DENVER, Aug. 19.- (Special Telegram.)-Denver won the last game of the season on the home grounds from Omaha today before a crowd of over 4.500 pc ple. It was a procession from the start, principally because the locals tound Roach's curves rather easily. Baird retired with an injured finger in the seventh and Reilly was Brooklyn Ebright in the ninth inning. Denver's two runs in the first were made by a single, a Bostor two-bagger, two outs and a passed ball. They made four more and cinched the New York came in the third by a man hit, a base on balls. Toman's error and three hits. Omaha GAMES OF THE AMERICAN LEAGUE secored in the first when Toman slid home

on McVicker's out at second, after two men had been hit by McNeely and Freeland had hit safely. In the ninth inning Freston. who took Reilly's place at third, let two balls get through him. Freeland and game by opportune hits and the numerous Thompson then did some hitting and three men scored. Score:

Market Uncommonly Strong.

In spite of midsummer duilness the mar-ket has displayed unusual strength. This was due chieffy to strong inside support, easy money, improvement in the Chinese situation, good railroad earnings, satisfaceasy money, improvement in the Chinese situation, good railroad carnings, satisfac-tory crop reports in general, improving trade prospects and increasing public con-fidence. With the return of absentces from their vacations, the prospects are for a more active and stronger market. Con-siderable discrimination, however, will be necessary in the purchase of stocks, much more than a year ago. A few of the best class of industrials, especially the iron and steel issues, may afford a fair chance of profit, but the more conservative operators will select the securities of railroads which are marking good records in earnings, and speculative interest is likely to be chiefly centered upon the new dividend-payers. The market has thus far ignored the large gold shipments, for the reason that we shave plenty of gold to spare for Europe's needs. More may follow, but there is no prospect yet of the movement causing dis-turbance here. Before many weeks the supplies from South Africa, which have the drain upon the United States. However, apprehension is ex-pressed at the growing indebtedness of Europe to the United States, which will be increased during the remainder of the year in consequence of cotton shipments, and is is feared that New York will recall gold from England and Germany before the year is over. The Russian government is issuing orders for 480 locomotives. Conditions in the textile industries are deteriorating. A thousand looms and twice as many operatives are idle at Aachen. a holiday yesterday. Little business was done, but the tone of the market was cheerful and prices were higher in most departments. A notable feature was the recovery of Chinese securities simultane-ously with the success of the allies. The sain almost equals the recent fall. The decline in money, which has been the chief influence effecting the markets has been well seconded by the course of events in China, and the state of the markets has been such that it has been difficult to buy at quoted prices. Consols, however, closed by higher at 28%. Americans were the most active element of the market, with prices distinctly bei-ter, the rise ranging from 1 to 3 points on the woek. CLOSES AT HOME VICTORIOUS. Nice Record Made by Hulen's Team for a Farewell. PUEBLO, Colo., Aug. 12—(Special Tele-gram.)—Pueblo made, her last game at home this season her tenth successive vic-tory and the fourth straight over the Saints. Gibson was given miserable sup-port, but behind Yerkes there was an array of big baskets. The rotten errors of Kling were largely responsible for Pu-eblo's six tallies in the fourth. Score: PUEBLO. Interest in Yacht Races. NEWPORT, R. I., Aug. 19.—Seven of the series of ten races scheduled for the sev-enty-footers have been suited and the re-maining three races are set for Monday. Wednesday and Friday of the coming week. The weather indications tonlight are favorable and the owners of the four yachts are looking forward to some good sport in tomorrow's race. Interest in these contests is keener than ever, now that the final ones are close at hand. The Mineola and Yankee have each eight points to their credit, the Rainbow four and the Virginia ore, each race counting two points for the winner, and if four start the second boat scores one point. If the Rainbow should win the next two races it would have ten points and would win the second twice, which would make the three boats the. The Virginia has no chance of fered to the winner of each race it may win three of them and by starting each day it will at least give the second boat a chance to secure a point.

He was bold and es-sentially a builder-up; and his affairs dis-play the habit of the man in that his death did not in the slightest degree impair the market value of his vast enterprises, as they are now considered well established in public confidence. In the history of the marvelous development of the great Pacific coast his personality and achievements will always occupy a very high place.

Better Business in Sight.

The closing week has developed several factors that work toward cheerfulness and betterment. The security market has been dull, but its great underlying strength has been demonstrated in several instances. In betterment. The security market has been dall, but its great underlying strength has been demonstrated in several instances. In-vestors are beginning to realize that the readjustment of prices of iron manufac-tures, cotton and woolen goods, and other finished products has begun to bring about increased demand and greater activity in trade circles. As unmistakable evidence of this it is stated that never before has the army of buyers in New York been so large at this season of the year, a conservative estimate placing the number at not less than 4,000. This is an indubitable indica-tion of a full and brisk fall and winter trade. And not only are domestic buyers here in force, but many more than at any previous time are here from abroad. Th-demand for American manufactures in all lines, as noted above, is rapidly increasing abroad, and places us in an enviable posi-tion of a full and brisk fall and winter trade. And not only are domestic buyers here in force, but many more than at any previous time are here from abroad. Th-demand for American manufactures in all lines, as noted above, is rapidly increasing abroad, and places us in an enviable posi-tion. Aside from this the exportation of coal promises to add largely to our revenues before many months elapse, in consequence of the increasing difficulty of obtaining it from the Weish mines. The collapse of the South African war seems now only a question of a short time and may come at any moment. The pres-ent series of British operations seems des-tined to speedily break down the remaining opposition to the closing of the conflict. The situation in China again shows im-provement, and the rescue of the besteged in Pekin has been accomplished. This very serious affair has been handlet from the beginning in a masterly manner by the president and Secretar.
