# BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known same cause, acid and other poisons in the blood that irritate and interfere with

the proper action of the skin. To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove per manently the ugly blotches and the red, distiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

> certain things and it does what it is made to do Every woman understands the fine points of this difference between experiment and experience. When the housewife engages a cook. she demands experience. She does not want a cook who is experimenting with unfamiliar recipes. The inexperienced man might say Why, there's the cook book It tells how to make anything. All you've got to do is to measure and mix as it instructs and you can't come out wrong. Can't you? The wife knows very much better than that. Given the best recipe in the world it takes experience to make a success of it. The difference between the success of Dr. Pierce's Favorite Prescription and the failure of other medicines is the difference of experience. It is
