PROMISE TO PROTECT AMERICAN INTEREST

Chinese Dinlomat Assures the Gov ernment at Washington That His. Own Men can and Will Stop Murder of Missionaries.

WASHINGTON, D. C., Sept. 13.-Thcrisis that was near at hand yesterday over the evacuation proposal of the Hui slan government has been averted for time at least, and the diplomatic side the matter has become again the obejet of attention. The order to General Chaffe to leave at once, which was expected in some quarters, was not issued today. In stead, earnest efforts are making to ar range the preliminaries for the negotiations which are expected finally to settle the Chinese troubles. Li Hung Chang message today removed perhaps the lasobstacle to the speedy beginning of these negotiations and the only doubt that nov exists is as to his ability to redeem hi pledge to protect American interests and stop the outrages upon the missionarie, and native converts. If he can do this and thus manifest the existence of a d facto government, there is no reason ! doubt negotiations will begin at once. People Get Over Their Fright and Talk of Plans to Rehabilitate Their City.

ATTITUDE OF RAILROADS SOURCE OF WORRY

Streets Are Littered with All Manner of Debris, While the Shores Are Strewn with Bodies of Dead Humanity and Animals.

GALVESTON, Tex., Sept. 13.-Galveston beginning slowly to recover from the tunning blow of last week and though the ity appears tonight to be pitilessly desoated the authorities and the commercial and industrial interests are setting their forces to work and a start has at last been made toward the resumption of business on a moderate scale. The presence of the troops has had a beneficial effect upon the criminal classes and the apprehension of a brief but desperate reign of anarchy now no longer exists. The liquer saloons have at least temporarily gone out of business and every strong-limbed man who has not his own humble about to look after is being pressed into service, so that, first of all the water service may be resumed, the gut

ters flushed and the streets lighted. The further the ruins are dug into the greater becomes the increase in the list of those who perished as their houses tumbled about their heads. On the lower beach yes terday a searching party found a score of corpses within a small area, going to show district is very much in need of the followthat the bulwark of debris that lies straight across the island conceals many more ing drugs: Iodoform, chloride of lime, bodies than have been accounted for. gum camphor, assafoetida, crude carbolic

Volunteer gangs continue their work of hurried burial of the corpses they find on the shores of Galveston island and at the "Contributions should be sent to the many neighboring points where fatalities attended the storm. It will probably be many days yet, however, before all the floating bodies have found nameless graves. Along the beach they are constantly being washed up. Whether those are those who were swept out into the gulf and drowned or

> The city still presents the appearance of widespread wreck and ruin. Little has been done to clear the streets of the terrible tangle of wires and the masses of wreckage, mortar, slate, stone and glass that be strew them. Many of the sidewalks are impassable. Some of them are littered

to find and bury the dead, to remove the debris and to similate the city. Contributions of the most liberal character are repeatedly reaching me and I shall see that the money is used to the very best advantage for the sufferers and that there shall be no waste of the magnificent contributions coming from the free hands and generous hearts of a sympathetic people. In behalf of the people of Texas I do from the express my acknowledgment to the people of the United States for the ready and generous response they have made in coming to the aid of our afflicted people. The number of deaths, the amount of destitution and the loss of property is far greater than had been anticipated.

The secretary of the may has placed the resonne cutter Galveston at my disposal and I have in turn placed it at the diwith slime that walking on them is out of the question As a general rule substantial frame buildings withstood better the blasts of the gale than those of brick. In other instances, however, small wooden structures, claterus and whole sides of houses have been plumped down in streets or back yards square away from where they originally

stood. Here and there business men have already put men to work to repair the damage done, but in the main others seem to be uncertain as to following the lead of those who have faith in the rehabilitation of the

Big ships, new arrivals, rode at anchor today in front of the city. They had just reached the port and found the docks and pler damage so widespread that no as ommedation could be given to them. They dont Barr, of the Santa Fe, who went to Gaiveston to took after the company's af- found sheds torn away, freight cars overfairs there, sent the following dispatch to turned and planking ripped off.

The steamships reported ashere in early reports are, save two, the Norwegian steamer Gyller and the British steamer Norma, still high and dry.

No examination is yet possible as to the condition of those still on the sand, but the ing tug. H. C. Wilmott, has arrived from New Orleans and her assistance is to be given those which can be gotten into deep

water again. Apparently, Galveston has no immediate need for ships. The destruction of the bridges of all the railroads entering the city make it well nigh impossible to furnish outgoing cargoes. These bridges were each about three miles in length and the work of reconstruction will be a stu-

pendous undertaking. Light and Trolley Systems Gone.
