Wires Up to Yang Tsun.

Colonel Scriven's statement, "Wire up. contains much meaning, as it is accepted as showing that there is direct telegraphic communication with the army in the field. Aside from the assurance this gives of a speedy transmission of news from the front, it gives the additional assurance that the line is clear back to the first base of operations. The capture of Yang Tsun on the day following the hattle at Peitsang is regarded as a highly successful military achievement, especially in view of the fact that it was looked upon as a stronghold, whose canture might give the foroigners considera ble trouble.

WASHINGTON, Aug. 9 .- An important

giving with much detail a conversation by

Li Hung Chang, in which he expresses his

beheaded ministers are given in the dis-
