

AUDITORIUM IS A CERTAINTY

President Murphy Subscribes \$20,000 for Omaha Street Railway Company.

ACCEPTS COMMITTEE'S PROPOSITION

Conference Lasts Less Than Half an Hour—Suitable Sites for Building Being Gone Over.

By the liberal subscription of the Omaha Street Railway company is the amount of \$20,000 the construction of the auditorium project is now an absolute certainty.

This committee consisted of F. E. Sanborn, Alfred Millard, Arthur C. Smith, C. J. E. City, George A. Joslyn, Fred Davis and E. Ady, Home Miller, J. Frank Carpenter, Ben Wood.

Our proposition to the street car people," said Mr. Sanborn, "was that they should take the lead in furnishing financial support for the building of the auditorium."

No Site Selected. It developed in yesterday's meeting that the matter of a site for the auditorium has not yet been determined upon.

The personnel of the advisory board was decided upon at yesterday's meeting. All of the members selected to serve upon this important board had been previously interviewed and in every instance expressed themselves as heartily in sympathy with the movement and ready to contribute all possible support.

The members of the board are: Herman Kountze, Frank Murphy, J. H. Millard, C. F. Weller, Eudell Martin, F. P. Kirkendall, E. E. Bruce, John A. Creighton, W. A. Patton, George A. Joslyn, Edward Rosewater, G. M. Hitchcock, F. W. Kellogg, C. C. Holden, Fred A. Nash.

Secretary Hoobler read a letter from E. M. Clendinning, secretary of the Kansas City Commercial club, in which he expressed warm invitation to all of the members of the auditorium executive committee to visit Kansas City for the purpose of looking over the new convention hall in that city and gaining information concerning the plans accepted in its construction.

The committee decided to accept the proposition of A. H. Rawitzer of the Omaha Tent and Awning company to sublet the pavilion from October 5 to November 10 at a rental of \$400.

POLICE HEAR FROM BERTHA

Is Arrested at Joplin, Mo., on a Charge of Stealing Diamonds from a Jeweler's Shop.

The police department has received word from Joplin, Mo., to the effect that Bertha Liebecke, a blond young woman who claims Omaha as her home, has been arrested there on a charge of stealing two valuable diamond rings from a pawn shop.

Of course there is no question but that this is "Chemical Ann," or "Patting Bertha," of Omaha, Council Bluffs and Des Moines fame. At Des Moines recently she hypnotized the entire police force by means of her stage tricks and still in the red of injured innocence, and induced the department to buy her a ticket to Independence, Mo., which is a suburb of Kansas City.

MRS. J. BENSON.

Art Needlework DEPARTMENT. Our department is loaded with the newest and prettiest goods. Pillow tops, in new poster designs, poetry, music, art, Gibson etchings, floral, conventional and others.

The new Irish hand embroidered pieces, all white, in doilies, centers, scarfs and lunch cloths. Linens stamped for Battenburg and embroidery—entirely new patterns. Everything that could be wished for in Battenburg and Duchesse Braids.

New Draperies, prettiest patterns in Denims, Cretons, Hungarian Cloth and Silkolines, ever shown.

Pretty Swiss Pillow Shams and Toilet Sets—scarfs, 50c up; shams, \$1.25 and up.

LACKS PRICE OF A LICENSE

Marriage to Be Solemnized in Judge Gordon's Court if the Document Can Be Provided.

If some charitable person with \$2.10 to spare wants to see a marriage solemnized he can have that pleasure by taking out a license for Smith Holton, aged 18, and Lotie Singleton, aged 17. Judge Gordon of police court will perform the ceremony for nothing. A license to marry only costs \$2 (and 10 cents additional for a revenue stamp, but the prospective bridegroom hasn't the price. He is impetuous to the verge of insanity and the bride to be hasn't enough of a dowry to pay street car fare.

Both children are now confined at the city jail, he in a cell and she in the matron's room. According to the story they tell, there is the oddest predicament that ever came to the attention of the police. They have reversed the usual order of things. They get married at the close of their honeymoon instead of at the beginning. The bride wants their union solemnized in order that she may have the right to use his name to legitimize the birth of her child and then she will have done with him.

Holton is a well-digger by trade, but he is ill with fever and rheum and inflammatory rheumatism, caused by sleeping in a house without doors or windows. In this miserable little shack a mile north of the Ames avenue bridge the police matron found them two months ago. They were ill and the matron secured for them a home at Mrs. S. S. Martin, 3012 Charles street, and exacted from them a promise to get married at once, but Holton hasn't been able to raise enough money to take out a license. Finally the potential bride became desperate and appealed to the matron to help her out of the dilemma.

He built from Blair and she from De Soto. She says she will go home as soon as the ceremony is performed.

REASONS FOR INSURING.

Cautious Ones Noted by a Recent Observer.

A writer in the New York Sun of Sunday last, in noticing some of the many odd and interesting things that develop in connection with life insurance, mentions the following:

"People take out life insurance for some queer purposes," said an agent of one of the big companies. "I'm not thinking of the man who takes out a twenty-year policy to have something laid by for his old age and his children's security. That's a common enough thing and he helps our business along mightily. It's the real out-of-the-way risks I mean."

Insurance business, like the practice of law and medicine, is confidential as to particular cases. The security company has in its books any number of cases of a different kind from the regulation precaution taken by the father of a family. One of the developments in insurance is that it isn't at all unusual for partners going into business to insure their lives in favor of each other.

"We are all right now," one partner tells the other, "but suppose you should die and your family should wish to dispose of your interest in our concern before our plans are all developed, I couldn't buy your interest, and where would I be then?"

So the partners insure their lives in favor of each other as a preliminary to starting their enterprise and its future is secure against the death of either.

The man who insures for a greater or less amount—and the amount has usually been greater than less—for the benefit of the sisterhood to which they have attached themselves. The nun's wants are supplied by the church and the annual premiums on the policy are easily saved, very frequently out of alms given to her for that purpose. Family and friends have been left behind her in the world, of which she is no longer a part, and her whole ambition is usually identified with the well-being of the sisterhood she has enrolled with, or, perhaps, with the progress of some special branch of its religious or charitable work she has taken up, or she insures for the benefit of one or the other.

The man who wants to insure his life to pay off a mortgage seeks the insurance man as often as the man who can't save in the ordinary way, but desires, nevertheless, to make some provision for his old age. The insurance company is a boon to him especially favorable terms for in case of the bread-winner's death his property is not sacrificed.

YOUNG GIRL FATALLY BURNED

Gertrude Rosenthal Dies of Injuries Received While Trying to Light Fire with Kerosene.

Gertrude Rosenthal, 15 years old, who lived with her parents at 5000 North Fifteenth street, died early yesterday as the result of burns received Wednesday night. The girl was using kerosene to build a fire in the kitchen stove when suddenly the oil ignited and flared up, causing the can which she held in her hand to explode. Her clothing, drenched with oil, burst into flame and she ran screaming from the house.

As there was no one save herself on the premises, the girl ran three blocks north, where a brother was working in a garden patch, but by the time she reached him her clothing had almost entirely burned away and her flesh was burned to a crisp. He extinguished the scorching fire, sent a boy to call a doctor and, with the aid of a neighbor, carried his sister back to the house.

Dr. W. K. Hobbs arrived soon afterward, but could do nothing for the patient save administer anesthetics to alleviate the pain. Nearly the entire surface of her body was burned. She lived five hours.

Garland Stoves and Ranges were awarded highest prize at Paris Exposition, 1900.

Assessing Personal Property. All of the twenty assessors named by Tax Commissioner William Fleming are busily engaged in assessing personal property and Mr. Fleming wishes to have the work completed within forty days. The length of time allowed for making the assessments, the tax commissioner assesses all realty himself. The assessed valuation of realty and personal property for this year amounted to \$33,602,257. Personal prop-

erty was assessed at \$6,025,222, a sum which the commissioner hopes to increase this year.

Heart to Heart Talks—No. 1. With apologies to Mr. Edward W. Bok, the editor of this department feels that this is an appropriate time for a few serious heart to heart talks with the women of Omaha. The social season is upon us and there will shortly be one continuous round of balls, weddings, divorces and turkey shoots. In the midst of all this gaudy it behooves us to be in the pink of condition and just now the paramount issue seems to be a good complexion without waiting for the aid or consent of any nation on earth. And right here we have a suggestion to make. The bathery is the correct thing for this season. You can get more complexion treatment, more real developer or reducer (as your case may require) more invigorating tonic and elixir of youth at the bathery than in all the drug stores in town. The Remstrom treatment is genuine and does more than is claimed for it. Consider a moment—take into account the methods employed and the medium in use. We all know that proper bathing is healthful; we realize that massage must be highly beneficial, and there is no question as to the important part electricity is now playing in medical science. And there you are—that combining of youth at the bathery than in all the drug stores in town. The Remstrom treatment is genuine and does more than is claimed for it. Consider a moment—take into account the methods employed and the medium in use. And there you are—that combining of youth at the bathery than in all the drug stores in town. The Remstrom treatment is genuine and does more than is claimed for it. Consider a moment—take into account the methods employed and the medium in use. We all know that proper bathing is healthful; we realize that massage must be highly beneficial, and there is no question as to the important part electricity is now playing in medical science. And there you are—that combining of youth at the bathery than in all the drug stores in town. The Remstrom treatment is genuine and does more than is claimed for it. Consider a moment—take into account the methods employed and the medium in use.
