TRIBUTE TO HARRY WELDON

ster Benefit. CINCINNATI O. July 23.-The greatest tribute any newspaper man has ever had in this city was that tonight paid Harry M. Weldon, known as the dean of American sporting editors. On February 25 Weldon was stricken with paralysis shortly after his night's work in the Enquirer office. Mr. McLean has had him on the pay roll as usual ever since and will keep him on the staff as long as he lives, but his friends here and all over the country decided to give him a benefit on October 8 and a pub-lic meeting for that purpose was held to-night in which the city and county offi-cials and many distinguished citizens par-ticipated. Judge Ferris presided and was made permanent president with other judges of the courts as vice presidents. Morris Isaacs of the Enquirer was made secretary and to him all subscriptions and communications are to be sent. Mayor Fielschman was made treasurer and com-mittees are composed of prominent citizens. These committees are all to report next Monday night. John Payne, formerly an Associated Press operator in this city and now a wealthy man, started the subscrip-tion list with \$200 and the receipts of the race track on some date to be known as "Weldon day" will be given. Old Dr. Hanaford of Reading, Mass., says "Messenger." "Our health and in the physical and mental happiness are so largely under our personal control that the proper selection of food should be, and is, one of the most important acts in life.

"On this subject I may say that I know of no food equal in digestibility, and more powerful in point of nutriment, than the modern Grape-Nuts, four heaping teaspoons of which is sufficient for the cereal part of a

meal, and experience demonstrates that the user is perfectly nourished from one meal to another. "I am convinced that the expensive and

general use of high class foods of this character would increase the term of human life, add to the sum total of happiness and very considerably improve society in gen-I am free to mention the food, for I personally know of its value."

Grape-Nuts food can be used by babes th arms, or adults. It is ready cooked, can be served instantly, either cold with cream or with hot water or hot milk poured over. All sorts of puddings and fancy dishes can be made with Grape-Nuts. The food is concentrated and very economical, for four heaping teaspoons are sufficient for the ceseal part of a meal
