

PLANS FOR THE PHILIPPINES

Basis of Work for the Commission Sent to the Islands. LARGE MEASURE OF SELF-GOVERNMENT President's Instructions Are That the Welfare of the Inhabitants is to Be Considered of First Importance.

WASHINGTON, Sept. 18.—The instructions of President McKinley to the Philippine commission, composed of Hon. W. H. Taft of Ohio, Prof. Dean C. Worcester of Massachusetts, Hon. Luke T. Wright of Tennessee, Hon. Henry C. Hoar of Vermont, and Prof. Bernard Moses of California, were made public here today. The instructions bear date of April 7, 1900, and are addressed to the secretary of war.

At the outset the president says: "It is probable that the transfer of authority from military commanders to civil officers will be gradual and will occur over a considerable period. Its successful accomplishment and the maintenance of peace and order in the meantime will require the most perfect co-operation between the civil and military authorities in the islands and both should be directed through the transition period by the same executive department. The commission will therefore report to the secretary of war, and all its actions will be subject to your approval and control."

Transfer to Commission. The president instructs that on September 1, 1900, that part of the power of government of the Philippines which is of a legislative nature shall pass from the military governor to the commission.

Millions will be spent in politics this year. We can't keep on this course going without money any more than we can keep the body vigorous without food. Dyspepsia and indigestion digest what you eat and allow you to eat all the good food you want. It radically cures stomach trouble.
