Corn Opens at Decline but Closes Stendy on Light Country Offerings-Heavy Cash Business Done on Brenk in Onts.

CHICAGO, July 31 -A sharp decline in bats and an equally sharp advance in provisions were the features of an exception ally dull session on 'change today. Wheat closed at a decline of %c and corn un-changed for September. Oats lost %2%c on heavy country offerings and perfect weather, and provisions, influenced by light stocks and good cash demand, advanced 275gc for pork, 75gaine for lard and

Opening trades in September wheat were Opening trades in September wheat were made at prices 14214e lower than yesterday's closing 75c being offered first. The price soon sild off another small fraction to 714c, then recovered to 754c, which proved to be the high mark for the day. Liverpool was 15d up, but that had no influence, the main factor in the small deciline being the perfect weather in the northwest and the comparative weakness of the markets in that section. Scalpers were moderate sellers, but for some time the market held fairly steady at about 75c on a gradually decreasing amount of trade, the transactions finally growing so insignificant that the pit was almost deserted. Chiefly from this neglect the September price slowly slipped off to 755c, but below 75c there appeared to be a fair demand and the price was not allowed to remain at that point long and during the last hour the market again assumed some degree of steadiness, helped somewhat by reports of good export engagements at the seaboard. Trading throughout the session was almost entirely of a local mature, outside orders being few and far between. September closed at 715c/75c. Northwest receipts were 331 cars, compared with 225 last week and 256 a year ago. Chicago receipts were 331 cars, do of contract grade. Total primary receipts were 822,000 bu, against \$2,000 bu. A year ago. The seaboard reported 35 loads taken for export. The world's visible increased 2,300,000 bu.

Corn was fairly steady within narrow limits. There was a slight opening decline, due to sympathy with wheat, but later the market became steady and prices recovered. Country offerings were light, but the cash demand was also slow. Receipts were 612 cars. September ranged from 355c to 355c and closed unchanged at 155c. made at prices way lower than yester-

Size.

Outs were exceedingly weak and closing prices showed a material decline. Country offerings were much freer, the weather ideal for the movement and liquidation of futures were persistent, elevator people. of futures were persistent, elevator people being prominent sellers. A heavy cash business was done on the break, probably 500,000 hu. Receipts were 475 cars. September ranged from 204c to 204c and closed %604c lower at 205c2204c.

Provisions showed more strength than anything else on the floor. Stocks of all kinds were reported very light and a good cash demand was evident. Leading packing interests were good buyers and prices were kept on the up grade until afternoon, when some reaction due to realizing took place. The close, however, was strong at substantial advances all around. September pork closed 274c higher at 412,024; September lard 74,001c higher, at 412,024; September lard 74,001c higher, at 47,123c. 8.32/9376.8s, and september 3.22/9376.8s, and september 3.

Coffee Market.

NEW YORK, July 31.—COFFEE—Spot Rio, easy; No. 7 invoice, 9½; mild, steady. The market opened steady at a decline of 5 points and further sold off 10 to 15 points soon after the call, in the absence of support and liquidation following lower cables from Europe and Brazil, heavier receipts at Rio and Santos, light deliveries from American warehouses, slack spot demand and increased bear confidence. While there was a partial raily later on covering the undercurrent of sentiment continued bearish; closed steady, at a net decline of 10 to 20 points. Total sales, 24,000 bags, including September, \$8,35446; January, \$8,45; March, \$8,56490; April, \$8,55; May, \$8,55460.

Dry Goods Market. NEW YORK, July 31—DRY GOODS—A revision of prices in wide sheetings to a lower basis has been the chief feature today. In bleached cottons there is a steady demand for moderate quantities at previous prices. Brown cottons dull and irregular. Coarse colored cottons slow. Prints in demand. Print cloths firm. Business in men's wear woolens at new prices is only moderate. Dress goods slow.

California Dried Fruits. NEW YORK, July 31.—CALIFORNIA DRIED PRUIT—Inactive and featureless. Evaporated apples met with comparatively little call again today, but ruled tolerably steady at about former prices; state, common, 3½455c; prime, 5½45½c; choice, 5½26½c; fancy, 7½c; prunes, 3½47c; per lb., as to size and quality; apricots, Royal, 11% lie; Moor Park, 15%17c; peaches, 14%18c; unpecled, 6%5c.

OH Market. Oll. CITY, July 31.—Oll.S—Credit balances, \$1.21; sales, 9,000 bbls, cash oil at \$1.29; shipments, 96,696 bbls.; average, \$2,000 bbls.; runs, 155,242 bbls.; average, 91,000 bbls. LIVERPOOL, July 31.—Oll.S—Cottonseed, Hull refined, August, firm, 22s 9d.

HOGS—Receipts today were light for a
Tuesday, but the quality was better as a
general thing than yesterday, though the
proportion of half-fat stuff was rather
large. The opening sales today were a
little stronger than yesterday's general
market, but it soon cased off so that the
bulk of the early sales were only about
steady. The long string went at \$5.00½,
with the better grades selling at \$5.10 or
higher, and the light or trashy stuff sold
from \$5.05 down. The market was not
particularly active, as sellers were looking
for a little better prices and buyers did not
want to pay more than they did yesterday.
The market closed without material
change, the long string going at \$5.01½,
with a few more in proportion at \$5.00 than
yesterday and also a better top, so that
the average cost today is just a trifle
higher. Representative sales:
