

GRAIN MOVEMENT HAS BEGUN

Railroads Pressed to Furnish Enough Cars to Market Bumper Crops.

FARMERS REALIZING HANDSOME PRICES

Immensity of the Kansas Wheat Crop Surpasses the Expectations of the Most sanguine.

Movement of the enormous corn and wheat crops from Kansas and Indian Territory this year has begun and the railroads so situated as to be able to handle the business have been confronted with a problem of some difficulty in furnishing equipment commensurate with the demand.

"During the month of August," said Commercial Agent H. A. Foxworth of the Rock Island, "our line handled through the Kansas City gateway from points in Kansas and Indian Territory over 3,000 cars of grain.

Farmers Are on Easy Street.

"There is no particular rush of wheat to the Chicago market from points along the line in Kansas," said General Freight Agent E. H. Wood of the Union Pacific, "and even if there had been we would not have been troubled with any apparent shortage of cars, as our freight equipment is sufficiently large to provide transportation facilities in any emergency.

LOOKING FOR HEADQUARTERS

Brotherhood of Locomotive Firemen Likely to Leave Peoria, Ill.

OMAHA HAS CHANCE TO SECURE THEM

Commercial Club Will Be Asked to Use Its Influence in Locating the Order in Omaha.

The city of Omaha through the Commercial club, has been offered an opportunity to secure the headquarters of one of the oldest and strongest labor unions in the United States, the Brotherhood of Locomotive Firemen, which is now located at Peoria, Ill.

This union was organized in 1871 and since that time has extended to practically all of the railway lines in the United States and Canada. The head of the order is Frank P. Sargent, one of the most conservative and trusted leaders of any union in the country.

The membership of the society is 38,084. The union has an insurance feature which in the last year paid out \$465,672 in death and accident benefits. Its policies now in force aggregate \$20,000,000.

The union publishes a magazine of general circulation among its membership, one of the best labor magazines of the world. A statement of the cost of maintaining the publication is given in a year-book recently issued, showing it to be for the year 1900, \$28,817.22, and its income from sources outside of the order, \$12,104.

Requirements of the Headquarters.

The biennial convention of the union meets next week at Des Moines, Ia., and the matter of their removal has made proposals are being considered. In his annual address the master workman outlines the requirements of the union in the way of a headquarters. The city which secures them must possess express facilities, reaching by the most direct route to all divisions of the order.

If the headquarters of the firemen are secured for this city it will be easy to locate the switchmen's headquarters here, and this union is making one of the best records of any labor organization. Its growth has been phenomenal. Since August 29 fourteen new unions have been organized and applications are in for as many more.

Endured Death's Agonies.

Only a roaring fire enabled J. M. Garrettson of San Antonio, Tex., to lie down when attacked by asthma, from which he suffered for years. He writes his misery was often so great that it seemed he endured the agonies of death, but Dr. King's New Discovery for Consumption wholly cured him.
