Japanese Premier Advises the Allies to Withdraw from Pekin.

TROOPS SHOULD BE MASSED ON THE COAST

No Settlement Possible Until Court is Once More at Imperial Capital.

TIME FOR POWERS TO AGREE ON POLICY

No Peace Possible Without Assent of Tuan and Other Foxer Leaders.

CAN OFFER NOTHING BUT PROMISES

Further Aggressive War Will Plunge the Empire Into War That Will Last for Years with Laparalle ed Chaos.

NEW YORK, Oct 10 - A special to the Journal and Advertiser says. Marquis Ito, premier of Japan and director of the Japanese policy in respect to China, received your correspondent by appointment, and, while disclaiming that his utterances were official, talked freely on the paramount lasue of the day.

'I cannot understand," he said, "why the powers do not convene a conference of plenipotentiary representatives and speedily determine a concerted policy toward China. Though the armies are working barmoniously, a conflict is sure to arise it the governments neglect longer to arrive at a definite understanding.

In my humble opinion the present dynasty must be given a chance to return to power and the emperor and court must return to Pekin before any effectual settle-

ment can be accomplished. Negotiations with Li Hung Chang and Prince Ching will be fruitless unless rattfied and enforced by a re-established government, for they alone, no matter what they promise, cannot carry out anything.

"Tuan, Kang Yl and Tung Fuh Siang dominate the empress and say they will resist the foreign powers to the death if they are ignored. It is impossible to separate them from the empress. If the aitempt were made by force the emperor and empress would undoubtedly disappear ai-

Pekin should be evacuated, the empress and court permitted to return and negotiations should come afterward. The foreign powers should withdraw to the coast and hold their forces there pending final settle-

"Further aggressive measures will plunge the whole empire into war and chaos will reign for years, trade will be ruined and life protected only at tre-

mendous cost. War with China would be the greatest disaster of the century, for no one nation could conquer it single-handed and all

the world would be plunged in strife. The emperor is weak, dominated entirely by the empress and Tuan. The vicerova, I think, would fight if partition of China were attempted.

China must be given a chance to rehabilitate itself and punish the instigators of the insurrection."

"We who believe in sound money think we are sensible and we question the sense of the opposition."

"I know that there must be misery wherever wages are low and it is a purely selfish regard for my own interests which moves me to say that because high wages are an infallible test of prosperity I will support any party that can increase the compensation paid to labor, because it will produce an abundance in which I will share, and I want to be prosperous with the rest of the community."

"I have heard a wall in the distance that sounded strangely like the banshee, and the banshee is generally an omen of death. I do not believe it indicates death to the deathless honor of America's citizens, but I do believe that it means death and defeat to the campaign of repudiation, of dishonor."

"I want to say to you here as a word of warning, that whenever a quack comes along and asks you to allow him to cure a headache by cutting off your head that as a matter of prudence you should hesitate to accept the proposition. I do not say that Mr. Bryan is a quack. On the contrary. I say he is a statesman. But I want you to bear in mind that whenever a man submits to you a plan for the regeneration of mankind it is well that he should talk to you in plain language if he asks you to take an important step that may affect your own condition."

"I appeal confidently to the common people because I trust in their intelligence. I do not believe that they can be seduced by empty phrases or bribed over to dishonesty. For, my friends, the repudiation of an honest debt is a dishonest act; it is dishonest whether it be done by government, or whether it be forbidden by government.

### AGREE WITH THE FRENCH NOTE NEW BOXER RISING FEARED

United States Approves the European Republic's Terms for a Settlement.

WASHINGTON, Oct. 10.-There is no longer any doubt that this government approves the main propositions laid down in the French note made public on the 5th inst., in regard to a common program to be adopted by the powers as a basis for peace

negotiations with China. As to the first of the preposed terms of settlement, the punishment of the princh pai culprits, this government has already declared itself in unmistakable terms.

As to the accord, the maintenance of the inhibition against the import of arms, this government will not declare itself to the point of making it an absolute prerequisite to further negotiations. As to the third and fourth propositions, providing for equitable indemnities to states, societies and in dividuals and the formation of a permanent guard for the legation in Pekin, cordial assent will be given. As to the fifth, which requires the dismantlement of the Taku fortifications, this government not disposed to go quite to the length of making it an indispensable condition, as

does the French note. The sixth of the French conditions reads
