Report of Adjutant General Corbin Shows Total of 66,396 Men.

NUMBER OF VOLUNTEERS PLACED AT 32,587

Nearly DO Per Cent of the Applicants for Enlistment Are Native Born and All but a Very Small Ratio Are White.

WASHINGTON, Oct. 39 .- The annual report of Adjutant General Corbin to the secretary of war for the year ending June 30, 1900, is a complete statistical record of the army of the United States. It shows that the regular army consists of 2,535 officers and 63,861 enlisted men, and the volunteer army consists of 1,548 officers, and 30,039 enlisted men, a grand total of \$8,790, not including the hospital corps, which is not counted as a part of the effective strength of the army. The regular and volunteer army at present is distributed as follows: United States, 998 officers, and 18,898 enlisted men, all regulars; Alaska, forty-one officers, 1,088 enlisted men; Porto Rico, ninety-eight officers, 2,406 enlisted men; Cuba, 260 officers, 6,468 enlisted men; Cuba, 260 officers, 6,468 enlisted men; Porto Rico, and 30,200 in the Philippines. These are 879 volunteer enlisted men in Porto Rico, and 30,200 in the Philippines. These are serving in nearly all of the places mener enlisted men are serving. Some staff officers are serving in nearly all of the places named. The deaths reported in the army, both regular and volunteer, by the same serven officers, 264 men; Alaska, three men; Cuba, seven officers, 146 men; Porto Rico, thirty-six men; Hawaii, one officer and go, 1t required nearly clinked, and that he has collected something over \$21,000 senedules, as against \$55,000 in the former decade, thus showing a large increase in this part of the work. General Corbin commends highly the operation of post exchanges and the canteen, saying that the reports from the Philippines, Cuba and Porto Rico, "indicate that the post exchange has become an absolute necessity." He says that the total amount received from the exchanges so far as reports show amount to \$1,915,862, with a net profit of \$464,504.

Discussing the recruiting service for the regular army, General Corbin says:

of the 19,549 accepted applicants 16,548 were native born and 3,001 of foreign birth, 18,549 were white, 870 negroes and 30 Indians. The enlistments numbered 15,588 and the re-enlistments 3,931. Excluding re-enlistments the percentage of native born among the original enlistments was 354. The reports show that the recruiting officers making the 19,017 enlistments embraced in the first two items of the foregoing list rejected 69,694 applicants—about 78 per cent of the number seeking enlistment—as lacking in either legal, mental, moral or physical qualifications; 987 of these were rejected as allens and 2,038 for illiteracy.

The totals show thirty-three officers and 476 men killed and 147 officers and 2,076 men wounded. In seven instances, owing to an error, officers dying have been counted twice, once as regulars and then as volunteers, the actual total being sixty-seven officers dead.

WORK OF CENSUS BUREAU

All Statistics Necessary to Consideration of Reapportionment Will Be Ready in December.

WASHINGTON, Oct. 30 .- The director of the census in announcing the population of the United States, made the following statement:

The figures of the population are the result of a careful computation by means of the latest tabulating machines.

Bulletins will be issued shortly for the various minor civil divisions in the different states and territiories as fast as possine. The entire number, it is hoped, will be ready for the public use before the first of January.

The early completion of the tabulation of the population of the states enables the census office to submit the figures to congress as soon as it convenes in December; thus giving that bedy the information necessary to dispose of the question of reappointment of representatives at the coming session. All the reldwork of the twelfth census, so far as it relates to the collection of the data relating to population, agricultural, vital statistics and manufacturers is now complete.

The enumerators' accounts, numbering something over \$3,000 have all been paid, with the exception of fifty-five whose accounts are held up for technicalities. In the last census it took eight or ten months to pay all the enumerators. All the supervisors have been paid with the exception of a few, which have been delayed for various reasons.

of a few, which have been delayed for various reasons.

The cost of the administration of the census bureau up to this date, including the expense incident to the preliminary work, as well as the cost of the enumeration and supervision, is \$6.361,961, of which over \$4,000,000 has been expended for supervision and enumeration.

The fieldwork having been completed, every effort will now be made to comply with the law regarding the publication of the reports concerning the four general topics as named. The builetins thus far issued have been given to the public almost a year in advance of those given out during the last census.

ARMY OFFICERS PLEASED

Appointment of General Fitzhugh Lee is Wholly Acceptable at Headquarters. The appointment of General Fitzhugh

Lee to the command of the Department of the Missouri is especially gratifying to the place of Thomas Houlihan in the First preattaches of whom served with several during the Cuban campaign. The appointment will add importance to the department, for while General Merriam, the present commander, is his senior, he is looked upon as commander of the Department of Colorado, with the duties of the Department of the Missouri added to his work. General Lee will bring with him one aide and it is possible that his appointment will cause some changes in the general staff, though not in the immediate future.

The officers who have a personal acquaintance with the general speak highly of him as a gentleman and a commander. Captain Arrasmith was commissary officer of General Lee's command for a time in Cuba recommended to the various executive Yerkes is the republican candidate for gov. and was in his mess during that time. He says the general is a man who gains the admiration, confidence and love of the officers and men under him. Captain Erwin, also a personal acquaintance, joins the others in paying tribute to his high soldierly qualities. Among the clerks at headquarters several served immediately under General Lee, notably Captain Townsend and Mr. Parmelee, who were with the army in Cuba. They are very well pleased general.

In addition to his own service General Lee has two sons in the army of the United States, one in Cuba and the other in San Francisco, where he has recently arrived from Manila, being sent to America on sick leave. This son will soon arrive in Omaha on his way east and if it is known that his father will report at the headquarters of the department in time an at tempt will be made by friends to have father and son meet in Omaha.
