Four Charges Against Rathbone-He and Necley to Be Vigorously

NEW YORK, Oct. 15 .- A special to the mulating the evidence to be submitted to the department when those arrested are brought to trial. The record of every official, from Establishe down, has been gone into, and the lives of all before they became associated with the Cubon postal system have been investigated. Rathbone and Neely will be vigorously presecuted. It is hoped they will be brought before a judge rather than a jury. The character of their alleged crimes makes them amenable to any set punishment.

It is practically decided that the former director general shall be tried on four charges. The first charge will be that through his negligence his subordinates were enabled to cheat the government. The Cuban lawmakers, Rathbone says, are responsible for every cent taken by Neely. The second charge is that Rathbone took \$1,000, for which he never gave vouchers. The third deals with the per diem allowances made to him by the postmaster general. The fourth charge deals with his extravagant expenditure of the govern-
