5% INCOME GUARANTEED.

BEST INVESTMENT IN THE WORLD. THE INVESTABLE DEBT.

SURPLUS \$5,000,000. COLD DEBENTURES.

BETTER THAN A GOVERNMENT BOND. Five Per Cent Income Guaranteed, Bond and Forty Semi-Annual Coupons Payable in Gold, Either at Once or in 20 Years to Bearer, Sold on Easy Installment Plan.

Suppose an Agent of the Treasury Department should call on you and say: "Five Per Cent Gold Bonds for any amount from \$1,000 to \$200,000, and if it is not convenient to make an immediate settlement, you may pay for the bonds in twenty equal annual installments. You will pay in addition to the government money to offer this the most desirable investment in the world, should stipulate that if you should die before all the installments had fallen due, your heirs would be released from paying the remaining installments, and yet that the full value of the bond would be paid to them in hard cash by the government."

Would you not close with such an offer? And yet this is practically what the INVESTABLE DEBT ANNUAL CERTIFICATE OF THE UNITED STATES (the strongest financial organization of its kind in the world) has done and is doing.

This may be a strange way of putting it, but strange as it may seem, it is nevertheless true. Send your date of birth for a specification today.
