CALAMITY VERSUS THRIFT

Reply of the Savings Banks to the Discredited Prophet. Chlengo Times-Herald.

When Calamity Willie was stumping fo William Jennings Bryan four years ago he made the greatest effort of his life at the Madison Square Garden, New York, where he had gone to be notified of his nomination August 12. Among other equally true things he said:

"Savings bank depositors know that under gold standard there is increasing danger that they will lose their deposits because of the inability of banks to collect their assets, and they still further know that if the gold standard is to continue indefinitely they may be compelled to withdraw their deposits in order to pay living expenses."

Of course Mr. Bryan had not one jot of pecial knowledge on this subject to enable lepositors did not know. Out of the openness of his mouth the inner inate ignorance of the boy orator spoke.

Here are some facts from the reports of the comptroller of the currency in regard to savings bank depositors and deposits:

There is one economic fact Mr. Bryan will sever learn, and that is that the wealth of he many in the United States is to the wealth of the few in the ratio of 16 to 1. and that the gold standard is the salvation of the savings as well as the wages of the many,
