United States as Well as Germany Interested in Keeping Valley Open for Commerce.

BERLIN, Aug. 7.- The Foreign office admits that serious differences have broken out between the powers with reference to the advance on Pekin and as to the measures that are being taken in the Yang Tse valley

Germany's opinion regarding the steps Great Britain has taken in the Yang Tse region is expressed through the Cologne Gazette. The opinion is one of disapproval of steps taken already or contemplated, inasmuch as Germany, with a number of the other powers, is as much interested as England in keeping the Yang Tse valley open for commerce. The Foreign office believes that in this particular all the powers except England are agreed. It does not believe that England would insist on carrying things with a high hand now that she knows she is opposed by all the other powers. The Foreign office is confident that the United States and Japan will side with Germany and the other powers against England in

her action along the Yang Tse. The Associated Press is informed that the United States embassy in Berlin has informed the Foreign office that the United States government desires that the Yang Tse be left open for American trade and that Washington will also oppose all schemes for the division of China, no matter from

TIEN TSIN, Sunday, Aug. 5 .- 8 a. m .- (Via Shanghai, Aug. 7.)-This morning at daylight 16,000 allies attacked the Chinese at Post Sang and forced the enemy from the trenches. The Americans who participated were the Ninth and Fourteenth regiments, Reilly's battery and the marines. A heavy battle is still in progress.

LONDON, Aug. 7.-The special dispatch o the Associated Press from Tien Tsin, dated Sunday, August 5, 8 a. m., via Shanghai, August 7, is the only press message which has got through from Tien Tain since the battle at Peit Sang.

Various Tien Tain dispatches of earlier dates allude to reconnoitering encounters with the Chinese preparatory to a general
