Admiral Remey's notification to the department that he has gone in person up the Pei-Ho from Taku to Tien Tsin is attributed to the receipt by him of Secretary Long's urgent message to hasten the efforts to get to Pekin, and important news from him is expected soon.

The War department, it appears, underestimated the time that would be required for the Grant to arrive at Nagasaki.

Changing the Chinese Name.

After mature consideration the officials of the State department have come to the conclusion that by a telegraphic error the name of the informant of Consul General Goodnow has been turned into "Tuan" from The latter is the famous Yuan "Yuan." Shih Ki, the governor of the province of Shan Tung. He always has maintained an aftitude of neutrality and even has leaned toward positive friendship for the foreigners. He has from the first divided with Sheng, the director of posts and telegraphs at Shanghai, the distinction of being the only means of communication between Pekin and the outside world. Therefore it is extremely probable that he has served in the same capacity in this instance. On the other hand if this really came from Prince Tuan the fact would be of great significance. In the opinion of the officials here it would indicate that this official has either been groesly misrepresented as to his anti-for-

following divine prescription, the in-gredients of which are to be swallowed when the poisoned patients will recover: "Dried black plums, half an ounce; nola-nim delcamara, half an ounce; encommis ulmoides, half an ounce." A letter was received today by Dr. A Woodruff Halsey from John M. Swan, M. D. dated Canton, June 18. He says that the province of Kwang Tung, of which Canton is the capital, has been ripe for rebellion for a

year past. Only the vigorous measures of Li Hung Chang in suppressing piracy and robbery had preserved order. At the moment of writing Dr. Swan said the bodies of eight men were exposed in public places within ten minutes' walk of his house. The men had been put to death by torture. Dr. Swan also said that large quantities of arms and ammunition had been imported at Canton

during the last year. THRONE URGED BOXERS ON Missionary Wilder Charges that Chinese Government Incited Pres-

would be bound to collapse. "We want no conquests," he is reported to have declared at the conclusion of a sit ting of the council. "What we desire is to protect our frontlers and to steer into

smooth waters the Chinese ship of state, now buffeted by the waves of civil war." There is nothing further this morning that throws any light on the mysterious situation. Two urgent dispatches were addressed yesterday by the Chinese minister to the Pekin government and to the director of telegraph administration strongly advocat-

ing the necessity of restoring telegraphic communication with a view of enabling the powers to obtain proof of the safety of the foreign ministers. Until such proofs are secured no one here is inclined to alter the opinion that the Chinese are merely juggling to gain time.

Rumor circulates briskly around the personality of Li Hung Chang. He is credited with a mission to offer to cede to the allied powers two provinces as indemnity for the Pekin outrages and also to offer to restore order and give facilities for trade with the outside world on condition of the surrender of Klao Chau, Wei Hei Wei and Manchuria by the powers and the withdrawal of all missionaries. Little attention, however, need be paid to any of these rumors

Li Hung thang Suspected.

In a private message from Shanghai it is asserted that Li Hung Chang avows that the object of his journey is to place the regular Chinese army in line with the allied troops for the suppression of the Boxers.

The Times editorially suggests that Lf Hung Chang is playing the old game of the sublime perte by putting forward proposals which will appear in different degrees and different ways to different powers. It says "President McKinley has been asked to mediate and the request has been facilitated

by the care which has been taken in Washington not to commit the United States to any very thorough-going policy." Indian troops are daily arriving at Hong Kong. Three transports reached there yes-

terday and two others have left Hong Kong for Taku. Reports from Canton say the city is outwardly quiet, but that there is a strong ing. undercurrent of unrest among the Chinese.
