SUPERVISORS SUGGEST A COUNTY FARM

the Land.

The county authorities are hopeful that the proposition to issue bonds for the establishment of a poor farm will carry at the coming general election, as they be lieve it is the only solution of the problem of caring for the indigent element of Pottawattamie county and relieving the taxpayers of the burden. Experience of adjoining counties has shown that not only can a county poor farm be made self sustaining, but in some instances, it proven a source of revenue.

Under the law as it now stands, only mill can be levied annually for the county poor fund and this for several years has proven insufficient to provide for the care of the poor of this county. A 1-mili City Masonic lodge this evening for working the third degree.

In the event of the proposition carrying the poor farm would be paid for in two years.

Experience in Other Counties. In their investigation the county supervisor learned that Harrison county for a number of years has had a poor farm which has been self sustaining. In Mills county the same was found to be the case, while in several counties in other parts of the state the supervisors secured statistics showing that the poor farms with careful management have not only proves self sustaining, but are bringing in revenue to the county. The high water was caused by the cast winds, which have been blowing for several days, bringing all the water cut of the mountain streams. The rivers began rising early Tuesday morning and increased rapidly throughout the day and night. The waters from the Watauga are running over the tracks of the Virginia & Southwestern railroad, north of Elizabethton. The approach to the new steel bridge of that road at Butler, Tenn., is washed completely away and a passenger train is waterbound in Johnson county. Many thousand logs have come down the Watauga river to the booms of the lumber companies at Watauga, six miles below Elizabethton. Anxious for Full Vote.

During the past few days the republican state central committee has had a large number of people engaged addressing letters to different workers asking them to sign a pledge that they will see to it that the full republican vote of their precinct is polled. The state committee has information that the democrats are attempting by a system of careful canvass among the voters of the Second and Sixth districts to entice republicans from their allegiance to the nominees of their party, especially for congress, thereby hoping to be able to break the solid republican delegation in congress. The committee does not believe that such results will be possible. Relative to the typhoid epidemic at the State Agricultural college, Mrs. L. C. Hardin of Ames, who is in the city today, said: There are twenty-nine cases in the temporary hospital, eight cases in Margaret
