3% per cent; for three months bills, 3% @4 per cent. New York Mining Stocks.

Con. Cal. & Va. .125
Deadwood Plymouth Chollar houses report that Paris is still the point of greatest attraction for gold, and that the next shipments will probably be made there instead of to London. As tomorrow's steamers do not touch at French ports no engagements for exports were made. A favorable bank statement is expected tomorrow, owing to the continued movement of currency from the interior, which, it is thought, has offset the losses to the subtreasury (which include the gold exports and the taking up of government deposits) by more than \$1,000,000. The more remote prospects of the money market continue to engage conjecture.

The bond market continued irregular and very quiet. Total sales, par value \$1,000,00 Con. Cai. va. 150

of currency from the interior, which, it is thought, has offset the losses to the subtreasury (which include the gold exports and the taking up of government deposits) by more than \$1,000,000. The more remote prospects of the money market continue to engage conjecture.

The bond market continued irregular and very quiet. Total sales, par value, \$1,050,000. United States new is declined in the bid arice.

The Commercial Advertiser's London financial cablegram says: The markets were still depressed today, but hardened toward the close on reports that Minister Conger had been heard from on July 18. American securities were the chief beneficiaries of the better feeling engendered by the news. Bills were steady and quieter than yesteraday. The bank bought £28,000 gold in bars and lost £7,000 to South America.

CATTLE—The supply of cattle was rather limited today and prices in most cases were not materially different from what they were yesterday. Handy weight cattle that suited the buyers sold at fully steady prices, whereas some grades, for which there did not appear to be much competition, were a little slow and weak. The light supply, however, and fairly good demand, brought the market to an early close.

There was havely accept on the competition of the grades and fairly good demand, brought the market to an early close.

There was havely accept on the first supply for cattle slow and weak. The light supply, however, and fairly good demand, brought the market to an early close.

There was havely accept and fairly good demand at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light, and the first supply for cattle was formed at an advance of 5600c; light and formed at an advance of

demand, brought the market to an early close.

There was hardly enough cow stuff on sale today to make a test of the market, only about two or three cars being reported at the yards. The better quality brought fully steady prices, and owing to the light receipts sold in some cases a little higher teday. Even common stuff moved more freely than of late, but without material change in price from yesterday. Bulls, calves, stags, etc., were scarce and no change in values was noted.

There was nothing on sale to speak of in the way of stock cattle, but what few there were here met with ready sale at good strong prices. Feeder buyers are having little difficulty in disposing of all the stockers coming, and consequently are active buyers. Representative sales;
