BROOKLYN, Sept. 25 .- Today's baseball game ended in another row. The play was prolonged, but Hurst insisted on finishing ne innings, and it was so dark that when the Brooklyns came to bat they were unable to focate the ball.

Dunn of Philadelphia said that Hurst was crooked, and when the game was over the umpire made a bee line for the pitcher. who was in citizen's clothing. Delehanty and Flick rushed over and held him back. and it is said that Flick punched the official, but this is denied. President Ebbetts and a couple of policemen prevented further trouble. The game was a pitcher's battle, which Fraser won because the visitors played good ball. An error by Jennings gave them the game. Attendance, 2,700. Ecore

Island Will Depend Upon Report of Board.

WASHINGTON, Sept. 25 .- The re-establishment of the army post at San Jacinto, Galveston, will depend entirely on the report of the board of engineer officers recently appointed by General Wilson, chief of engineers, to consider the feasibility and advisability of the reconstruction of the

fortifications at that and other points in the harbor. The San Jacinto garrison suffered severely from the recent hurricane. All the buildings were destroyed. The fortifications were damaged badly. The soldiers have been withdrawn and the post, temporarily, is abandoned.

It is said it may be necessary to build a sea wall as a requisite to the re-establishment of the military post on the island. The engineer board, of which Colonel Roberts is president, will meet at Galveston

on the 20th prox. Captain Riche, the station engineer, is gathering information now concerning the condition of the public works in and about the harbor for its consideration.

Root's Condition Improving

WASHINGTON, Sept. 25 .- Adjutant General Corbin has received a personal letter from Secretary Root saying that his condition is improving, but giving no indication of a purpose to return to Washington in the immediate future. Secretary Root is at his summer home at Southampton, L. I., and is convalescing from an operation for the removal of a carbuncle in his breast.
