SCRANTON, Pa., Sept. 30.—At every colliery in the anthracite region a notice will be posted Tuesday morning announcing a 10 per cent increase in wages based on the present scale, effective October 1 and that the operating others hold that it would not be wise until President Mitchell had issued official notice as to the course the men should pursue.

MITCHELL IS NOT ADVISED

President of the Reading Company is Not Taken Into Consideration by the Coal Company.

HAZLETON, Pa., Sept. 30.—The Reading company has granted a 10 per cent advance to all the employees of its thirty-nine collieries in the Schuylkill valley did not cause any apparent commotion at the headquarters of the United Mine Workers today.

President Mitchell did not know of the action of the Reading company as reported by a reporter of the Associated Press. He did not express the least surprise.

The Reading company is not taking Mitchell into consideration, said he, "but the coal will still have to be sent to the mill."

Discussing the question of a compromise the president said it would depend upon circumstances whether a compromise would be considered.

President Mitchell said he did not order the miners' notice to be placed along with that of the Reading company, but he thought it was done as a result of his warning to the strikers last week.

It is reported that a number of men will go to that locality tomorrow morning for the purpose of inducing the non-strikers to leave the valley.

General Gobin and Sheriff Toole have been arrested on suspicion by the companies operating the mines.

Placards were accordingly tacked up throughout the district notifying the mine workers to remain away from the collieries until they receive orders to return to work.

General Gobin today ordered the Twelfth regiment home and the soldiers will leave here on special train over the Philadelphia & Reading.

It is stated that since the English-speaking branch of the United Mine Workers was organized last week 150 additional members have been enrolled.

Meetings of mine workers were held in various sections of this district tonight and the Reading company's notice was discussed.

The firm also announces that it will start up all its collieries tomorrow morning and afford any of its employees an opportunity to work so long as the collieries are sufficiently manned to operate them to the firm's satisfaction.
