President Expected Today. The arrival of President McKinley tomorrow is looked upon with great interest in view of the gravity of the crisis. The presidential party will be here tomorrow and an extended conference between the president, Secretary Root, Acting Secretary Adee and others is likely to occur early in the day. This probably will assume the aspect of a cabinet conference, if indeed it is not feit desirable to hold a special cabinet meeting. The regular meeting day of the cabinct is on Friday, at which time there will he further opportunity of going over the Chinese developments.

COMMITTEE MAKES REPORT gavel. He said:

Lloyd J. Smith Held Responsible for Irregularities in Chicago Elevator Companies.

CHICAGO, Aug. 15 .- The state investigating committee appointed by Governor Tanner to look into alleged irregularities in the Chicago elevator companies and the state grain registrar's way of doing business made its report today. Lloyd J. Smith, former manager of the elevator concern, is held responsible for the removal of grain from one company's elevators without the cancellation of the warehouse receipts. The report also holds that had Registrar Hogan done his duty the grain could not have been removed. The report recommends that the grain registrar's office be divorced from politics and the registrar be heavily bonded; that the clerks also be under bond; that the punishment for violations of the law governing warehouses and elevators be made more severe, and that no grain shall be allowed to pass out of an elevator without an order from the registrar.
