DON'T NEED REST. Starved Nerves Need Food.

A food that will naturally stimulate and nourish a man so weak that he cannot feed himself must have intrinsic merit and be worthy the attention of any person with a weak stomach. S. D. Twelve men were employed around the building and in addition to such of these as were present at the time a number of strangers were standing about watching the dynamos in the electric light plant. Four of those killed were people not employed by the road and all four bodies

were taken to the morgue unidentified. Cause of Explosion a Mystery. It is not known what caused the explosion. At a few minutes past 5 o'clock one of the boilers in the center of the row of four burst with a detonation that was heard at points a mile distant. The end of the boiler was blown toward the end of the passenger depot and landed fully seventy-five feet away from the boller room. The boiler itself, which weighed

ten tons, lies tonight sixty feet from the boiler house. Just as the explosion occurred the Ash land limited train was pulling out of the station. The greater part of the train had past and although all the cars were heavily battered with falling bricks and debris only the last two coaches, a Puliman sleeper and a drawing-room car, were badly damaged. The boiler head and the botler itself caught these coaches. The boiler struck the rear car, while the boiler and struck the cars above the windows, carrying away portions of the roof and vestibule. But few of the passengers happened at the time to be in the ends of the two cars hit by the flying metal and such of them as were hurt were struck by flying splinters or suffered from being thrown

violently to the floor. On the train were Mr. and Mrs. August Beck of Milwaukee and Mr. and Mrs. William Becker of Sheboygan, Wis. Both couples were returning from their bridal tour dashed against a seat in the car and sustained internal injuries, which may prove fatal. Neither of the cars were thrown from the track and the engine drew them quite a distance before coming to a stop. Traffic, however, was interrupted for nearly four hours. The destruction of the electric lighting plant plunged the depot into darkness and the pile of debris that was thrown across the tracks temporarily blocked

suburban trains. The property loss to the road will not be far from \$100,000. The boiler house was practically reduced to ruin. The cause of the explosion is a mystery, the boilers the foremost colored men of his having been inspected by the insurance generation. public tonight. It tells how Jessie Morrison called on her on the morning of the assault and how they discussed Miss Morrison's relations with Castle. Miss Morrison had a letter and asked if Mrs. Castle had written it. Mrs. Castle said no. The statement

goes on: "Jessie at first denied all that I told her, but finding that it was of no use she then confessed it all and then she said: 'Well, you may read the letter.' As she said this she arose from the lounge and passing ir front of me and to my right, looking out of the door, she asked me if there was anyonabout the house. I saw the letter in her left hand when she arose from the lounge "The next thing I knew Jessie Morriso struck me across the threat with a razor which she had in her right hand. I do not know where she took the razor from. I tried to defend myself the best I could fro the blows. I cut my fingers in trying to ge the razor from her. I also screamed all could. She was on top of me. She got of of me and cut herself in the throat and arms. I saw her do it.

"I do not know how many times Jessie cut me or struck me with the razor, but a great number of times."

stops the tickling at once. The child grows so quietly you do not notice it from day to day. But he goes steadily on until he is a man. So that terrible disease, Consumption, Bronchitis, Pneumonia and La Grippe begin with a slight cough or "just a little chill." Have a 10c vest pocket box of Dr. Kay's Lung Balm with you all the time. If your throat tickles let a lozenge dissolve in your mouth. It will stop the tickling at once. It will stop the hacking cough at once. It will stop a slight cold at once. If you allow these slight symptoms to continue it means more thorough treatment. Don't get discouraged no matter how advanced your trouble has become. Dr. Kay's Lung Balm cures all obstinate and deep seated coughs, bronchitis, bleeding of the lungs and all other diseases of the organs of respiration, which if neglected and unskilfully treated end in consumption.

Don't take any substitute that anybody tells you is just as good, for it positively has no equal. If you can't get it at druggists send the price direct to the Dr. B. J. Kay Medical Co., Saratoga Springs, N. Y., and it will be sent prepaid by return mail. Also ask for free advice, free sample and free book. Dr. Kay's Lung Balm is sold for 10c. 25c and 50c by your druggist.
