HURON, S. D., Oct. 12.—(Special.)—The

Trusts Denounced by Republicans.

conditions of our modern industrial development.

"2 If the trusts are a bad thing, why did the republican administration allow more trusts to be organized than during all previous history of the country?"

The republican administration did not allow more trusts to be organized than during all previous history of the country. Incidentally, the Sanndard Oil empany, the American Sugar Returns company and all the other more prominent trusts came into existence long before the present administration. But Mr. Bryan knows perfectly well that the national government cannot, with its present powers, prevent the organization of these trusts and that it was the action of his own party associates in congress on June 1 last which prevented the passage by congress of the constitutional amendment which would have given the national government the power sought for.

Questions Conveniently Obscure.

Questions Conveniently Obscure. "3. If some trusts are good and some bad, can you tell the difference between a good one and a bad one?"

"A lif some trusts are good and some bad, can you tell the difference between a good one and a bad one?"

"4. De you know of any good monopoly in private hands?"

"5. Do you know any man good enough to stand at the head of a monopoly and determine the price of that which others are to use?"

Answer—Mr. Bryan's terminology is here so loose that it is difficult to know what he means. If he uses "trust" in the sense of large corporations any intelligent man must know that there are good corporations and bad corporations, and the difference between two wealthy private hands patents are such monopolies and if Mr. Bryan means that all monopolies are bad he means that all monopolies are bad he means that all monopolies are bad he means that patent laws should be abolished outright. Does he really mean this? If not his words mean nothing. The undoubted evils connected with some industrial monopolies will never be affected in the least by an opposition until in dealing with them their apponents learn and practice both precision of thought and precision of statement.

"6. Do you know now of any good reason why the army should be made 100,000."

Answer—Here spain Mr. Bryan's tanguage is loose. If he is speaking of the present army of \$5,000 regulars and \$5,000 volunteers then every man who possesses an ounce of commonsense of an ounce of patriotism must know not only that there is very good reason for having had it, but no possible excuse for refusing to have it. It has been needed in China, and only the allies of Aguinaldo and the Boxers can criticise it. Half of the democrats in congress voted for it when it was provided for.

No Further Increase of Army.

"7. Would you be willing to make the army.

No Further Increase of Army. No Further Increase of Army.

"T. Would you be witting to make the army consist of 200,000 men if the republican leaders said so or 500,000 if they wanted it?"

Answer—it is hard to believe that this question is put in good faith, for no one has dreamed of asking for an army of 200,000 or 500,000. Abraham Linceln once had to ask for a large army and in spite of the opposition of the politicians, whose political heir and assigned Mr. Reyan is, the people gave him what he asked. No increase of the army will over be asked for by republicans save because of reasons which would satisfy the people as they were satisfied in the days of Lincoln.

The governor spoke to 10,000 persons at the reday of the day, some enthusiastic admirer in the crowd shouted:

The exclamation attracted Mr. Bryan's attention and he said. "I do not want to be elected under false pretenses. I am not governor spoke to 10,000 persons at the reknow the difference between them. A governor spoke to 10,000 persons at the re- know the difference between them.

The above facts ought to satisfy any person that

Dr. Kay's Renovator

has no equal for the every day ills of life. Do not fail to try it and be convinced. One 25c box carried in the vest pocket or kept in some convenient place so that a dose can be taken when required, will prevent your having fever or some other sickness. Do not fail to try it when you have a poor appetite, your food distresses you or you have a headache, tired feeling, poor digestion, sideache or backache, or when you are nervous. A few doses taken promptly for any of the every day ills will at once revive your appetite and prevent a long run of sickness. Do not fail to keep it constantly on hand and your doctors' bills will be very small in the future.

Don't take any substitute that anybody tells you is just as good for it positively has no equal. If you can't get it at druggists send the price direct to Dr. B. J.
