Bearish News Closes Wheat at a Slight Net Loss.

CORN HAS A MILDLY STRONG EXPERIENCE

Outs Seem Barely Alive, with Slow

few brief punctuations in the shape of in-cipient railies, was one long exhibition of liquidation by holders and short selling by traders looking for prices still lower, although today's trading established a new ow-price record for this crop. The news was bearish from start to finish. The marker opened under the influence of indifferent | Reese, 6497c; turkeys, 7984c. cables, favorable crop reports and a Broom-

was bearish from start to finish. The market opened under the influence of indifferent cables, favorable crop reports and a Broom hall estimate of an Argentine expertable surplus of 6,609,000 bershels. December, 439 for to 195%; lower at 71% to 71%; offerings were liberal and the demand limited and December dropped early to 71%; offerings were liberal and the demand limited and December dropped early to 71%; offerings were liberal and the demand limited and December dropped early to 71%; offerings were liberal and the demand limited and December dropped early to 71%; offerings were offerings were to 10%; and closed like under yesterday at 71%; fixed followed. There was very little cash stuff wanted, however, and as outside people showed no disposition to assume the burden of hoiding up prices, the market sagged again. December dropped to 71%; fixed followed like under yesterday at 71%; fixed followed like offerings for export. Seathoard clearances in compared with \$37.98 bushels last year. Minespella and Duluth reported \$42 cars, against 47 last week and \$87.2 a year \$50, Local receipts were 18 cars; twenty of contract grade. A liberal visible increase is 1000 for the proposed of a feeding buil scalpers held the market in check until the last hour, holding the price of December close to yesterday at 71%; fixed followed like under yesterday at 71%; fixed followed like under yesterday in the fixed followed like under yesterday for the followed like under yesterday for the followed like under yesterday for the followed like under yesterday followed li .000 head. The leading futures ranged as follows:

MOVEMENTS OF STOCKS AND BONDS.

Better Strength Shown Than on Any
Other Day Since Election.
NEW YORK, Nov. 16.—Although today's
business in stocks did not recover to the full measure of last week's in matter of volume the tone of the trading and the showing of strength were the most impos-

full measure of last week's in matter of volume the tone of the trading and the showing of strength were the most imposing and substantial that have been made since the election. The feverish and sensational movement in Isolated stocks and the indiscriminate rish to buy in a lump were not shown today. Instead there was a steady and persistent absorption of stocks of the best character, with legitimate speculative prospects of increased carning power, or increased security by reason of auded earnings for junior securities. In the early dealings the speculation showed a disposition to look for leadership, and powerful leaders were at hand to inaugurate inviting advances in prominent stocks in almost every distinctive group on the exchange. The absence of realizing pressure as the advances were easily made, encouraged the growth of the demand and strength was disseminated all through the list. The western trunk lines and the coalers were the most conspicuous exceptions and were not largely traded in nor widely moved, but there was no positive weakness manifested even there. There was no important exception to the upward course of prices and among the stocks of railroads all through the south and west, including the transcontinental lines, the strength was asionishingly uniform. There was scarcely a railroad stock traded in within those limited that did not gain at least a point. Not a few rose 2 points or over, while Burlington and Atchison preferred gained respectively 8% and 3%. The coal roads also made a good showing of strength. The preferred stocks of reorganized railroads were evidently the lavorities in the speculation from the way one after the objection, considering the transcontinental lines, the strength ward. The local traction stocks and the high-prices industrials were strong, but were not conspicuous. General Electric got up another 1½ points, consolidated Gas. Brooklyn Union Gas 4½, while New York Alt Brake made one of list characteristic skyrocket flights of 25 points, relapsing half that amount.

looked for, and the continued tendency toward lower rates for money, which made the maximum rate today for call loans 4 per cent, falling in the late dealings to 3½ per cent, relieved all apprehension over the money outlook. Profits on the day's advances were attractive enough to induce some selling toward the close, but the effect upon prices was slight and the closing was active and steady.

The substantial character of the buying was even more manifest in the bond market than in the stock market, high grade bonds coming into additional fayor. Prices are very generally higher. Total sales, par value, \$1,320,000. United States bonds were unchanged on the last call.

The Commercial Advertiser's London financial cublegram says: The markets here were slightly less active, but generally firm today. Americans were very strong; they opened good over parity. Berlin buying again. This started snother important upward movement, which continued with New York assistance, practically without reaction, to the close. In the street the market was particularly buoyant. Atchisons, Union Pacific, Louisville & Nashville and Southern Railway issues the leading features. The money market's tone was slightly easier. The bark lent a small amount for

LONDON, Nov. 16	4 p. m.—Closing:
Cons., money St. do acct	Pennsylvania 77 Reading 17 No. Pacific pfd. 52 Grand Trunk 6 Anaconda 57 Rand Mines 85

BAR SILVER—Steady, 23%d per ounce. MONEY—3% per cent. The rate of discount for short bills is 3% per cent; for three months' bills, 3 15-16 per cent.

NEW YORK, Nov. 16.—The following are the closing quotations for mining shares today:

Foreign Financial.

LONDON, Nov. 16 - Money was in good request today, with no present promise of being easier this year. Recently operators have been able to borrow on their terms. Now they have to go to the Bank of England and pay 4½ per cent. After November the requirements will be the usual heavy cash drain toward the provinces during December, besides the possibilities in connection with the government's temporary requirements. Business on the Stock exchange today was fairly active Foreign Financial. connection with the government's temporary requirements. Business on the Stock exchange today was fairly active and had a good tone. Home Rails were firm on investments and bear purchases as a estall of the more hopeful coal cutlook. Americans opened above parity and were in good demand throughout. The features were Louisville and Northern Pacific common. A sharp rise in Atchisons was due to the speculation cliques in America. Grand Trurks were in fair demand. Copper was firm and especially Anacondas. Kaffirs opened firm, but relanged owing to lack of public support. Bar gold is quoted in the onen market today at 7.8 11%d. Gold premium at Buenos Ayres, 132.80; Spanish 4s, 68%.

mium at Buenos Ayres, 132.80; Spanish 4s, 68½.

BERLIN, Nov. 16.—On the bourse today funds were quiet but steady. American securities were strong, favorably influencing locals. The American attitude toward the Chinese question exerted a good effect on the market. Mine shares were particularly animated owing to encouraging reports in regard to the American Iron market.

PARIS, Nov. 16.—Business opened huoyant on the hourse today, but later, owing to absence of animated trading prices became irregular. Rentes hardened toward the close. Spanish stocks and tractions were offered. Rio tintos were weak on the increase, which it is anticipated the copper statistics will show. Kaffirs were strong, but reacted at the finish on profittaking. Three per cent rentes, 1991 50c for the account; exchange on London, 25f He for checks; Spanish 4s closed 68.32½.

Condition of the Treasury.

WASHINGTON, Nov. 16.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption.

organ of the western iron trade, will say

The important uncertainty this week is the length and breadth and depth of the post-election buying beom. During the last ten days there has been the largest business of the year in fron and steel. Much had been heard in the last two months of prospective purchases that were to be delived until after the verdict of the pells. There were reports of delayed orders of this nature in most branches of the trade. The sequel proves the correctness of those teports.

mature in most branches of the trade. The sequel proves the correctness of those teports.

It was noted a week ago that southern pig iron had just experienced its most pronounced period of activity. This week northern irons were equally active. The malleable tron buyers entered the market almost en masse and when they departed perhaps 75,000 tons of iron for future shipments had been charged up to them by makers. Steel rails have been a favorite, and while exact information is not readily accessible it is learned from indirect sources that a heavy tonnage has been placed. The outlook for the rail mills is considerably brighter than it was several weeks ago. Buying has also shown gains in various other branches.

There are some evidences that this pentup trade is now fairly well out of the way. The week is closing with less activity than that with which it began. And there is a very marked difference of opinion as to the course of the market in the immediate future. But whether prices slowly recode or gain second breath for a further and more notable rise, there is little question that a new season is about to open that will be phenomenally active. One cause for the strength of the market is the fresh confidence that has permeated the markets throughout and the more harmonious rolationship among large producing companies. But even back of that is the insistent demand that has already crowned many mills with orders, absorbing their output

mills with orders, absorbing their output for months ahead.

Plates are \$2 per ton higher and bars have advanced from \$1 to \$2. There are unconfirmed reports that pipe will be stiffened a good 5 per cent. Local pig from is worth to cents more than a week ago. Billets are \$1 higher. Sheets have a firm undertone. Holders of old material have decided views regassing values. Bolts have shot upward. Finished material generally is optomistically inclined.

Furshed material generally is optomistically inclined.

Pig Iron Prices.

Pig Iron Prices.

The last week has perhaps surpassed its predecessor in activity in pig fron. Tills time the malicable product was pretty much the entire exhibition. Melters have been dailying with the market for several months, but were unable to reach a decision. The election was the apparent obstacle. The votes were cast and a few days passed. Southern products showed animistable strength and the malicable growth obstacle. The votes were cast and a few days passed. Southern products showed animistable strength and the malicable comes and the malicable growth obstacle in the large consumers are said to have down in the first time had come. All the large consumers are said to have down in the malicable strength and the malicable gestimated at 75,000 tons. There has also teen sood buying of foundry trons, one car builder taking 5,000 tons and another local foundry 6,000 tons. Demand, in fact, has been so good that prices of northern trons have been comparatively less active, but the advanced 50 cents. Southern trons have been comparatively less active, but the advanced of cents and are not quotting below in the other hand, are not quotting to the product it still below to the product it is still

SPRINGFIELD. III., Nov. 16.—The annual meeting of the Hilinais Sugar Heet Growers association began here today. The day was devoted to addresses on sugar beet growing. officers for the ensuing year will be elected FREE SCHOLARSHIP CONTEST Encourage Some Ambitious Person by Cast-

ing Your Votes for Them. SCORE RUNNING UP IN TH CUSAND

You Can Vote Early and Often for These Scholarships of the International Correspondence Schools.

Don't lose your ambition. Don't think

that because you falled to get a good edu-

cation when young, you can never get one. You can get an education now that will enable you to rise in life as surely and as high as if you went away to college. You can get a professional education right at home, in spare moments, and without an hour's loss of time from your present work. Others have done it. You can. Read this letter from Mr. Alex McKendrick of Pateron, N. J., who has risen from an ordinary machinist to be a draftsman and designer of machinery: "I worked from twelve years of age up, without having had any early educational advantages; but today I possess a good education in mechanical engineering. I studied this subject in the International Correspondence Schools, beginning May 15, 1895, and graduating October 19, 1896. I have risen from an ordinary machinist to be a draftsman and designer, and now hold a responsible position with a good salary, which is mostly due to the thorough course of instruction received. I have enrolled also in the electrical engineering course, and hope to rise higher still when I have secured a knowledge of the design of elec-

trical apparatus."
To do what Mr. McKendrick and thousands of others have done requires no ex-CHICAGO LIVE STOCK MARKET. traordinary ability. It calls only for perseverance. "Pepetual pushing and assur-

New York Live Stock.

NEW YORK Nov. 16.—BEEVES—Recipts. 3190 head. steers. 10g:5c higher on sale today, and the market was steady in some cases, while in others it was a fittle lower. Buyers did not seem particularly anxious for supplies, and sellers found it difficult to get yesterday's prices, particularly in the market was not very good.

The supply of cows was not very heavy today, and in the majority of cases the market was not materially different from what it was yesterday. Prices have been supplied at the week of the been grades are perhaps, not at a rapid rate all the week it seems to some cases are even worse than that. The best grades are, perhaps, not quite a quarter lower for the week, but they are all of 15c lower.

The stocker and feeder trade was in bad shape today. There are a good many cattle in the hands of yard traders and as the demand from the country is very light they of want to buy many more today with a first own sale, and the market was a filted to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found. For the week it is safe to good as the market is 15g/5c lower, the greatest decline heing on the common of the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers found the cattle was at little to say that the market is 15g/5c lower, the greatest decline heing on the common sellers
