The Opportunity of a Life-Time is Offered in Free Scholarship Contest of the International Correspondence Schools,

All liberal-minded persons agree that the best wealth to acquire is an education that can be used-an education that will not only make your income larger, but also make your work lighter and more pleasunt. Several renders of The Lies fully realize this fact and have taken the opportunity of the Proc Scholarship contest, in which ten courses of the world-famed International Correspondence Schools of Scranton,

Pa., will be given to the ten successful contestants. Although the time is about half gone, Mr. L. G. Woods of Tekamah. Neb., starts in the race today with the determination of carrying off one of the valuable prizes. The following is the standing of the con-

We believe that it is the duty of all, aside from the reward which is being offered, as a matter of self-preservation and for the general good of the public to cooperate with the proprietor of these famous springs-in the first place to assure themselves that they are really getting the genuine Buffalo Lithia Water when they ask for the same, and in the second place to report promptly any case that may come to their notice where dishonesty that is apt to produce such serious results, is being prac-

Sets High Standard. Sets High Standard.

In grading pupils of the commercial department in the High sensoil, N. B. Vata-Matre, who has charge of the work, has refused to give credit for mathematical work which is not absolutely correct in every detail. He has adopted the standard set by business men and maintains that work which is wrong in any particular is not worthy of consideration. Some pupils objected to such a strict system and declared it unjust, but Mr. VanMatre adhered to his original plan and has demonstrated to his classes that persons who expect to succeed in the business world must abide by its standards.

Mayor Favors Resolution.

When asked if he will sim the resolution passed by the council which empowers the Board of Public Works to drain the flats north of Nieholas street and east of the tracks of the Omaha line, Mayor Moores said that he is heartly in favor of this plan and will do everything in his power to carry it out. As soon as the mayor attaches his signature to the resolution, the city engineer will put men to work draining the pends, and more than twenty acres of valuable warehouse property will be recialined.
