GERMAN FOREIGN OFFICE KEEPS SILENCE

Difficulty of Count von Waldersee to Get Foreign Commanders in China to Recognize His Authority Causes Comment.

BERLIN, Oct. 16.—The Frankfurter Zeitung prints a telegram from Shanghai today which says that Emperor Kwang Su has arrived at Sian Fu.

A high official of the Foreign office, discussing the general situation today, said: "There is nothing new in the diplomatic situation. We have received no information from the alleged difficulties connected with Count von Waldersee in getting all the allies to recognize his authority, but it lies in the very nature of the case that he would meet with some trouble in bringing them all under one hat."

No evidence is shown in a statement issued from the United States office of London that Emperor Kwang Su is going to Peking under American escort.

The German papers, which have until now been treating the reports of increasing ferment in southern China as false, have suddenly changed their tone.

The recall of the Marquis Ito to the premiership of Japan attracts attention, since he has always represented the idea of an alliance between Japan and China and is known to be friendly to China.

The Kreuz Zeitung discusses the matter at considerable length, going on the assumption that he will resume his attempts to bring about such an alliance.

AMERICAN SHARE OF THE LOOT

No Probability Any Portion of It Will Ever Be Returned to Chinese.

NEW YORK, Oct. 16.—A special to the Times from Washington says: The American share of the loot taken from the Chinese treasury was melted by order of General Chaffee.

Nothing is yet known about similar seizures in Peking or at points along the line of march. The total seizures will probably be very high.

Li Hung Chang's request for the \$278,000 taken from the treasury has received no reply.

There is considerable doubt about whether the United States is entitled to keep this gold, whatever its amount may finally be determined to be, because this government has been proceeding on the theory that no war exists in China. Nevertheless it is extremely unlikely that the gold will ever be returned to China, even that part of it identified and returned to Li Hung Chang.

It may not be held as spoils of war, for the reason given, but it will probably be held as part payment of the indemnity which America will demand. It will certainly not be returned until the peace negotiations are concluded, nor will any final decision about what to do with it be made till that time.

CONGRER OBJECTS TO SOME OF DETAILS

Suggestion that Complicated Tsuna Li Yamen Should Be Supplanted by a Responsible Foreign Minister.

PARIS, Oct. 16.—A dispatch received by the Havas agency from Tien Tsin, dated October 13, says: "The British ambassador, being informed from London of the plans of negotiations proposed by M. DeLacaze (French minister of foreign affairs), called a meeting of the diplomatic corps in Peking. The French proposals were unanimously approved and the appreciation was expressed of France's initiative."

United States Minister Conger alone raised an objection, not against the propositions, but against the method of procedure. Mr. Conger deemed that the French proposals would have to be imposed upon the Chinese during the negotiations. While these propositions are formulated as being the basis of negotiations, different ministers, among others the British and Italian, presented certain demands, especially the replacement of the tsun-li yamen by a minister of foreign affairs and posting for two years of the deere concerning the punishment of the instigators of the anti-European movement.
