Article Anent Ruling of Internal Revenue Commissioner with Regard to Fraternal Insurance Societies Away off.

In a column article yesterday the local organ of the disgruntled sent to the world a quantity of misinformation for the apparent purpose of creating in the minds of the people a belief that the internal revenue commissioner of the United States had made a ruling which would disrupt all of the fraternal insurance societies of the country. The fact is that such societies were not affected and the claim for Congresamen Stark of credit for saving the companies a great expense falls.

The article in question stated that "there States internal revenue department;" that "in this ruling many of the officers and still more of the members of the companies see destruction ahead," and then states that the commissioner has ruled that the fraternal companies must pay a revenue tax of 8 cents per \$100 on every policy written since July 1, 1898.

The facts in the case show that no such decision was ever rendered and that since November 16, 1898, no new decision in the tucky have seen as much of a crushing out matter of fraternal or mutual companies of popular will as ever existed in the Philhas been rendered by the commissioner. On that date a question was raised regarding a mutual insurance company of lowaand the commissioner held that all mutual companies were subject to the tax, but in that decision he distinguishes between mutual and fraternal insurance societies and associations, holding that the latter do not have to pay the tax. Specifically he states that there are exempt from taxation under the terms of the law; First, fraternal societies or orders; second, beneficiary soteties or orders; third, farmers' purely local co-operative companies or associations; fourth, employes' relief associations operating on the lodge system or local cooperative plan.
