PRESENT BUILDINGS WILL BE MADE USE OF

West Side and Ambler Schools Will Be Removed to Consolidated Location-Bond Issue Proposed for Buildings.

At a special meeting of the Board of Education called at 5 o'clock yesterday afternoon arrangements were perfected for the consolidation of Eckerman, West Side and Ambler schools on the Fortyeighth street site selected by the Seventh Ward Improvement club. The committee appointed to investigate the proposed consolidation brought in a report recommending that the new site be purchased for \$750 and the ten members of the board who were present voted for the adoption of the report. Previous to the meeting a contract was entered into with the estate owning the ground and a defect in title is the only thing that can thwart the

board's plans. When the report was first presented to the board objections were raised by several members, but after the plans were explained the members present were unanimous in favoring the consolidation. The site be moved at once to the new loca- diseases tion and fitted up for use at the opening of the coming school year. This recommendation was endorsed by the board and work will be commenced as soon as contracts can be let for the improvement.

Ideal School Property. The new site is located on the west side of Forty-eighth street north of Center street and contains five lots. It has a frontage of 132 feet on Forty-eighth street and a depth of 250 feet. The ground stands high above the street and will require but little grading to make it an ideal piece of school property. The estimated cost of moving the three school buildings is \$200. The cost of the new site and the expense of moving will be less than \$1 .-200 and the members of the board feel confident that this amount of money will be saved in the administration of the consolidated schools for one year. One principal will superintend the three buildings and

There will be six rooms in the three buildings to be moved and ample accommodation will be had for 200 children. which is the average number that have attended the separate schools. Six teachers will be employed and each teacher will have two classes, making twelve Hinerant Peddler Attempts to Rob classes in all, or a number sufficient to permit the work to be graded as carefully as in any of the city schools. Under the old arrangement each teacher had so many different classes that effective work was impossible

Howard said in speaking of the change. "The closing of the small schools and the transportation of the pupils from of the three schools to be consolidated started to run and at the same time began are unanimous in supporting the project calling loudly for assistance. Her cries and the change is unquestionably a wise brought Officer Woolridge, who arrived just the new site will be derived from the sale ing out his purpose. of the old sites and the board will have ground enough upon which a permanent building can be located that will accomthe extreme western portion of

Bonds for New Buildings. The finance committee is considering the advisability of asking that \$125,000 worth of bonds be voted at the regular fall election for the construction of new buildings on the Monmouth Park, Vinton, West Side and High school sites. If such bonds were to be voted it would be impossible to erect buildings this year, and the people of the Seventh ward are urging the toard not to delay removing the three old buildings and consolidating them on the prespect of a new

A resolution instructing the finance committee to investigate the proposed issue of bonds stipulates that the bonds shall not bear a higher rate of interest than 314 per cent, but makes no provision as to the distribution of the funds among the various sites. The present Monmouth Park building at Thirty-third street and Meredith avenue is a t o-room frame building which is valued at \$1,000. The Vinton school at Twenty-first and Boulevard has two buildings, one a two-room brick and the other a two-room frame structure, and the valuation placed upon them by the board is \$2,000. There are also two frame buildings on the West Side site estimated to be worth \$2,000.

SOLDIERS SAVE THEIR MONEY

Large Amount Now in United States Their Treasury to Credit.

"Unless one knew of the conditions he would be surprised at the amount of money it to the fact that everybody is generally deposited in the treasury of the United States to the credit of the soldiers of the regular army," said Paymaster B. D. Slaughter yesterday. "The soldiers are permitted to deposit money with the company commander, and this is placed in the government treasury and the soldier is allowed per cent interest on the deposit. After the money is deposited it cannot be withdrawn until the soldier is discharged. I have known soldiers to draw \$4,000 from the treasury upon their final discharge, and \$1,000 is no unusual amount for an old regular to have upon the books. The rate of interest for an absolutely safe investment is something out of the ordinary, and as the money is out of the reach of the man when he is inclined to spend it he is protected from himself."

Representatives of the quartermaster's department are now inspecting the oats recently purchased for use in the Philippines. Loading will be begun as soon as the reports are received.

BUY CENTER STREET SITE IRELAND IS PROSPEROUS BOSTON STORE REMNANT SALE

Good Times Inaugurated by McKinley Seem to Have Crossed the Ocean. William McKenna and party, consisting

of his family, Mrs. Amelia Patten, Miss. Mary Patten and Miss Kittle Castle, returned from a three months' trip to Europe Wednesday. In the evening a reception was endered the travelers at the home of Mrs. Patten on North Sixteenth street, at which 100 of their friends were present.

Mr. McKenna in speaking of the trip says that, despite all rumors to the contrary, the Paris exposition is a great success; that combines in artistle groups a display of the progress of centuries, from the antiquities of China to the most modern inventions of the great American republic. The party spent a large part of the time at the exposition, but did not neglect the "ould sod," where they visited friends and relatives.

Mr. McKenna was surprised at the conditions on the island and says that laborers were never in so good condition as at present. There is a demand for them that cannot be supplied at higher wages than ever before paid. This condition is also true of England. Land values in the part of Ireland visited by the party have greatly decreased in the last twenty years and rents | yard, go at Stee a yard. are little more than half of what they were

EVIDENCE OF PROSPERITY

So Much Good Money in Circulation that There is No Inducement to Circulate Courterfeits.

"Omaha was never so free from counterfelt money as at present." said Captain Webb of the secret service department yesterday. During the month of July there were turned into him two silver dollars and a 5-cent piece from Nebraska and lowa. One of these dollars was from the private mint of "Black Jack" McCarty, leaving but two pieces of spurious coin unaccounted for.

"It is the quietest time I ever saw in the business," said the captain, "and I ascribe employed at good wages. A counterfeiter is usually an industrious man and only makes spurious coin because he cannot get hard is when the secret service agents are kept busy.
