Governor Roosevelt Makes Eight Telling Speeches at as Many Places.

IMMENSE CROWDS GREET + IM EVERYWHERE

Thousands Were Turned Away from the Auditorium at Grand Rapids Last Night. Where the Longest Speech Was Delivered

GRAND RAPIDS, Mich. Sept. 7 .- Gov.

ernor Roosevelt arrived at this city at 6 o'clock this evening and was accorded a grand street demonstration. Tonight he spoke in the Auditorium, which was growded to its utmost capacity, and later made a brief speech in Powers' theater. During his trip through Michigan today Colonel Roosevett made eight speeches, beginning at Bay City at 8:20 in the morning and ending at Hastings at 5 o'clock. The crowds at the various stopping places during the day were large, appreciative and responsive. The New York governor is pleased with his western reception, although he complains that he is greatly overworked. He says that while his health is robust and his strength equal to any ordinary demand, he will be glad when he crosses the Michigan state line into another state, where the central committee does not work its candidates so hard. The governor will sleep here tonight in his private car and will go to South Bend, Ind., tomorrow, where he speaks at 5 p'clock in the morning.

The demonstration at the Auditorium tonight, in point of numbers and enthusiasm, surpassed any that has yet taken place at any meeting held during the present campaign in honor of the vice presidential candidate. Thousands were unable to gain admittance to the hall.

The meeting was called to order by Congressman William Alden Smith, who introduced Governor Rocsevelt in a brief, patriotic and telling address, in which he extelled the courage, sacrifices and patriotism of the American soldier. When Gov ernor Receivett advanced to the front of the stage the great audience broke into enthusiastic applause. When it had sub-

Now a word specifically as to the Philippines. It is in connection with the Philippines it is in connection with the Philippines that Mr. Fryan has chiefly harped upon the 'consent of the governed' theory. As a matter of fact we cannot too clearly keep in mind that the success of the Aguinaldian robels would mean not liberly for all Pilipinos, but liberly for all Pilipinos, were treated with intolerable crueity. The Aguinaldian leaders have, wherever their power has extended, continued a system almost as had. The chief yiethes of this system have been not the Americans, but their fellow Filipinos, for their hatred and crusity have been exhibited chiefly at the cost of their fellow countrymen who have had the good sense and genuine patriotism to realize that the true interests of the islands lay in the American government. Julige Taft, President. Schurman, Professor Worcester, Pishop Potter and all our army officers are a unit on this point.

Remember that to surrender the Philippines now to a little band of military ursurpers would be to surrender the islands to bloodshed and misery. Our stay in the islands is the condition precedent of pence. With us expansion means, as it always has meant, peace. With us expansion means, as it always has

Duty of the Patriot.

My fellow citizens, the truth as regards the present situation is simply and cearly that the American people now have to drecide whether or not they will play the part of a great nation nobly and well. It is with the nation as with the individual None of us respects the man whose aim in life is to avoid every difficulty and dauger and stay in the shelter of his own home, there to bring up children unable to face the roughness of the world. We respect the men who go out to do a man's work, to from difficulties and overcome them and to train up his children to do likewise. So it is with the nation. To decline to do our duty is simply to slak as China has sink. If we are to continue to hold our heads high as Americans we must bravely soberly and with resolution from each particular duty as it arises and it is because of the great truth contained in this frinciple that we appeal to every mill, northerner and southerner, easterner and westerner, whether his father fought under Grant or under Lee, whatever positical party he may have belonged to in the past—to stand with us now when we ask that the hands of President McKinley be upsheld and that this nation, instead of shrinking in unmainly terror from its duty, shall stride forward to use its gant strener for the unholding of our honor and the interests of manking in doing that part of the world work which Providence has arbitated to us.

Prosperity and Ropor Offered Voters by Republicans-Other Choice Dishonor and Distress.

To appeal now to the average man to however less he groun under the burden of the soldier is a good deal less rational than to appeal to him in New York or Children to beware less he groun under the groun under the special train resumed its journey.

Among other things he said:

It is important that we should have intelligence and common sense in our representative at Washington. It is even more important that we should have sincerity, and what can you say of the intelligence or sincerity of the party that four years ago said that if the gold standard was not abolished we would have four years of hard times; or of the sincerity of that party which says that now it is for tree silver strong, so far as the free silver men are affected, but not strong enough to hirt the feelings of the men who have a preference for gold?

I see in the audience man after man who bears the button that shows that in the times that tried men's souls they proved their truth by their endeavor. They were loyal to life itself, for the union and for the cause of freedom. Those men know that you do not need just one or two qualities but many, to make a good soldier. In the first place, you have to have natriotism. That is not enough, I don't ears how patriotic a man is, if he has a tendency to run away he is no good. A good soldier has to have courage, and that is not enough. I don't care how patriotic and brave he is, If he thinks he knows it all and is not willing to obey orders, his usefulness as a soldier is impaired. Now it is just so in civic life. In the first place you have got to have control to the amainst the not enough. I don't care how patriotic and brave he is, If he thinks he knows it all and is not willing to obey orders, his usefulness as a soldier is impaired. Now it is just so in civic life.
