CORN QUIET AND EASY AND CLOSES LOWER

Oats Are Dall and Neglected, There Being Only a Small Local Trade -Provisions Are Moderately Active and Prices Firm.

CHICAGO, Oct. 29.-Wet weather, re-Corted Argentine damage to crop and a mainly responsible for an advance in wheat today, December closing lagic over Friday. Corn closed 140% lower and oats 140 higher. Provisions at the close were 21/2000

Trade in wheat was moderately active. December opened 14914c under Friday at 725,672%c on easy cables, but railled cant of the crop of northern Argentina, count to 30 per cent of the whole crop of that country, had been damaged by frost and other climatic conditions. Added to this news was a recovery in late cables and the wet weather here. Shorts covered freely and there was also a fair amount of commission house buying. On the bulge scalpers took profits and other wheat came scalpers took profits and other wheat came out on the expectation of a 3,000,000-bu, increase in the visible and the slack cash business. December reacted to 73½c, but upon the issuance of the visible statement ahowing an increase of only 1,235,000 bu, further buying became the order of the day and December railled to 73½g73½c and closed firm, ½gric higher, at 73½g73½c. New York reported 44 loads taken, about half of it for millers. Seaboard clearances in wheat and floor (two days) were equal to 730,000 bu. Primary receipts were 1,462,000 bu, compared with 1,255,000 bu, last year. Minneapolis and Duluth reported 345 cars, against 926 last week and 1,155 a year ago. Local receipts were 374 cars, 16 of contract grade.

prices were firm on hog receipts, under the estimate, and in sympathy with wheat. The demand of lard by shorts was the feature. Cash business was moderate. January pork command of lard by shorts was the feature. Cash business was moderate. January pork sold between \$11.10 and \$11.20g11.22½ and closed 5c higher at \$11.15; January lard, between \$6.62½66.65 and \$6.70g6.72½, closing 5c up at \$6.67½, and January ribs, between \$6.97½66.90, with the close 2½65c higher at \$5.86. \$5.95.
Estimated receipts tomorrow: Wheat, 344 cars; corn, 700 cars; cats, 285 cars; hogs, 28,000 head.

MOVEMENTS OF STOCKS AND BONDS. Market is Somewhat Dull After Its

Market is Somewhat Dull After Its Period of Enthusiasm.

NEW YORK, Oct. 29.—The stock market showed plainly enough this morning that the recent headlong speculation has overdone the prosperous conditions offered by the renewed outside interest in stocks. There was a conspicuous absence of any sensational story of vast continental railroad consolidations and ocean-to-ocean combinations, such as were a feature of every day last week. Like a toper, the stock market quickly felt the need of the customary "bracer" and began to fall away in a mood of depression. People who bought stocks last week on the strength of some of the startling stories current were stock market quickly felt the need of the customary "bracer" and began to fall away in a mood of depression. People who bought stocks last week on the strength of some of the startling stories current were uneasy this morning when prices began to go downward, in spite of the absence of bad news, and hastened to sell, adding to the depression. Among professional traders there was a general feeling that a reaction was overdue and they were influenced also by the principle that the week before a national election is a bad time to go long on stocks, owing to the probability of alarmist reports becoming current. Thus the market ignored various favorable factors in the situation and either sold to realize or put out short lines. The resumption of work among the miners in the anthracite district was one favorable factor, putting an end, as it does, to a long standing drag on many widely varied industries and settling the persistent uncertainty as to the final outcome of the controversy. Nevertheless the coalers were heavy. A preliminary action in Tennessee Coal uncovered a stoploss order, causing a violent break of 4 points in the stock and sympathetic weakness in the whole steel group. The shutting down of some departments of the Federal Steel company's plant at Joliet seemed also to degress the group. The important specialities and industrials showed as greater acute reactionary tendency, following the highly artificial advances of last week. Declines in this group ran from a fraction over a point up to 3 and 3% points in some of the New York stocks. In the railroad group the declines were moderate, but a lengthened list fell 1 to 1½ below Saturday. Northern Pacific was inclined to resist the depression all day and in the late dealings it was run up 2 points from the lowest, giving a better tone to the whole market. The sympathetic raily exceeded a point in a number of cases, but the closing was still below Saturday's level. Money conditions were distinctly easier and the maximum cali loan rate was firm. Boston Stock Quotations. BOSTON, Oct. 29—Call loans, 32944 per cent; time loans, 4546 per cent. Official closing: 

Foreign Financial. Foreign Financial.

BERLIN, Oct. 23.—On the bourse today home funds were firm and active, purchases being induced by the ease and cheapness of money. Foreigners were dull, notably Spanish 4s, and declined in sympathy with the Paris markets. Locals moved irregular. Coal and iron shares were weak. Exchange on London. 20m 454pfgs. for checks. Discount rates: Short bills, 2 per cent; three-months bills, 35 per cent.

PARIS, Oct. 29.—After an undecided opening in the bourse today prices were unfavorably affected by the heaviness of Spanish stocks which were largely offered. Subsequently business was very quiet and re-

mained so until nearing the call, when prices were slightly firmer. Spanish 4s recovered a portion of their earlier loss and some demand sprang up for French railways. Mines, after being irregular, closed firm. Rio tintos improved. Three per cent rentes, 100f los for the account. Exchanges on London, 2sf los for checks. Spanish 4s closed at 57.87½.

LONDON, Oct. 23.—The uncertainty as to the immediate future dominates the money market, but the New York bank statement is taken to indicate that no further large calls for gold will be made by New York. Discounts were firm on the Bank of England's efforts to regain control of the market and the state of Paris exchange. Haif a million pounds sterling in gold arrived here from Bombay this morning. The attendance on the Stock exchange was small and there was no disposition to seriously engage in business. Americans were dull and weak, Grand Trunks, however, closed at the worst prices of the day. Gold bars in open market are quoted today at 78 ll\(\frac{1}{2}\)d. American cagles, 76s 6\(\frac{1}{2}\)d. Gold premium at Buenos Ayres, 133.30. The amount of builtion withdrawn from the Bank of England on balance today was £100.000. Spanish 4s closed at 67.37\(\frac{1}{2}\).

NEW YORK, Oct. 29.—Speculation in cotton futures today was light and traders gave the bulk of their attention to straightening up old accounts. The news was conflicting, with the bears, however, having rather the best of the position. On Saturday's advance here, made on predictions of a falling off in the crop movement, Liverpool had worked up 4 points. But bulls and outside interests were made uneasy by larger receipts and by another almost perfect chart of the cotton belt. The first sales developed a rise of 3 points to a decline of 6 points, with the market easy in tone; thereafter the tendency was steadily downward under sales of long cotton and pressure from the leading bears. Scarcely an effort was put forth to arrest the course of the market and the best speculation was of a halting, unsatisfactory type, with the professional element in control. Soon after midday estimates for much larger receipts tomorrow at New Orleans and Houston gave the market another setback. Throughout the late afternoon it was anybody's market and a small one at the prices. Prices were down to about the low level of the day, with the market showing feeble recuperative energy in the absence of support from the outside investment element. The market at the close was steady at 10gi5 points lower. NEW YORK, Oct. 29.—DRIED FRUITS—
A rather quiet and uninteresting market prevailed all day for evaporated apples, with prices at the close nominally unchanged: state, common, 465c; prime, 4465; choice, 546c; fancy, 5664c. California dried fruits were inactive and nominally unchanged on the basis of 84684c per lb., for prunes, as to size and quality. Apricots, Royal, 11614c; Moor Park, 156, 156. Penches, peeled, 16620c; unpeeled, 669c.

New York Dry Goods.

NEW YORK, Oct. 29.—DRY GOODS—The week opens at as dull a stage as at any stage of the season. Buyers were few and far between and it is the evident intention to delay purchases as long as possible. That there will be a change after election is admitted, but the conservatism at present is a deterrent factor in preventing a further advance in prices.

Washington Star: "I won't dispute it," said Farmer Corntossel to the political agitator. "I'm willin' to believe what you say an' admit that this here land of our'n is goin' to eternal smash."

"Are you not going to try and help to prevent it?"

"No stores I was skeared at the property of the stores of the stores." prevent it?"

No, sirree. I was skeered at first, but I've had the idea dinged into me so much that I'm kind o' gettin' used to it. I missed the fireworks last Fourth o' July an' I haven't seen any real excitement in four years. I'm willin' to take my chances with the rest; an', to tell you the trath, I've got a sneakin' curiosity to see how the shebang 'll look when she tears loose an' busts."

An Awkward Reason.

Cleveland Plain Dealer: "And did you make up your bed every morning as I told you?" inquired the loving wife the day of her return from a fortnight's visit.

"N-not exactly every morning, my dear," stammered hubby.
"But I said every morning."

"B-but I didn't suppose it was necessary unless I slept in it!"

Which was, to put it mildly, a somewhat awkward excuse.

The Open Door.

Detroit Journal: The empress dowager trembled with rage.

"Shut that door!" she shrieked, bestowing a terrible look upon the Christian powers.

"Don't you see you're letting in about a million flies?"

Her majesty's strenuous resistance to the inevitable is thus shown to proceed upon the promptings of her basic femininity and is hereupon a mystery no longer.

prices. The common and half-fat stuff was, the same as usual, neglected and the feeling on such grades was none too firm, particularly as Chicago came steady to 10c lower.

There were about thirty-five cars of cows on sale this morning and packers seemed to be all looking for both canners and good cows and as a result the market was fairly active and just about steady. There were more good cows in the yards today than some days last week, but still the receipts run largely to canners.

The feeder market was in good shape this morning on the better grades. Buyers all seemed to be wanting a few of the choice cattle and the market was strong and active on such cattle as answered to that description. In some cases sales were made that looked a dime higher, but at the same time the commoner kinds did not show much of an improvement. Stock cows and heifers were in light supply and sold at good, strong prices. Stock calves sold fully steady if they were steers, but the helfers seemed to be rather dull. Stock buils also brought fully steady prices.

The few western beef cattle on sale brought good, strong prices if the quality was satisfactory. The less desirable grades were no more than steady. Cows were practically steady all around and feeders sold all the way from steady to a dime higher, as noted above. Representative sales:

## SUPREME COURT SYLABII.

No. 11491. State ex rel Irrigators' Bank against Whipple. Error from Scott's Bluff county. Affirmed. Opinion by Holcomb, J. Filed October 18, 1900.

1. A peremptory writ of mandamus will issue only when it is made to appear that the law specially enjoins upon the defendant the performance of the act which it is sought by the writ to compel.

2. A board of county commissioners is without authority to make one or two or more banks designated as depositories of county funds a preferred depository. In which county funds are to be first deposited by the county treasurer until the sum of such deposit shall reach the amount allowed under the law and depository bond of such bank.

3. A county treasurer is the custodian of 1. A peremptory writ of mandamus will

lowed under the law and depository bond of such bank.

3. A county treasurer is the custedian of the funds of his office and it is for him, within the provisions and restrictions of the depository act, to deposit and withdraw, as the requirements in the discharge of his official duties shall make necessary, all the funds coming into his custody as such treasurer.

4. When a county board has acted upon the propositions of different banks applying to be made depositories of county funds and approved or rejected the bonds presented for that purpose its powers and authority in the premises cease, and it is without power or authority to control the action of the depositories, or in what amount, the depositing of county funds shall be had, and when an attempt is made to designate one bank as a preferred depository, such action is a nullity and without force or effect.

No. 11530, Henry Leisenberg against State, Error from Douglas county. Reverse! Opinion by Sullivan I. Filled Optober 15. Error from Douglas county. Reverse Optnion by Sullivan, J. Filed October 1

Error from Dauglas county. Reverse!
Opinion by Sullivan, J. Filed October is
1900.

1. Where a statute states the elements of
a crime it is generally sufficient in an information or indictment to describe such
crime in the language of the statute.

2. It is not essential in an information or
indictment charging burglary to state the
particular hour of the night at which the
crime was committed.

3. Where no information or indictment is
filed agains' a defendant charged with the
commission of crime during the term at
which he was held to answer his detention
is unlawful and he is entitled to be discharged.

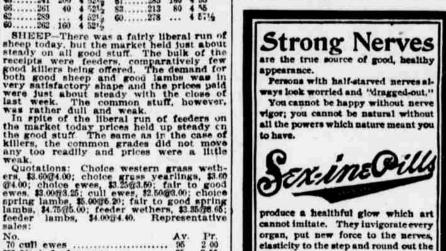

4. But if, at a subsequent term of the
court, an information is filed, and he pleads
not guilty, the court has power to try the
issue raised, and after verdict of conviction has been rendered it is not error to
deny a motion in arrest of judgment.

5. It is not erroneous for the court, in a
criminal sense, to say to the jury as part
of its charge: "You are not at liberty to
disbelieve as jurors if from all the evidence you believe as men. Your oath imposes on you no obligation to doubt where
no doubt would exist if no oath had been
administered."

6. The fact that a building was feloniously
broken and entered between the hours of
6.30 p. m. and 9 p. m. on March 29 does not
show with the crime was committed in
the night season.

7. A verdict resting upon conjecture can-

the night sesson.
7. A verdict resting upon conjecture cannot be permitted to stand.
