FREMONT, Neb., Aug. 14 .- (Special.)-A severe windstorm passed over this county last night, doing a large amount of of the institute sessions. Prof. George damage. A barn on the farm of Nels Johnson in Logan township was blown down and eight horses which were in it killed. Near Hooper a barn on George Briggs' place was struck by lightning, took | jamin Andrews of Lincoln will lecture to fire and was entirely consumed with its contents, including a horse and cow. Both at Scribner and Hooper the wind was reported very severe, demolishing sheds, outhouses and many trees. The wind was almost directly north. At Scribner a freight car standing on a switch was blown onto the main track. In twenty minutes the wind had blown it a distance of eight miles to Hooper, where it crashed into the caboose of a freight standing at the station, driving it into the next car and smashing it up. Fortunately none of the train crew were injured. In this city no more serious damage is reported than a few trees blown down. In some places corn is blown perfectly flat. Some of it will straighten up, but considerable is too nearly matured. All orchards were injured by the fruit being blown off. A light

shower accompanied the wind. HOOPER, Neb., Aug. 14 .- (Special.)-A severe storm passed over this section last night and considerable damage was done. The wind came up about midnight and with it came a terrible downpour of rain, which lasted for about half an hour Trees of all kinds were blown down or broken off. Southwest of town there was considerable hall, which damaged the corn severely. At Swan Nelson's, four miles northeast of Hooper, the barn was blown to pfeces, four horses were instantly killed and three more were so badly injured that they had to be shot. All the barns and outbuildings on the farm of August Ruwe were completely destroyed and it is estimated that his loss will reach \$2,000. There were probably twenty-five windmills blown to the ground and a number of bouses were moved from the foundations and roofs blown off.

GOVERNMENT FOR THE FILIPINOS. Democrat in the Islands Sheds Light

on the Situation. GENOA, Neb., Aug. 14 .- (Special.) -- Your correspondent was permitted to read a letter this week from Guy Slaughter, dated Inguegoran, Philippine islands, to the parents of this city. Mr. Slaughter went o Manila as a member of the First Nebraska and remained in the islands when the regiment came home, being employed in the commissary department at Manila for a time, but later has been engaged traveling through the islands buying hemp and tobacco. Guy was a democrat when he departed for Manila, and his father, has been a democrat all his life. In discussing self-government for the Filipinos he says: If an angel favoring self-government for these people were to run for president against an imp of the opposite opinion I would vote for the imp. A majority of these people are in a state far worse than ordi-nary impresses.

would vote for the imp. A majority of these people are in a state far worse than ordinary ignorance.

Here is my Philippine policy, and I think I am backed by all the suffering lower class and the few honest upper class:

1. Give them a government which requires all taxes to be paid to Americans.

2. Give them a government which requires all taxes to an American judge even in the smallest questions of law.

3. Make false denunciations punishable by not less than five years in prison.

4. Punish by enormous fines or long terms in prison all persons who receive bribes in any form paid in any amount. They have become so accustomed to seeing those in authority rob the lower class that they have no idea of honest government.

And now please remember this one sentence from its humble source: "The less power the United States government puts into the hands of these people the better will be the government of this archipelage."

Do not construe power to mean rights, on the contrary, I would like to see every one of them given rights which would permit them to appeal in person to the highest authority.

Prevent Baldness

And Cleanse the Scalp of Crusts, Scales, and Dandruff by Shampoos with

And light dressings with CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

### Millions of Women

Use CUTICURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. Curr-CURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated scap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap the nest toilet and nest baby soap in the world.
