AMERICAN AND ENGLISH ELECTIONS

Coming Christmas in the Land of the Plum Pudding May Be Expensive on Account of the Short Crop of Currants.

LONDON, Oct. 6 .- Thanks to Germany's withdrawal of its first note and the substitution of a compromise there is a general impression in England that a basis of united action by the powers is now in sight. That this shows that a satisfactory stage has been reached by Lord Salisbury following America's lead is ignored by the English papers, which have not yet grasped the fact that the present German action is a direct consequence of Lord Salisbury's verbal refusal to become a party to the demand that the surrender of the guilty Chinese must be precedent to peace negotiations. Great-Britain, it is fairly safe to say, will now never formally answer Germany's first note. but her informal answer, as cabled to the Associated Press, had perhaps a greater effect on the negotiations than anything else affecting the continental plan for working independently of the United States. It can be announced that the information of the Associated Press, which was so disbelieved at the time on the continent and was the subject of so many denials, was secured direct from the British government, and it was even more official than the official communication which, in the interest of na-tional harmony, was issued subsequent to

the dispatch of the Associated Press. Survey of Things in South Africa.

With the Chinese muddle showing signs of clearing up there is some opportunity of paying attention to the quiet ending of the war in South Africa. Out of 30,000 wounded, 29,008 have actually returned to duty. Such quick recovery of such a large percentage if the wounded rather breaks down Baron Bloch's theory that a modern war is impossible, owing to its slaughter, though it is true 10,000 British soldiers have found graves in South Africa.

London is already in a state of expectancy awaiting the return of the City Imperial Volunteers from South Africa, and as soon as the elections are over the whole country Is likely to give itself up to a period of jubilant anticipation pending the arrival of Lord Reberts, whose return home will be marked by celebrations such as Great Britain has not seen for many a year. The attitude of the Canadian electors toward the policy of sending soldiers to South Africa from Canada is awaited here with some inhope that Mr. Bourassan and others agreeing with his ideas may be defeated, but tions. remarkable case of wholesale skin grafting has occurred at Blackburn, where factory girl was literally scalped by her hair catching in some machinery. Twenty pieces of skin have already been taken from her arms and grafted on her head. They have taken root and promise to form an adequate protection, though the doctors say the girl will never have any hair and a year must elapse before she will fully have recovered.

The succession to the Fairfax title is the subject of the most favorable comment in the Spectator, which says: "The fact that this most historic title belongs to an American is a pleasant and picturesque illustration of how closely the two nations are allied by blood. We are sure that if the title were not Scotch Lord Fairfax might again take his seat in the House of Lords as the neble lord from the United States.

Arthur Balfour to Go Into the Lords and Chamberlain to Be Given the Treasury and Government Lead in the House.

Copyright, 1909, by Press Publishing Co. LONDON Get. 8 -- (New York World Cablegram-Special Telegram.)-The most extraordinary interest of the general election was the trick by which J. H. Parneil, the late leader's brother, was deprived of his neat for South Meath, which he held in the last Parliament. He was unanimously chosen by the Meath nationalists, and, there being no opposition, he only paid the election fees for an uncontested return when he was nominated. But at the last moment James L. Carew, another nationalist, formerly a Parnellite, but now Healyite, was nominated. His friends ut down the full fees for a contested elecion, and Parnell, being unprepared with them, was disqualified and Carew was forthwith returned as the member for he division. This trick, perpetrated at the expense of a fellow nationalist, has aroused the fiercest indignation, but if Carew chocses to retain the seat he is legally entitled to do so. He was thrown out of his own former scat for the College Green division of Dublin because he had been presented at court this year.

Henlyites About Wiped Out. William O'Brien scored an overwhelming victory in Cork city, defeating the sitting member, Maurice Heaty, by a plurality of 3 to 1. Tim Healy, though opposed by a comparatively insignificant politian in North Louth, only got a plurality of 300 and his followers throughout freland are being wiped out. But Tim is worth thirty members himself in his capacity for mischief in the House of Com-

Lively times are expected when the new Parliament meets. Rumors are rife of a reconstruction of the Salisbury cabinet after the election. The latest information in ministerial circles is that Lord Salisbury will retain the premiership, but will invite Lord Cromer, British agent for Egypt and a member of the Baring firm, to accept the foreign secretaryship.

Alfred Balfour is expected to go to the House of Lords, with the title of Lord Whittinghame, after 'his Scotch estate, Joseph Chamberlain becoming first lord of the treasury and leader in the House of Commons. As the present election was conceived and executed by Chamberlain, it is considered impossible for Balfour to sit beside him again in Commons, as the merely nominal leader of the party returned to support Chamberlain.
