

OMAHA'S NEW INSTITUTIONS

Two Enterprises Landed This Week that Mean Much to the City.

SEVERAL OTHERS ALREADY IN SIGHT

Woodmen of the World and Brynes-Hammer Dry Goods Company Will Erect New Buildings at Once.

"This has been a pretty fair week for Omaha," remarked a gentleman who is active in every movement to forward the interests of the city.

"Of still greater moment is the securing of the Brynes-Hammer wholesale dry goods house. One of the crying commercial needs of Omaha has been just such an establishment, and the best heads in the city have long been endeavoring to solve the problem of how to get one.

"The trip will be a delightful one. Nebraska will raise the largest crops of its history this year and the scenes along the road will be an inspiration.

"Among those who have been laboring for the upbuilding of Omaha's jobbing interests the most essential elements heretofore found lacking were a wholesale dry goods house, a wholesale hat and cap house and a wholesale millinery house.

"There is reason to believe that Omaha landed another important enterprise during the week. You know that during the past few weeks this city secured a large flouring and cereal food factory.

"Another promising enterprise that has opened up during the week is a tannery for the curing of sheep pelts, which will absorb considerable of the product of the South Omaha packing house.

"Under the process used it will take about three weeks to tan a pelt and the factory will have a capacity of 250 pelts per day when fully equipped for active operation.

A Place to Spend the Summer. On the lines of the MILWAUKEE RAILWAY in Wisconsin are some of the most beautiful places in the world to spend a summer vacation camping out or at the elegant summer hotels.

Change of Time. On July 1 the Chicago, Milwaukee & St. Paul railway changed the time of their train between Omaha and Chicago.

Jones on Law Committee. P. J. Jones, one of the delegates from Omaha Typographical union, No. 190, recently elected to represent the local union in the International Typographical convention.

Hamilton Warren, M. D., eclectic and magnetic physician, has moved his office to 709 North 16th street, room 12.

Street Car Jumps Track. Street car traffic westbound on Farnam, Harney and Dodge streets was suspended for about half an hour yesterday and on every street corner impatient bands were gathered waiting for the cars to carry them to their destinations.

TRIP MEANS MUCH TO OMAHA

Secretary Ut Asks that There Be a Big Crowd for the Excursion to York.

"I learn that some people entertain the impression that the Commercial club excursion to York next Thursday is exclusively for members of the Commercial club, the Ak-Sar-Ben and the managers of the musical festival."

"The trip will be a delightful one. Nebraska will raise the largest crops of its history this year and the scenes along the road will be an inspiration.

"The trip will be a delightful one. Nebraska will raise the largest crops of its history this year and the scenes along the road will be an inspiration.

MAY PURCHASE SHEELY BLOCK

Woodmen of the World Likely to Give Up the Idea of Erecting New Building.

"Omaha may not be the beneficiary of the location of the Woodman of the World headquarters to the extent of acquiring an expected new building," said a man on the inner circle of the Woodman management.

"While the organization is in position to erect a home for itself if it wants to, I should not be surprised if the matter were settled by buying the Sheely block, where it is now located.

"There is reason to believe that Omaha landed another important enterprise during the week. You know that during the past few weeks this city secured a large flouring and cereal food factory.

TAKING THE SPECIAL CENSUS

Agents of the Department Now Working on Industrial Schedules.

REPORTS WILL SHOW GREAT GAINS

Increases Are in Amount of Capital Invested, Number of Employees and Output of Manufactured Products.

One branch of the census work in Omaha will give results directly opposed to another branch, and the population schedules will be laughed to scorn when the reports from the special enumerators of manufactures and industries are made public.

"The special census is now in full swing and Chief Agent Wheeler is receiving reports from the men in the field which warrant the foregoing statement. The work of the special agent will not show all of the industries of Omaha, for the reason that many of the managers of the establishments have availed themselves of the privilege of making reports direct to Washington.

"Several of the largest houses in the district will make returns of their Omaha business from Chicago, that being the seat of their principal business. This is notably the case with Swift and Armour of South Omaha.

"Not only Omaha, but all of the towns under the supervision of Mr. Wheeler will show decided gains in material industries and some of the smaller places will be surprised to learn of the amount of money paid to their citizens. These are accounts from one Douglas county institution with offices in adjoining counties in Iowa and Nebraska which pays annually \$200,000 to the farmers for milk and cream.

"Annual Convention Young People's Christian Union, United Pres. Church, Denver, Col., July 25th-29th. \$15.00 for round trip to Denver, Pueblo and Colorado Springs via the Union Pacific. Tickets on sale July 23rd-24th. City Ticket Office 1302 Farnam St., Tel. 316.

MEN WHO RIDE

A Trio of Star Equestrians with the Forepaugh-Sells Brothers' Circus. The present season are engaged in an international contest for the world's equestrian supremacy.

Lowande is the star of the southern hemisphere, fresh from arena conquests in Rio Janeiro and Buenos Ayres. William DeMott represents the land of Victoria. Though an American by birth, he is a descendant of a family of famous English bareback riders, and his laurels have been gained on the continent.

Not represented by the land of Victoria. Though an American by birth, he is a descendant of a family of famous English bareback riders, and his laurels have been gained on the continent. Melville is the Yankee of the trio, but a few years out of his teens, and even now acknowledged the premier of American riders. Their riding is not confined to any particular style or school. They are bareback riders in every sense of the word. Somersaulting, forward and backward from horse to horse, which the riders of yore often time would have considered miraculous feats, are as child's play for these young horsemen of the present generation of riders. All three are originators, and their performances will be found to be marked deviations from the stereotyped riding acts of their equestrian predecessors. Added zest is given their work by the intense personal rivalry between them.

Have Root print it.

In Pursuing TOOLS A Good Carpenter or Machinist will always look out for two things—Highest Quality Lowest Prices. The only grade of tools we sell are the highest quality and our prices are as low as are asked elsewhere for inferior tools.
