MONEY-4 per cent.

The rate of discount in the open market for short bills is 4 per cent; for three months' bills, 4444 per cent.

Foreign Financial.

LONDON, Nov. 27.—Money is in good demand and scarce, and the Bank of England entirely controls the market. Discounts are very firm and a large number of bills were taken by the Bank of England. Business is so brisk that the bank is adhering to a more rigid rule and is not discounting after 2 o clock. Prices on the Stock exchange today were firm and operators were chiefly occupied with the carry-over. Much business was done in the forthcoming exchequer bonds at about 98.58. The chief feature was home rails. There was a continued demand for Scotch rails. Argentines were firm; Americans opened above parity, dealers bidding vigorously; Southern railroad common touched the highest point of the year; Denver preferred and Louisville were especially supported; at the close prices were easier; Kaffirs were firm. Chartered especially; afterward they were below the best prices of the day. The amount of buillon withdrawn from the Bank of England on balance today was £168,000. Gold premium is quoted at Buenos Ayres at 131.90.

PARIS. Nov. 27.—Prices opened firm on the bourse today, being encouraged by London advices, but they were soon weighted down by realizations in view of option day. The transactions were restricted and at the close the market was quiet. Internationals were easier; Rio thnos fluctuated and Kaffirs were lower on bear sales. Three per cent rentes, 100f 55c for the account; exchange on London. 25f 11½c for checks; Spanish 4s closed at 69.90. BERLIN. Nov. 27.—On the bourse today home funds were in good demand on investment buying. Internationals were firm; Americans and Canadian Pacifics were maintained; mines opened firm, but closed easter on the declaration of options; exchange on London. 25f 11½c for checks; Spanish 4s closed at 69.90. BERLIN. Nov. 27.—On the bourse today home funds were in good demand on investment buying. wool Market.

BOSTON, Nov. 27.—WOOL—The wool market here seems to have had the air cleared by the recent failures of the two wool firms, one in this city and the other in Philadelphia, and there is a firmer feeling although no one is looking for a marked for advance. Territory wools continue to lead in sales, fine medium and fine calling for sare quiet, but prices are firm. Cotton Market.

NEW YORK, Nov. 27.—COTTON—Speculatively the day was a peculiar one in the cotton market. Whereas the feeling was radically builtsh and though prices scored pronounced rises operations were confined to a narrow, professional interchange for the most part representing settlement of old accounts. The market started steady, 26713 points higher, and steadily, though slowly, advanced on room covering, scattered investment purchases and straggling support from the foreign contingent. The influences serving to install buil confidence were not numerous; in fact, firm cables and reports that the south was not selling its cotton, as was reported yesterday, were the dominating factors all day. Receipts were decidedly larger than anticipated and the average estimates by the New York Cotton exchange members pointed to a larger yield than the trade had looked for. The public appeared to be entirely absorbed in other markets, while prostrated wires in the west prevented business reaching the pit from that quarter. Liverpool stated that American buying orders and scarcity of efferings from the south had caused the advance there. At the close the market was strong, 11973 points higher. Feeders were in fairly good demand today but the tendency was to shade prices a triffe unless the quality was very good. The number of buyers on the market has not been as large this week as previous to this time and as the supply is keeping up in pretty good shape there is some tendency toward lower prices, particularly on the commoner kinds.
