If Mr. Bryan is so sure of Nebraska why should he waste valuable time trying to save his own state?

The candidates on the local fusion ticket will need introductions not only to the public, but also to one another.

The confederates of Douglas county have got together and harmony, with a big H, is dense enough to be cut with a wood saw.

Colonel Edminster is great at asking questions, but when it comes to answering them he might have to call in assistance.

The three-tinged Douglas county popocratic circus has folded its tent and the Ak-Sar-Ben street show is now on the boards.

The prohibition train seems to hug close to Iowa and Iowans will remain in doubt whether the affinity is a compliment or not.

Omaha knows how to entertain royalty and its hospitality is as boundless as the great prairies of the transmississippi region.

What would the democratic convention do without the Rosewater bogie to whip the delegates into submission to the machine program.

Keep it before the people that Omaha is one of the most enterprising cities in America, notwithstanding the shortcomings of Census Supervisor Wheeler.

The prospects of an electric road have gone glimmering for the present season, but the project has by no means been abandoned.

Yes, prosperity is comparative, and the question that presents itself to every voter is, Do you want a change?

The popocratic press is doing all it can to keep the coal miners' strike a-going in the hope of extracting political capital out of it for the Bryanite cause.

How much longer will the local democrats stand for the farce of three conventions putting up a piebald ticket for them?

The fine imposed upon The Bee by the state supreme court for criticizing its action in the recent fire and police commission case is so without precedent that the state treasurer does not know what to do with the money.

Neither Mr. Bryan nor any of his organs have yet seen fit to give a categorical answer to the question, What about the negro disfranchisement in South Carolina?

The answers of the United States government to the notes of Germany and Russia regarding the Chinese question place this country in a position that should be entirely satisfactory to the American people.

WHAT'S THE MATTER WITH TEXAS?

Two weeks ago Galveston and other Texas coast towns were submerged by a tidal wave and more than 5,000 people perished, while double that number were made homeless.

The state of Texas, however, has done nothing toward relieving the distress of its own people.

Twenty-five years ago Nebraska was devastated by grasshoppers and thousands of destitute homesteaders were compelled to appeal for aid.

Five years ago Nebraska was stricken by drought and the legislature again stretched its constitutional conscience by authorizing the issue of \$200,000 of bonds for the relief of the drought sufferers.

What's the matter with Texas? Why can't Texas with its boundless resources and colossal wealth exhibit some spirit of self-reliance?

This sticking over the constitution is an old failing with Texas. Its constitution fenced Texas out of the World's fair at Chicago.

The ticket nominated by the three fusion conventions for Douglas county may be sadly disappointing to the rank and file.

The renomination of County Attorney Shields is a confession of weakness and want of courage to nominate a competent man for this responsible office.

The legislative ticket will, if anything, commend itself still less. With two or three exceptions the men are scarcely known outside of their own very narrow circle.

The only man on the ticket who has been prominently before the public is Frank Ransom, but his prominence is of a kind that does not inspire popular confidence.

At the recent meeting of the Nebraska State Bar association the principal theme of discussion turned on proposed measures to relieve the overburdened docket of the supreme court.

The American soldier is not less devoted to free institutions, not less patriotic, than any other American citizen.

gations for a final settlement, but not to be made a preliminary condition to diplomatic negotiations.

The German proposal is therefore declined and that government is at the same time informed of the purpose of the United States, at the earliest practicable moment, to name its plenipotentiaries for negotiating a settlement with China.

The peculiar advantage of the plan proposed by The Bee is that it can be made effective at once by mere initiation of the supreme court; that it involves no new expense to burden the litigant, while the decisions reached would have more weight than those given by any specially named referee.

If an immediate remedy is wanted no plan will satisfy the demand so well as a commission made up in this way from among the district judges.

South Omaha liquor dealers are preparing for the inevitable. With the close of the country and the proclamation of the governor announcing an increase of population to 250,000 will also come an increase of liquor license fees to \$10,000 per annum.

The great strike in the anthracite coal region occupies the front page in big black type of every Bryanite paper.

The temporary advance in the price of hard coal is hailed with delight as proof positive of the disastrous effects of the gold standard and the conflict between the civil authorities of Pennsylvania and the embattled strikers is jubilantly pointed out as the effect of imperialism and militarism.

EMANCIPATION--NOT IMPERIALISM

The Outlook. The republican party is charged with pursuing a policy which tends inevitably to imperialism. It claims to be pursuing a policy which tends to the emancipation of subject peoples, to the creation of free communities and to the enlarged honor because of the enlarged influence and usefulness of the nation.

It appears to us very clear that, whether we regard the avowed purposes of the administration, the results it has already accomplished or the methods it has used in accomplishing these purposes, the work to which it commits the nation is a work, not of imperialism, but of emancipation, and that to stop it now would be to halt a most beneficent movement in behalf of liberty, justice and the human race.

It is not to be denied that the party which emancipated the negro is moving forward to emancipate four separate communities from foreign despotism. The party which resisted the emancipation movement is now resisting the other and now, as then, is unconsciously aided by a small number of intense humanists, who are more influenced by phrases than by facts.
