CUMBERLAND, Md., Sept. 4.-The open ing of the democratic campaign for the states of Maryland and West Virginia at this place tonight was rendered memorable by the appearance on the same platform of William J. Bryan and United States These soon subsided, however, and after speech marked his formal renunciation of party ties on account of the issues growing out of the war with Spain. He had for this he wanted to bring the war to a technical reason prepared his speech with care and he read it from typewritten manuscript. Mr. Bryan spoke without notes and he appeared at the meeting almost immediately after the arrival of the special train which had brought him across the state of West Virginia and thus far into Maryland. The journey had been an arduous one, covering, including the trip from Chicago, about twenty-four hours of railroad riding. Mr. Bryan made a number of brief addresses from the rear platform of the hindmost car.

Beginning at Benwood, Mr. Bryan spoke n succession at Cameron, Mannington, Fairmont, Grafton, Deer Park and Piedmont. He made very brief remarks at a few other places. At each place there were good-sized crowds and the candidate was cordially greeted. The speeches of the day maniuss economic questions than had been shown on former occasions. At Cameron he referred especially to the republican plea of reiterated his charge of a secret alliance now carrying on various governmental NO CHANCE FOR OVERTIME AT PRESENT prosperity, saying that the workingman with Great Britain. During the day Mr. Bryan's attention was applause which had welcomed his first called to an extract from a New York newscoln farm the present season than the entire farm had cost him, putting the result at \$1,400 on 120 acres of land. Commenting upon this statement, Mr. Bryan said:

upon this statement, Mr. Bryan said:

The entire farm contains only thirty acres and cost me nearly \$4,000, although the land is not worth that much today. Instead of having 120 acres in cats, I had only five acres in oats, and the oats have not yet been threshed. They will hardly yield forty bushels to the acre. Oats, instead of being 30 cents a bushel in Nebraska are worth 21 cents in Chicago. My oat crop will not bring me over \$40. The five acres upon which the oats were raised cost me a little more than \$100 an acre, so that the gross income this year will be less than 8 per cent on the original investment. After taking out the cost of seed cultivation, harvesting and threshing the income will be reduced to less than 5 per cent. At Fairmont Mr. Bryan closed as follows: The republican policy means that we shall have a form of republic here and a practice of despotism in the Orient. The republicans said in 1896 that we could not have a double standard of money; now they have a double standard of government. They said in 1896, we advocated a 50-cent dollar, yet they have a 85 per cent citizen in Porto Rico and we don't know what per cent of citizenship the Filipino is to have. In 1896 the republicans said every dollar must be as good as every other dollar and we say that every citizen shall be as good as every other citizen, and that the same constitution shall protect them all.

At Grafton Mr. Bryan said he was looking to West Yirginia to do better for the democracy this year than it did in 1896, but he had no complaint to make of the number.
