NEW YORK, Nov. 6 .- Sepator Thomas C. Platt gave out the following statement at

At this hour it is apparent that the plurality for McKinley and Toosevelt above the Bronx river is not less than 155,000 and may easily exceed that figure by 10,000. Greater New York is analyst us in the neighborhood of 30,000 and therefore we are confident of the state by nearly 150,000 for the national ticket. It may slightly exceed that amount Mr. Odell has apparently not received in Greater New York as many democratic votes as the national candidates, but in the other counties there is little wariance between his vote and McKinley's. His relatively will not be more than 25,000 less than ality will not be more than 2 000 less that the president's. Hoth branches of the levial lature are republican by increased majoristics. There have been elected four additional republican congressmen.

Most of the early advices were fragmentary and inconclusive, but the strong indications that New York and probably Illinois had gone for McKinley were received with great satisfaction. At 9 o'clock the president received a dispatch from an enthusiastic individual stating that New York and Illinois carried the day for McKinley and that he was re-The responsible leaders made no early

claims, however, although their dispatches told of gains at many points and breathed the spirit of victory near at hand. The president's first congra'ulations from headquarters came from J. H. Manley, at

New York, as follows: "Praise God, from whom all blessings flow. Your triumphant re-election is conceded by democratic managers. I tender my earnest congratulations. We are very

happy at headquarters." Up to 11 o'clock the president gave no intimation to those pearest to him as to his own convictions on the results, although it was the general view of those at the house that his re-election was assured beyond a doubt. The advices from headpuggiers here have been uniformly tayorably. The announcement that Croker conceded New York and Illinois to McKinley was greeted with applause. Returns from Nebraska precincts outside of Omaha and Douglas county are comparatively meager, yet indicate steady and substantial gains for McKinley and the republican ticket. The returns from 260 odd precincts outside of Douglas county are 14,062 for McKinley and 12,789 for Bryan. being a majority for McKinley of 1,260 These same precincts in 1896 gave McKinley 11.242 and Bryan 12.437, or a majority for Bryan of 1.195. The change in these precincts, therefore, transforms a Bryan majority into a McKinley majority, representing a republican gain of 2,458 out of some 26,000 votes, or nearly 10 per cent. If this ratio of gains keep up throughout the state McKinley will secure the electoral vote of Nebraska by a substantial majority.

On governor, returns are now more incomplete, but so far as received point to Dietrich's election as the republican candidate, by a margin over Poynter, about the same as on the presidential ticket.

On the other offices no definite figures can be offered

At 5:45 p. m. Chairman Lindsay of the republican state central committee said: 'It is reasonably certain that McKinley has carried Nebraska by from 5,000 to 7,000 plurality, and it may be larger. We have received reports from fifty-two precincts from the towns scattered over the state and these give McKiney 5,696, Bryan 1,658. as compared with McKinley 5,140 and Bryan 4.572 in 1896, a net republican gain of 471. This ratio of change, if kept Nebraska to McKinley. Returns on the state ticket are indefinite, and it looks as if the contest between Dietrich and Poyntar will be very close. Both of these, according to meager reports thus far received, are running behind their tickets. Nothing has

been received at this bour on the rest of

the state ticket or on congressional candi-

dates that would justify a prediction. Shortly after midnight Chairman Lindsay said: "Everything goes to indicate that we have elected our state ticket and that McKinley will carry the state by from 10,000 to 12,000. We have received reports up to this hour from 138 precincts and they give McKinley 17.787 and Bryan 14.168 The same precincts in 1896 gave McKinley 15.027 and Bryan 14.671, a net republicar gain of 3,263. This shows a change in favor of the republicans of more than twenty-three to a precinct and as there are approximately 1,500 voting precincts in the state, it indicates a good republican majority. Laports on the state ticket are still meager, yet they are such as to indicate the election of the entire state ticket Of course, only a scattering report has been received, but I am confident that it takes in such a wide range that it provides 2.4 a safe and conservative basis for computa-

tion as regards the general result." Chairman P. L. Hall at 10 o'clock gave The Bee the following statement: "At present it looks like McKinley was elected; that he has carried New York, Ohio and Illinois, and that elects him The returns from Nebraska are too meager to base an estimate upon, but Bryan will
