The present congress has given to Alaska a territorial government, for which it had waited more than a quarter of a century; has established a representative government in Hawaii; has enacted bills for the most liberal treatment of the pensioners and their widows; has revived the free homestead pol-icy. In its great financial law it provided markable growth of our inland industries for the establishment of banks of issue with a capital of \$25,000 for the benefit of villages and rural communities and bringing the opportunity for profitable business in banking within the reach of moderate capital. Bonds Paid from Surplus Revenue.

During the last year more than \$19,000,000 of United States bonds have been paid from the surplus revenues of the treasury and in addition \$25,000,000 of 2 per cents matured, called by the government, are in process of payment. Pacific railroad bonds issued by the government in aid of the roads in the sum of nearly \$44,000,000 have been paid since December 31, 1897. The treasury balance is in satisfactory condition, showing on September last \$135,419,-000, in addition to the \$150,000,000 gold reserve held in the treasury. The government's relations with the Pacific railroads maritime canal is now more than ever inhave been substantially closed, \$124,421,000 dispensable to that "intimate and ready being received from these roads, the greater part in cash and the remainder with ample securities for payments de- tion of the Hawaiian islands and the ex-

Our total money on July 1, 1896, was \$1,506,434,966; on July 1, 1900, it was \$2,062,425,400, and 1899, will make provisions for the sure ac- ing increased returns; its fields are being that he will stump the state, as he puts it, \$2,086,683,042 on September 1, 1900.

Our industrial and agricultural conditions are more promising than they have been for many years; probably more so than they have ever been. Prosperity abounds everywhere throughout the republic. I rejoice that the southern, as well as the northern states, are enjoying a full share of these improved national conditions and that all are contributing so largely to our remarkable industrial development. The moneylender receives lower rewards for his capital than if it were invested in active business. The ever been in this country, while those secured. Discrimination between what is tration, I present at some length the events miliar figure in Nebraska and a potent things which are produced on the farm and in the workshop, and the labor producing them, have advanced in value.

Growing Increase of Foreign Trade. Our foreign trade shows a satisfactory and increasing growth. The amount of our experts for the year 1900 over those to restrict business, create monopolies and of the exceptionally prosperous year of 1899 was about \$500,000 for every day of the year, and these sums have gone into the homes and enterprises of the people. There has been an increase of over \$10,000, 600 to the exports of agricultural products. \$92,692,220 in manufactures and in the products of the mines of over \$10,096,000. Our trade balances cannot fail to give satisfaction to the people of the country In 1898 we sold abroad \$615,432,676 of products more than we bought abroad in 1899 \$529,874,813 and in 1900 \$544,471,701, making during the three years a total balance in our favor of \$1,689,778,190 - rearly five times the balance of trade in our favor for the whole period of 108 years from 1790

to June 30, 1897, inclusive. Gold Stock Angmented by Millions. Four hundred and thirty-six million dollars of gold have been added to the gold stock of the United States since July 1. The law of March 14, 1900, authorized the refunding into 2 per cent bonds of that part of the public debt represented by the 3 per cents due in 1908, the 4 per cents due in 1907 and the 5 per cents due in 1904, aggregating \$840,000,000. More than one-third of the sum of these bonds was refunded in the first three months after the passage of the act, and on September 1 the sum had been increased more than \$33,000,000, making in all \$330,578,050, resulting in a net saving of over \$8,379,520. The ordinary receipts of the government for the fiscal year 1900 were \$79,527,060 in

excess of its expenditures. While our receipts both from customs and internal revenue have been greatly increased, our expenditures have been decreasing. Civil and miscellaneous expenses for the fiscal year ending June 20. 1900, were nearly \$14,000,000 less than in 1899, while on the war account there is a decrease of more than \$95,000,000. There were required \$8,000,000 less to support the navy this year than last, and the expenditures on account of Indians were mearly \$2,750,000 less than in 1809. The only two items of increase in the public pointing officers. It is gratifying that the expenses of 1900 over 1899 are for pensions and interest on the public debt. For 1900 we expended for pensions \$139,394,929, and for the fiscal year 1900 our payments on this account amounted to \$140.877.316. The net increase of interest on the public debt of 1999 over 1899 required by the war loan was \$263,408.25. While congress authorized the government to make a war loan of \$400,000,000 at the beginning of the war who have in every time of conflict fought with Spain, only \$200,000,000 of bonds were their country's battles and defended its issued, bearing 3 per cent interest, which were promptly and patriotically taken by our citizens.

Trusts Should Be Punished.

Combinations of capital which control the market in commodities necessary to the general use of the people by suppressing natural and ordinary competition, thus enhancing prices to the general consumer, are obnoxious to the common law and the publie welfare. They are dangerous conspiracies against the public good and should be made the subject of prohibitory or penal legislation. Publicity will be a helpful ininjurious and what is useful and necessary in business operations is essential to the wise and effective treatment of this subject. The old nan lived about two days after the terrible ordeal before succumbing to his injuries and was able to give a fair description of

his assailants to the authorities. Suspicion has been directed in a certain direction ever since and detectives of the Beatrice Detective and Bloodhound association have been devoting considerable time to the case since its occurrence. Having obtained what is considered strong evidence against the suspects, a warrant was issued vesterday afternoon and served by Constable Grimes against Noe. The other three supposed participants in the crime have not yet been apprehended, but the officers expect to get them tomorrow,

George Noe when visited at the county jail last night by The Bee representative stated that his arrest was a complete surprise to him. He said: "I worked for old Uncle David off and on for several years before his death and was well acquainted with him. I never injured even a bird that know of during my entire life and can't see why I should be arrested on this charge When Jones was killed I was home with lived around Wymore for fifteen years past that community.
