MOTHER HAS NO REDRESS

Form of a Vagabond Husband Stands Between Her and Justice.

NO DAMAGES ALLOWED FOR SON'S DEATH

Corporations Said to Be Responsible Take Refuge Behind Klak in the Law and New Trial is Denied.

Judge Munger has filed his opinion in the case of Anna J. Thompson, administratrix, against the Milwaukee railroad, in which he denies the motion of the plaintiff for a new trial. This case created considerable interest at the time of its first trial for the reason that a rule of law in force in the state of Nebraska was applied to the case which excites the pity and indignation of many persons. In this case Mrs. Thompson sued the railroad company and the Armour Packing company for \$5,000 damages for the death of her minor son. The judge in his opinion reviews the case, saying that it was brought under the state law and came up in the district court for the reason that the defendants were non-residents of the state. The plaintiff proved that the death of the boy was caused by the negligence of the defendant; whereupon the defendant moved for a dismissal of the case for the reason that the mother of the deceased was not the proper person to bring the suit, the law providing that such suits should be brought by the administrator of the estate for the benefit of the next of kin; that the father was the next of kin and that therefore he would be the person in whose behalf the suit should be brought.

father of the boy had deserted his family

and had been absent from them for a period of more than ten years; that the mother had supported the children until the death of the boy was able to support her. In his opinion the judge holds that the father is the proper person to bring the suit and that the complaint could be amended to bring the case before the court, but he further decides that, if such case was brought, the father, by his desertion of the family, had lost all right to the wages of the son and, therefore, could not be damaged by his death. For these reasons the application for a new trial is denied.

Court Notes.

The jury in the federal court has been dismissed until Monday morning by Judge Munger.
Lucy J. Bennett has applied to the courts for a legal separation from John W. Bennett. Deserter is the cause of action.
In the United States district court Mark E. Bohrer of Omaha has filed application to be declared bankrupt, saying that he owes \$25,807.25, and has assets of \$255.
Judge Pawcett has returned from Illinois having secured for the last week on account of the death of his son, Judge Pawcett will probably hold court again next Monday.
Lizzie S. Leake has commenced suit for a divorce from Leon F. Leake on the plea of desertion. Plaintiff asks for alimony and the return of her maiden name, Lizzie Maudslayi.
In Judge Baxter's court W. W. Cox, formerly chief of detectives, is suing the city for \$200,000, claiming that he was discharged from the force.
Lester Black, the 30-year-old boy who has been kept in the county jail pending a hearing on the charge of incorrigibility, was discharged by Judge Baker yesterday. The lad's mother, with whom he has been living in the city, consented to his being returned to his father at Elliott, Ia.
Articles of incorporation for the Interstate Stock and Grain company, with a capital stock of \$10,000, have been filed with the county clerk. The incorporators are Edward Bradley and Thomas Taylor of Chicago. The main office of the concern will be in Omaha.
The jury in the case of William Adlitz, executor, against Ernest N. Blackman, returned a verdict in favor of the defendant. Blackman was charged with having removed from among his wife's papers, after her death, a \$500 note which he had given her in 1882. The testimony against him was by a sister of the wife.
Sheriff Power and his deputies are serving a writ of replevin to recover from the Omaha Machine works property which composed the assets of the Omaha Gas Engine and Motor company sold by the receiver at the recent sale to Levy. This is the second complaint the men have against him.
Charles Roosevelt and James E. Veatch, charged with stealing brass journals from the Missouri Pacific Railroad company, are being tried before Judge Baker, a jury having been impaneled yesterday. This is the second complaint the men have against him.

NEW FEATURE IN SCHOOL WORK

Teachers Trying to Bring Mothers in Touch with Kindergarten Methods.

That the mothers of the city may be brought into closer touch with kindergarten work Mrs. Orietta Chittenden, supervisor of kindergartens in the public schools, has adopted the plan of inviting mothers of pupils to visit schools on certain days. The first "mothers' morning" was held at Lothrop school several weeks ago and was a great success. Forty-five children are in the kindergarten and thirty-seven mothers responded to the invitation to pay the school a visit. Similar invitations were issued by the principals of Mason, Train, Omaha View and Central Park schools. "It is not our aim to invite the mothers to come some day when show work has been prepared," said Mrs. Chittenden. "We want to have them see our regular exercises and hope to impart to them the true kindergarten spirit. Although everything is taught by us in play, women who watch the children cannot fail to appreciate the value of the training they receive. Where we have been able to secure the hearty cooperation of mothers we have found that the children yield to discipline more readily, and much of the friction between parents and teachers is avoided. During the year we expect to have mothers visit every kindergarten in the city at least once."
