THE OMAHA DAILY BEE: SUNDAY, AUGUST 19, 1900.

The second sec

be in a good healthy condition. Few Changes in Grocerles. With but few exceptions, the grocerry market remains unchanged. The demand for both immediate use and for futures is exceptionally good, and it looks now as though the September (rade would break all previous records for that month. There is no change to report in the coffee mar-ket, as quotations are practically where rather unsettled, but it is thought higher prices are bound to rule in the near fu-tors. Sugar is also the nume as it was a week ago. The demand is very heavy for August and jobers still maintain that there is liable to be a lively and higher market in September. The new crop of teal is now on the mar-higher than they were a year ago. Some of this advance is of course due to the Chinese disturbances, and should they grow more scious and be proiologid the grow more scious and be proioliged the reacher than they were a week ago, and a would be put in force. The higher than they were a week ago, as the higher than they were a week ago, and would be put in force. The higher than they were a week ago, as the higher than they were a week ago, and the higher than they were a week ago, are the higher than they were a week ago, and the higher than they were a week ago, and the higher than they were a week ago, and the higher than they were a week ago, and the higher than they were a week ago, and the higher than they were a week ago, and the higher than they here a week ago, and the higher than they have now arrived when a manned and appricous have now arrived when a market and are in good demand at tendy prices. Cheese is a fittle stronger than it was a week ago and quotations range from b to be a cent higher Frac-tionally all other lines remain where they were a week ago.

were a week ano.

Hardware Market Quiet.

Bardware Market Quiet. Business with hardware jobbers is, of 1 course, a little quiet this month, but as compared with last year at this time there is considerable activity. There is as good a demand for all seasonable lines as could be expected and no complaints are heard on any score. The market is practically the same as it was a week ago, no impor-tant changes having taken place. There are, of course, a few minor fluctuations, but nothing worthy of mention. There has been a change, however, that is of importance to dealers in glat. For some time past jobbers have been looking 2 for an advance in plate glass, and it was

the same as it was a week ago, no impor-tant changes having taken place. There are, of course, a few minor fluctuations, but mothing worthy of mention. There has been a change, however, that is of importance to dealers in gla. For some time past jobbers have been looking for an advance in plate glass, and it was announced last week and amounts to 15 per cent. It went into effect August 14 and those who are in a position to know say that it will in all probability remain in effect several months and until spring at least. Window glass is also in a very strong position and an advance on that as well would not be surprising at the prospect for an immense fail denand is very flattering. No Change in Dry Goods. There has not been a change in the dry WaterMatley, a to the market. There has not been a change in the dry WaterMatley, and the same a change in the dry waterMatley, and the same

 CONDITION OF OMAILA'S TRADE
 CORNALL OF OMAILA'S TRADE
 Rains of Last Week Have Greatly Improved the Condition of Trade.
 OUTLOOK FOR FALL BETTER THAN EVER
 Markets as a Whole Remain About Steady with but Few Important Changes since Last Report.
 The trade outlook in this locality has shown if wonderful improvement during the past week. There is no doubt that the fry weather was beginning to seriously after the past week. There is no doubt that the dry weather was beginning to seriously after.

No Change in Dry Goods. There has not been a change in the dry goods market this week that is of interest to dealers in this section of the country. The cotton market is, of course, very un-settled, but very little can be told as yet regarding the final outcome Manufactur-ers, as a rule, are holding their goods at good strong prices and where the buyers want them at the prices marked they can let them alone. The volume of husiness in eastern markets is on the increase and a fair amount is being transacted for this time of year, with the outlook for the fu-ture very encouraging.

time of year, with the outlook for the fu-ture very encouraging. Locally, trade is also very satisfactory. The rains have given new life to the trade and traveling men are sending in much more favorable reports than they were a week or ten days ago. Jobbers are still rushing out fall shipments and have a good many left. Taking everything into consideration, the situation with dry goods lobbers is very grafifying.

jobbers is very gratifying. Drugs Active and Higher.

Drags Active and Higher. The drug market is still in a very strong position and a number of advances have a strong position and a number of advances have a strong position and a number of advances have a strong position and a still greater improvement is loaked for in the near future. As anticipatel, the rise am unting the near future. As anticipatel, the rise am unting the near future of the rise am unting the near future of the rise am unting the near future.
