## PROMINENT MEN DIE OF BRIGHT'S DISEASE.

Within the last few months the newspapers have contained frequent mention of the death of some prominent man, a victim of the malignant Bright's Disease. Two men of wide repute-Mr. Henry Villard, the railroad magnate, and Marcus Daly, the Copper King-having died of this disease within a few days, and we now learn of the serious illness and expected death of a well known United States Senator, stricken with the same disease. This only serves to show what terrible progress kidney disease is making, as it is reasonable to asume that where we hear of one death from Bright's Disease there are thousands we do not hear of. The most remarkable feature about this disease is that physicians seem totally unable to cope with it; strive as they will, the disease keeps gaining and the patient dies in spite of them. Through all this fruitless experimenting on the part of physiclans the marvelous efficacy of Prickly Ash Bitters in the relief and cure of Brights Disease, Diabetes and Urinary troubles is becoming more generally recognized, and as a result its use has increased very rapidly .. It has been so uniformly successful in curing these diseases that many physicians have conceded its great merit while condemning proprietary medicines as a class. Results will prove the truth, and it is upon results achieved that Prickly Ash Bitters bases its claim to be a successful and speedy cure fur diseases of the kidneys. The secret of its success lies in the fact that in addition to its great healing influence in the kidneys and bladder it cleanses the system of impurities. strengthens the stomach and digestion, and regulates the bowels. All these organs are concerned when the kidneys fail to do their work, hence it is necessary to the successful treatment of the disease that they be strengthened and purified. There is no case of Bright's Disease, where life still holds out that Prickly Ash Bitters will not help, and in milder cases it affords such prompt and effectual relief that strength and vigorous health are soon restored. Persons who have reason to suspect that their kidneys are not quite right should take warning-the disease spreads rapidly and becomes dangerous before the victim is aware that he is seriously affected. The wise course is to be sure that the kidneys are well and strong. Pricly Ash Bitters offers the best means for putting these organs in condition. If they are affected it cures them; if they are healthy it does not harm them, but stimulates and purifies the entire system. Sold at Drug Stores.
