High Officials Visit City.

Omaha was the host vesterday of a number of prominent operating officials of roads whose headquarters are out of the city. Some of them were here on mere trips of inspection, while the others attended a meeting of the Western Car Service association held at Union Pacific headquarters yesterday morning. Among the visitors were W. A. Gardner, general manager; R. H. Aishton, general superintendent, of Chicago, and H. J. Slifer, superintendent at Boone, all of the Northwestern; General Superintendent A. J. Hitt of Chicago and W. H. Stillwell of Topeka, superintendent of lines west of the Missourt, both of the Rock Island: W. C. Wat rous of St. Louis, superintendent of transportation, and C. M. PAVING LAWS NEEDED

Unscrupulous Owners Are Now Able to Shift Burden Upon City.

Magner recently resigned his position with Rotten Pavements Cannot Be Replaced Without Voluntary Petition and Even Then Citizens Frequently Escape Just Tax.

"Omaha's greatest need is a complete revision of the paving laws," said City Attorney W. J. Connell when asked what changes in the city charter will be sought in the legislature. "We can manage to get along without other changes in the charter providing we can secure the repeal court yesterday afternoon on the charge of the present paving laws and can enact tem will be done away with.

Payment of Policemen. The police department is also desirous of remedying certain provisions of the charter. Its complaint is regarding the

payment of officers. "The officers in the police department are not graded as they should be, to encourage mer, to remain in the service," said Chief of Police John J. Donahue. "Under the present city charter, patrolmen entering the service receive \$65 per month, and after remaining in the department six months

Judge Keysor has issued an alternative wit of mandamus to compell the village of Valley and H. M. Puffer, the treasurer, to pay a warrant for \$123 in favor of Charles Harrier, the petitioner. Harrier alleges that this sum was expended by him as a village trustee in the prosecution of William Ball on the charge of selling liquor without a license. He secured a warrant from the trustees for the expenditure, but the treasurer refused payment on the paper. The writ is returnable on December 5. "At the end of six months I would have the salary increased to \$55. Another \$5 should be added at the end of the first year. In eighteen months the amount should be raised to \$65, and men who remain in the service for two years should be paid \$70. Then I think it would be well to increase the salaries of the sergeants and captains. If this were done promotion would mean mere to the officers and I think they would be encouraged to do better work."

ORIGIN OF GARBAGE STATUTE

Conneil Desired to Restrict Depusit to Certain Districts-Wagons Are Now Water-Tight.

In view of recent attacks which have been made upon the city garbage ordinance, City Prosecutor B. F. Thomas was asked today to express an opinion as to the efficacy of

that measure. He said: "My observation has been that the present contract system of hauling garbage is entirely satisfactory and that it is the only means of securing good service to the city. The object which the makers of garbage ordinance No. 4462 (the one now in force) had in view was two-fold-first, to secure the hauling of refuse in water-tight wagonbeds; second, to secure the dumping of such refuse within the limits prescribed for such purpose only. The company which has the garbage bauling contract now is equipped for work of this kind. It uses only watertight boxes for the purpose, covered with a close fitting lid.

"It is easy to anticipate what the result would be if there were no restrictions placed upon the hauling of garbage. All kinds of vehicles would be pressed into service and vile smelling loads would be driven through the streets, leaving a trail of refuse behind. No vacant plot of ground in the city would be exempt from use as a dumping place. The health and comfort of citizens might be disregarded. Under the present system the company having the contract is under bond to the city for the faithful performance of its duty, and is liable on its bond for all damages.

"The recent fine of \$5 and costs which was mposed upon two young men named Joe Hawkins and Jessie Silke for hauling garbage in violation of the ordinance has been seized upon by a certain newspaper as a text for a series of rabid articles, the purpose of which was to make out the measure as fostering a monopoly and working a hardship upon poor men desirous of earning an Mayor Moores is also of the opinion that honest living. WEEKS IS AN ARTFUL DODGER

Lively Scene of Parry and Thrust Occurs Between Evasive Witness and Prosecuting Attorney.

Sam Weeks is not a native of Arkansas but on the witness stand in police court yesterday he displayed a facility in the gentle art of evasive answers that would easily entitle him to citizenship in the fever-and-ague state. Weeks was a witness for the defense in an assault and battery case. R. L. Corey of 1211 Bancroft street had remonstrated with Otto Samuel son, his next door neighbor, for beating a horse; Samuelson had resented the interference, and a sharp colloquy was followed by a fight in which the Swede was worsted. "He was going south." The dialogue was much longer than this and the foregoing questions and answers were interspersed with various exhibitions of temper on the part of Blake and sundry displays of mock penitence on the part of Weeks, but in the interest of brevity they are omitted. The turn closed by the court's imposing a fine of \$5 and costs upon Corey.

The Eye

won't stand very much abuseit refuses to work-then you guit working, too. The only reasonable thing for people with eyes to do when they begin to show signs of being contrary is to select some reliable optician and have him doctor them with a pair of the right kind of glasses. We are opticians. We are reliable.
