

NEW YORK FIRE STILL BURNS

Workmen Encounter Difficulty in Their Search for Buried Victims.

TWO BODIES HAVE BEEN RECOVERED SO FAR

Estimates Which Place the Life Loss as Reaching into the Scores Have Little to Confirm Them as Yet.

NEW YORK, Oct. 30.—All the efforts of the authorities are now directed to clearing away the ruins of the Tarrant and other buildings wrecked by the great explosion yesterday, in the desire to find out how many bodies are buried in them and to ascertain the cause of the explosion.

The efforts of the searchers were rewarded this evening by finding the remains of Mr. Schmidt and the discovery of what looks to be the bodies of three other persons. Schmidt was an engineer and had an office in Warren street. The body could be seen piled down under a mass of twisted iron, but could not be gotten tonight. The identification was made by a nephew of Schmidt. At the northwest corner of the Tarrant building a mass of clothing and indistinguishable articles was found. The mass was estimated to be the bodies of three persons. The firemen went to work with a will to dig out the mass, and at 10 o'clock tonight brought forth a portion of a woman's foot and a piece of skull. The skull had brown hair attached, and is supposed to be that of a woman.

Just before midnight a workman found a black velvet coat in the exact spot where the remains were found. In the pocket were 4 cents and an application for membership in the West End Republican club. Shortly after 11 in the same place an unrecognizable mass of human flesh was found. A half of a coat was also found at this place.

The laborers stopped work at midnight and a new gang was started. Superintendent Dooner had a large force of men working as hard as possible tearing down masses of debris and removing it. They worked all day and at nightfall were practically to the end of the mass. The fire extends back some distance and is yet burning.

Life Loss Probably Not Large.

Both Inspector Brooks and Captain Westerfelt were skeptical over the reported large loss of life. They both said they did not expect to find more than four or five bodies to be found in the ruins. A revised list up to late tonight shows thirty-four persons still missing. At 10 o'clock a portion of a human trunk, probably the abdomen, was dug out and a little later a brown canvas coat. There was nothing in the pockets, but four small tin snips. Still later the firemen found another portion of a skull and a portion of a human back.

Dr. Cramer of the Health department, who examined the remains, said they were probably all from the same person as were the foot and a portion of a skull found earlier.

Chief Croker of the fire department says the work of digging out the dead has hardly begun. He believes the greater number of dead will be found on the streets, where the falling walls buried them and the fire charred them. He believes, too, that the fire contained more bodies than most persons will admit.

It was at Warren and Greene streets that the most people were killed, according to Chief Croker's theory. When the crash came and the walls fell as they did, he had no time to get out of the way.

"When we got to that point in digging for the dead," said Chief Croker, pointing to the ruins under the Atlantic cafe, "we will find many crushed and burned to death."

Walls Waver but Do Not Topple. To get to this point today was impossible. Not only were the ruins smoking and suffocating and hot, but the towering walls of Eppens, Smith & Weimann, seven stories high, were threatening to collapse at each breath of wind. Only two of those walls are left standing. The front and rear walls were blown down by the explosion. Every time an elevated train passed these walls trembled. Great cracks appeared in them that grew as the day advanced. It will be no easy matter to remove the walls. Dynamite must be applied and the man who places the dynamite under them must take his life in his hands. Dynamite must also be used in throwing down the walls of the Home Hotel in Greenwich street. With great poles and ropes workmen tried to overthrow these walls today. They would

ENTHUSIASTIC CONVERTS.

There are thousands of them who believe as this woman does.

Mr. Ira Knewlton of Butte, Montana, is a most enthusiastic convert to the virtues of Stuart's Dyspepsia Tablets. He has had obstinate stomach trouble. She says: "I had poor digestion nearly all my life. It now seems to me that for years I never knew what it was to be hungry, to have a good natural appetite, to have a good stomach."

I was troubled with gas in stomach causing pressure on the heart with palpitation and short breath. Nearly everything I ate soured in my stomach, sometimes I had cramps in the stomach which almost rendered me insane. Doctors told me I had catarrh of the stomach, but their medicines would not reach it and I would still be a sufferer had I not, in sheer desperation decided to try Stuart's Dyspepsia Tablets.

I bought a fifty cent box of my drug store and took two of the large tablets after each meal and found them delightful to take because as pleasant as the taste as caramel candy. Whenever during the day or night I felt any pain or uneasiness in the stomach or about the heart I took one of the small tablets and in three weeks it seemed to me as if I had never known what stomach trouble was.

I kept Stuart's Dyspepsia Tablets in the house and every member of our family uses them occasionally after a hearty meal or when any of us have a pain or ache in the digestive organs."

Mr. E. H. Davis of Hampton, Va., says: "I doctored five years for dyspepsia, but in two months I got more benefit from Stuart's Dyspepsia Tablets than in five years of the doctors' treatment."

Stuart's Dyspepsia Tablets is the safest as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, bloating after meals, sympathetic heart trouble.

WELCOME TO QUAKER TOWN

Colonel Rogers Glad to See the Ban Johnson League Coming.

PHILADELPHIA WANTS A RIVAL TEAM

Days of the Old Athletics May Return and Better Gate Receipts for Both Are Hoped for as a Result.

CHICAGO, Oct. 30.—The American league will have no opposition in locating a baseball team in Philadelphia. This was made certain today by a letter from Colonel Rogers of Philadelphia to President Johnson of the American league. In the letter Colonel Rogers stated that he had favored a second team in Philadelphia and believed that the addition of the American league team would tend to revive the interest in the national game. The letter from Colonel Rogers will be read at the meeting of the circuit committee tomorrow. At the meeting will be Jimmy Manning, Kansas City; Charles Comiskey, Chicago; C. W. Somers, Cleveland and President Johnson.

That the committee will decide to invade the east is a foregone conclusion. Baltimore and Washington are certain to be taken into the fold and it has practically been decided to include Philadelphia in the next season's circuit. President Johnson has admitted that things have so shaped themselves that the Quaker city could be regarded as a great asset.

"The American league will take in Baltimore, Washington and Philadelphia," said President Ban Johnson after the meeting of the circuit committee, composed of Messrs. Somers, Manning, Comiskey and himself.

"We will carry out the plans already announced. The three clubs to be dropped have not been decided upon. The league must vote on that proposition."

Comiskey, Somers and Johnson are of one mind, while Manning is of three or four minds. "What I want to know," said Manning, "is whether you are going to send me. I want to stay in Kansas City."

"We got together and threshed out the subject thoroughly," said President Johnson. "No definite action was taken. We probably will go next again right after election and arrange a few minor details. Everything else has been settled. The league intends to drop Kansas City and Minneapolis and there will be no debate on that question when the league meets. The clubs to be dropped have not been decided upon. It will probably be either Buffalo or Indianapolis."

KATONAH GOES TO OUTSIDER

Annie Thompson at 6 to 1 Romps Home a Winner in Stake Race at Empire City.

NEW YORK, Oct. 30.—In spite of the dull, threatening weather a good-sized crowd was in attendance at the Empire City race track. A light rain fell during the afternoon, but not enough to make the track heavy. The only stakes race was the only feature and Annie Thompson, at 6 to 1, won the race. She was owned by Mrs. J. J. Thompson, of Katonah, Conn. She was trained by J. J. Thompson, of Katonah, Conn. She was owned by Mrs. J. J. Thompson, of Katonah, Conn. She was trained by J. J. Thompson, of Katonah, Conn.

Results at Kintock Park

ST. LOUIS, Oct. 30.—The card offered today by the Kintock Park Jockey club was made up of some of the best racing material contained in the track and their antics caused such long delays at the post that the race was not started until 1:15. The race was won by the Belle of the Glen, who was immediately backed to 6 to 5 and went to the post at the latter price. The Belle and Lady Curzon once again met in a contest which was won by the Belle of the Glen, who was immediately backed to 6 to 5 and went to the post at the latter price.

Favorites Bowled Over at Lakeside

CHICAGO, Oct. 30.—Favorites fell at Lakeside in the morning in the stakes races. Kenilworth at 1 to 5 was the first to bow. He was owned by J. J. Thompson, of Katonah, Conn. He was trained by J. J. Thompson, of Katonah, Conn. He was owned by J. J. Thompson, of Katonah, Conn. He was trained by J. J. Thompson, of Katonah, Conn.

Man's Buildings Damaged

Explaining his statement that a dozen buildings would have to be torn down, Superintendent Dooner said: "More important than finding the dead is the protection of the living. The force of the explosion has impaired many buildings in the vicinity. I cannot think of letting them work in them while there is any possibility that they may come down. I believe the buildings along the south side of Chambers street from Greenwich to Washington streets and on Washington street from Chambers to Warren streets have been made unfit for occupation. They will be thoroughly examined this morning and until I am sure of their safety I will order the proprietors to open them for business. Forty buildings were damaged by the explosion. I place the property loss at \$2,000,000."

Dr. Foster, chief inspector of the health department, was at the scene of the explosion today.

"This havoc was never wrought by benzine or naphtha," he said. "I believe it was nitro-glycerine. It is largely used in the manufacture of dynamite as a heat stimulant and Tarrant & Co., as a whole, are druggists, would have had to supply it. The stuff used is in a very weak solution. If Tarrant & Co. had twenty-five pounds of nitro-glycerine in their place it would have blown a building like this into fragments."

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sore and red. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution. S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectively cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record. S. S. S. contains no poisonous minerals—it is purely vegetable and harmless. Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.
